The Victoria Warder

FRIDAY, AUGUST 17, 1888.

In Memoriam.

Died on the 18th of George Street, who died April 18th, 1888.

Another joy, a father's pride,
And only sister's truest friend!
A brother's daily, hourly guide
From them it was His will to send.

His pilgrim days below were brief,
But just as he in manhood grew,
God called him home, and Oft the grief
It gave to friends to bid adieu.

While dwelling on this earth below,
And mingling with the busy throng,
He lived as though he seemed to know
His sojourn here would not be long.

And so it proved, for one bright day,
While sister's footsteps were unlimited,
Death's message came, "Come, come away,"
And to the call he did responded.

God's messengers in haste was sent,
To bear his spirit to the skies,
And loving hearts with grief are rent;
But O! can they all weeping cease.

Behold! Behold the message flew,
And O! how terrible the shock,
One thing, it was God's will, they knew,
To have him with the chosen flock.

The cruel stick that crushed to earth
Just nearly from an fair,
In consequence of the death
Was all mortals here.

To bid a friend he was to all
Where'er that help of cares,
Is to be free from all
And dwell above there.

In earth, forever gone,
To come evil and care;
To the put connect once,
Up there.

Pilgrimage on earth is o'er,
Life's begun,
With the Lord
The Lord is good and kind to all,
And gone is with jealous care
All those who put their trust in Him,
And listen His love to share.

He loves all things for our good,
His counsels are right and true;
So we will to His mind bend,
And trust and watch and pray.

So though we mourn the loss of one
Who was so kind and true,
We'll not murmur at the trial for His sake,
But strive and serve Him, too.

And when at last our earthly course,
Shall fourteen His sufferings with,
Our reunion will be once,
Our journeying ended to Him.

Jane Cook.

Teachers' Examinations.

Forty-two candidates for teachers' certificates were at Peterborough on all of whom passed for the third class. The following were successful:—Second Class—S. Bowes, E. Cameron, R. Armstrong, W. Carruthers, E. Middleton, A. Scully, C. Sullivan. Third Class—H. Bennett, R. Nelson, W. Wood.

Peterborough Gold plate is not a one. The Examiner says:—"Much regret is felt by the fact that out of [illegible] of the Collegiate Institute who presented and third class teachers' examinations only 10 were successful. And and it is there. This was almost as [illegible] and it is extremely singular that only good success has marked both occasions this at least."—Times.

Matriculation Examination.

The following are the names of those who matriculated in arts from the County of Ontario and their school:—
D. O. Kennedy, Oshawa High School;
A. W. Campbell, Whitby Col. Institute;
W. H. T. Addison, Uxbridge High School; H. A. McKee, "
Miss M. N. Jack, "

The following embellished the department second class certificate for the [illegible] by it:—
R. W. Pardon, Oshawa High School;
M. J. Gordon, Whitby Collegiate Institute;
A. W. Dale, Miss H. M. Burns—
M. C. French succeeded in taking honors in mathematics.

Arts and other class results.

The following is a list of those candidates who have successfully passed the recent second and third class non-professional examinations for Ontario:—
Second Class—Miss Alice Dingle, Miss Edith Luke.
Third Class—Misses Pearl McGill, Ella Whitney, Bertha Sing, Oshawa Vocabulary.

Oakwood High School.

To the Editor of The Warder.

In your issue of the 15th inst., you say "We are pleased to learn that Mr. Hooper head master of Mariposa High School, Oakwood, has had an additional $50 added to his salary. Mr. Evans, we understand, moved the increase." I am sorry to deprive you of any pleasure the above may afford you, but am forced to say your information is not correct.

It is true Mr. Hooper is engaged for the balance of this year at a small advance on his former salary, just $15, not $50. The situation was as follows: Mr. Hooper's previous engagement had expired, and he refused to remain longer with us except his salary were advanced. We had found him an excellent teacher and very obliging; for example, our 2nd teacher failed to be on hand for two weeks during the last term, but Mr. Hooper, by a great effort, and working extra hours carried on the school during those two weeks, and did not ask any remuneration for his extra work, thereby saving the Board nearly twice $15.

We are now advertising for a 2nd teacher and just how I presume none are quite sure how the $4,000 By-law will go, looking at all there things I considered it would be useless to dispense with Mr. Hooper's services at this time for a paltry $15, therefore I moved the advance.

With regard to my declaration of office, and if you please, my attorneys touching the $4,000 By-law, &c., you need have no concern for me, I will see to it that both are duly respected, and have no fear of serious trouble on that line. Notwithstanding all some of my friends (?) have said to the contrary.

W. Evans.

Mariposa, July 20, 1888.

Concerning Eggs.

A man busily engaged in holding eggs up before a candle attracted the attention of a reporter the other evening.

"What are you doing?" said the reporter.

"Candling Eggs. You see I pick up each egg and hold it before the candle. The light shines through it. I can see at a glance whether it is cracked or speckled or spotted. If it is cracked I set it aside to be sold at low price. Bakers and confectioners and some prudent families buy cracked eggs, as they are as good as any egg not cracked, but they must be used within twenty-four hours."

"Is not that an old-fashioned way of testing eggs?"

"Yes, but experience proves it to be the best, and it is quick. An expert can candle 10,000 eggs a day. It has been tried to test eggs by water. A good egg will sink and a bad egg will float, but you cannot find out a speckled egg that way."

"What makes speckled eggs?"

"Lying in one position. An egg should not be left many days in one position. If an egg is turned every day it will keep a long time. An experiment was once tried by a noted egg raiser as to how long an egg could be kept good. He kept one on his desk nine months, and turned it every day, and it kept good."

"How long are the best eggs kept before they get upon the tables of the best hotels?"

"It takes about four days, because they are bought in bulk in the country and must be carefully examined before being placed on the market."

"How are imported eggs kept from spoiling on the voyage?"

"They are carefully washed and limed. They come in cases easy to handle and an expert soon learns to handle them quickly. It adds about a quarter of a cent a dozen to the cost, but we pay that and the freight and yet sell eggs that come from France and Germany cheaper than we can sell Western eggs, and some think they are better. We can get them here in about twelve days from France."

"How about the variation in the price of eggs?"

"The wholesale price varies from 10½ cents to 16 cents a dozen. They are generally cheaper in the summer because the supply is greater. They do not spoil so rapidly in winter but those we do not so many of them. The larger supply of the summer make up for the loss by spoiling."

"What food makes hens lay the best eggs?"

"Grains, fresh liver and ground oyster shells. A good hen will lay an egg every other day on an average. At that rate a hen is the most profitable of live stock on the farm. President Dennis ciphered it out once, and sent our circulars to farmers to convince them that no product of the farm pays better than eggs."—American Paper.

The New Grain Standard.

During last session a conference took place in Ottawa between the Minister and Commissioner of Inland Revenue and representatives of the grain trade of Canada, relative to changes in the standard of Manitoba wheat. Considerable diversity of opinion existed among the representatives present as to what should constitute the different standards, but after a full exposition of the views of the Toronto, Montreal, Winnipeg, Brandon and Regina delegates, the matter was finally left with the department to decide. A draft of the amended grades as proposed to be amended was sent out in June to the different boards of trade and corn exchanges, with a request for an expression of opinion in regard to them. The views of several boards were sent in, and acting on these, the department has finally decided upon the standards. An Order in Council has been passed, and from the first of September next the grades of Manitoba wheat will be as follows:

spring wheat.

Extra Manitoba hard wheat shall be sound and well cleaned, weighing not less than 62 pounds to the bushel, and shall be composed of at least 85 per cent. of hard red Fyfe wheat, grown in Manitoba or the North west Territories of Canada.

No. 1 Manitoba hard wheat shall be sound and well cleaned, weighing not less than 60 pounds to the bushel, and shall be composed of at least two-thirds of hard red Fyfe wheat, grown in Manitoba or the North west Territories of Canada.

No. 2 Manitoba hard wheat shall be sound and reasonably clean, weighing not less than 58 pounds to the bushel, and shall be composed of not less than 50 per cent. of hard white Fyfe wheat grown in Manitoba or the North-west Territories of Canada, and shall not contain more than 25 per cent. of soft wheat.

No. 1 Manitoba Northern wheat shall be sound and well cleaned, weighing not less than 60 pounds to the bushel, and shall be composed of at least 50 per cent. of hard red Fyfe wheat grown in Manitoba or the North-west Territories of Canada.

No. 2 Manitoba Northern wheat shall be sound and reasonably clean, of good milling qualities and fit for warehousing, weighing not less than 58 pounds to the bushel, and shall be composed of at least 50 per cent. of hard red Fyfe wheat grown in Manitoba or the North-west Territories of Canada.

The remaining spring grades are unchanged, and there is no change whatever in the standards of winter wheat. There is no change in Indian corn, peas or rye.

No. 3 oats is graded as follows: Sound, but not clean enough to be graded No. 2.

Barley is unchanged, but in future the inspectors must distinctly class all barley grown in Manitoba or the Territories as Manitoba barley. The new provisions with regard to all grain are: No wheat or other grain that has been subject to scouring or treatment by the use of lime or sulphur shall be graded higher than No. 3. Samples furnished to inspectors shall be made to conform as strictly as possible to the conditions and terms specified in the foregoing classification.

Regulate the liver and Bowels by the judicious use of National Pills, they are purely vegetable.—37-6.

Latest News Notes.

An Illinois farmer who has tried it for years and never known it to fail, furnishes this receipt for a solution to destroy the Colorado beetle or potato bug: Take three pounds of lime, slake, and add six to eight gallons of water, and a teaspoonful of concentrated lye. Mix altogether and apply to the vines with a common sprinkler. It will work like a charm, one or two applications completely ridding the potato of the beetle and larvæ. This is a cheap and safe remedy, and, if effectual, must be far preferable to Paris green or London purple.

The Walkerton Tournament.

FIRST PRIZE TAKEN BY THE DOMINION ORGAN AND PIANO CO'S BAND.

The tournament of the 32nd Battalion Band held here on Wednesday and Thursday was a splendid success. The weather was fine and over 6000 people were on the grounds.

The Dominion Organ and Piano Co's Band of Bowmanville took first prize, $300, with 347 points; Massey Band of Toronto, second prize, $200, 326 points; Berlin Band, third prize, $100, 308. The judges were Mr. Biscott of London, and Mr. Corry of Kingston.

The competition at the second day resulted as follows: County bands—Hanover, first prize, $100; Durham, second, $50; Kincardine, third, $25. Second class bands—Brampton, first, $150; Port Perry, second, $100; Listowel, third, $50. The competition between Brampton and Port Perry was keen, the former winning by only one point.

BRADLEY.

Special to The Warder.

The Polers.—Mr. Mears delivered an interesting sermon to an attentive audience last Sabbath.

Returned.—Mr. Wm. Post and family, who have for the past few months been sojourning, have returned. Mr. Post chose for his resort a very secluded spot in Muskoka, and his taste is to be admired, for the place is peculiarly adapted to sooth and calm troubled minds. But we are flattered to know that Bexley is preferred to that delightful retreat, and we are to be honored with his company for an indefinite period of time, perhaps always. His many relations last self possession enough to not become excited over the event of his arrival. His reception was very quiet; in fact he had been in the place for some time without our knowledge of it.

Personal.—Mr. McCutcheon, of Toronto, and Mr. Nesbitt, formerly teacher in this place, were guests at Mr. George Brentnell's.....Mrs. Staples, of Orillia, is visiting friends here.

Barn.—Mr. H. Brentnell's barn, which was recently erected, is near completion. Mr. T. Faulkner did the masonry work, and altogether it is quite a fine building.

Wedding.—A wedding is predicted in this locality some place, and it is averred that it has actually taken place, but I refrain from making such a statement, and quietly await the time when this happy occurrence will not be a matter of conjecture, but a reality. Then we will give full particulars.

Jottings.—Haying is nearly over. Poor yield is the word from everybody..... Bexley can boast of an amateur Jesse James.....Extremely warm weather just here.

GIDDS AND ENDS.

Latest Facts, Fun and Fancy.

Freeman's worm powders destroy and remove worms without injury to adult or infant.—37 6.

The manufacture of corsets has become so perfected that squeezing a girl is about as satisfactory as hugging the stringbean stove.

Young, old, and middle aged, all experience the wonderfully beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald head, or with any scrofulous taint, become healthy and strong by the use of this medicine. Six bottles, $5.—39 1.

A Confirmed Grumbler

is generally so because of confirmed dyspepsia or indigestion, caused by eating too rapidly, bolting food without chewing it sufficiently, overloading the stomach, etc. Burdock Blood Bitters cures dyspepsia all kindred diseases.—39 3.

Talk about the precision of the Boston girl! A little east-side schoolgirl was overheard telling a playmate that she had been seasick. "That is," she added to correct herself, "I have never been seasick because I have never been on the sea, you know, but I have been awfully lakesick."—Milwaukee Wisconsin.

Nature Makes No Mistakes

Nature's own remedy for bowel complaints, cholera morbus, colic, cramps, vomiting sickness, cholera infantum, diarrhœa, dysentery, and all diseases of a like nature belonging to the summer season, is Dr. Fowler's Extract of Wild Strawberry, which can be obtained from all dealers in medicine. Price, 35 cents.—39 3.

Milburn's aromatic quinine wine is distinctly superior to any other as appetizing tonic and fortifier.—37-5.

J. BATES, - BAKER

is second to none in making

Wedding Cakes, Birthday Cakes, and all kinds of Candies.

Persons bringing sugar can get Candies home with them.

Bread Delivered to all parts of the town.

Address or leave orders at J. BATES' Bakery, William Street North, Lindsay.—39-tf.

DR. FOWLER'S EXT. OF WILD STRAWBERRY CURES CHOLERA Cholera Morbus COLIC and CRAMPS DIARRHŒA DYSENTERY

AND ALL SUMMER COMPLAINTS AND FLUXES OF THE BOWELS IT IS SAFE AND RELIABLE FOR CHILDREN OR ADULTS.

AYER'S Sarsaparilla

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalising power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

Inflammatory Rheumatism Cured.

"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism, with which I have suffered for many years.
W. H. Moore."

Durham, Ia., March 5, 1885.
