OUR PRICES ARE LOW

BECAUSE OUR EXPENSES ARE LOW

We have neither clerks, journey-men nor rent to pay. Because we buy for cash and save the discount.

Because we sell for cash and our customer reaps the benefit of both discounts.

Altgether this makes a saving of about 15 per cent. Just figure it up and see how much difference this makes, for instance on a watch the ordinary price of which is \$25.

JUST \$3.75

15 per cent. is worth saving. We do not profess to "slaughter" goods nor to do business for the fun of the thing. Neither do we sell goods at cost. Our aim is to do a legitimate business and make a reasonable profit thereon, to pay for the time and attention devoted to it. We are enabled to do this on a small margin of profit because of the reasons given above. This is no catchpenny selling out cry. It is a regular and continuous method, adopted when we began business, and is founded on a sound financial basis. You can ALWAYS get better value from us than is to be obtained elsewhere—not for 10 or 30 days—but every business day year in and year out. It pays us and it pays our customers. They get extra good value for money expended with us and we gain new customers and our business increases.
