

The Victoria Warbler

FRIDAY, AUGUST 31, 1888.

THE LIBERAL CONSERVATIVE PROTEST AT BEAVERTON.

On Thursday next a number of leading Cabinet Ministers, and other public men, will address a meeting at Beaverton on leading questions of the day.

HALDIMAND.

On Wednesday Sir Hector Langevin, and the new knight, Sir John Sparrow Thompson, addressed a large meeting of Haldimand electors at Hagersville on questions of the day.

WATER SUPPLY.

Indications seem to point that we are on the eve of getting the question of an efficient water supply for the town, satisfactorily solved.

HON. W. LAURIER.

The Warbler regrets having so soon to refer to unparliamentary conduct on the part of the leader of the Opposition, the Hon. W. Laurier.

The President asks to retaliate. Why retaliate? Why, sir, because in his judgment he would be compelled to do so by the unfriendly action of the Canadian Government.

THE RESULT IN HALTON.

County of Halton: general (federal) election, February, 1877, John Wadde (Lib) elected over David Henderson (Con.) by 1 majority.

Wadde held the seat for the session of that year and resigned on a protest being lodged against him.

In January of this year Mr. Henderson gained the seat over D. McLeod (Lib.) by 100 votes.

In July Henderson was unseated and yesterday Wadde defeated him by 28 votes.

Some county, Scott Act, reported on March 1st by a majority of 107 votes.

The reformers have taken Halton after a short occupation by the conservatives.

It has been a doubtful county politically for some years. In John White's time it was out-and-out reform.

In recent days all elections there, municipal, provincial, federal, have turned on the Scott Act.

Last March the people decided against that measure. In yesterday's vote the Scott Act was still the main issue and the result was in accord with the vote of March.

But owing to Mr. Laurier's advent in the riding and his avowed declaration in favor of unrestricted reciprocity the reformers claim yesterday's victory as one for that plank.

Under the circumstances The World cannot begrudge the claim. Reformers have met with too many reverses of late not to be entitled to some favor from the hand of fortune.

But it is not elections like that of yesterday that will settle our trade policy. If anyone "speaketh after a sign" in this subject we refer them to the vote in the United States Senate on the Fishery Treaty on Tuesday rather than to the result in Halton yesterday.

CLEVELAND'S MESSAGE.

The United States Senate have temporarily rejected the Fisheries Treaty on the grounds that it was much more advantageous to Canada than to the United States.
