It must be amusing for the Canadians who have settled in the United States, who constantly see articles in Uncle Sam's press of the growth of the Dominion and the rapidity with which the North west is being settled and entiverted, to watch the reform politicians and press of Orbario, predicting funncial ruin and depopulation of the land. If Sir Biohard sees and disaster as he spoake of, why does he not sell his property white he can realize its full value, last he he left ponulies before Sir John's term septres. When we reflect on the condition of the country, when Sir Richard was funnee minister, when we think of the manner in which they thought of building the O.P.R., by taking advantage of the great water stretches. We are lost in confusion of ideas. Sir Richard must have imagined then that he was the inhabitant of the Torrid Zone, where ice
