seasure after the exesses to make what his bun out of him. In short our Observer friend is being imposed on by one not w farmer nor a farmer's briend. However all that concern us or the authle either

summary of various why the dam at Linds should remain, are wolfed at, and make to do duty against us. But he gives no proofs. Notther did we, for to us none work needed. However we shall try to ecovines even the "Heach Farmer."

t. He removing the dam at Lindsay aparticly an appe of land now covered by water could or would be replained; for the lake is within a very few inches of of years. Removing the dam at Lindsay and trees indicate nearly the original banks of the lake, though the heaving of broat and was of contras bands to drift

familiar at the time with the whole affair we hearn that people by secres died not conty within one year int her two and even three years thereafter; while hundrock were made integrable for life by agus, materia, i.e. Of course then the forests and swamps were not cleared as now, and hence the dire effects would be more lasting.

I the lake is of service to the farmers along its banks, says the Wannes; while the "fleach farmers" pronounces it so injury. Let us see. We have known that lake, its marshes and river intimate by for nearly a quarter of a century; we

the large and river intimated by her nearly a quarter of a contury; we have during almost every year had practical evidence of the take to harmore. Response the have during summer months on a farm of having summer months on a farm of having a supply of fresh mest. Heaf is white about his 'semi-private meeting." int of the question and mutton or lamb is very expensive. Keen inquiries and chapteration we are confident of being within the mark in dating that on the average every farmer within two miles of take Songing annually gets therefrom at least the value of course get little or none, others much; the average is above rather than below our standard. We have often seen termore in me months.

than both with a standard. We have often spen harmore in one morning take more than the value of a seed sheep in that. But the lake is of hirther service to the farmers as a highway to tandary and the farmers as a highway to tandary and the farmers have brought their grain to Port Yerry and tandary on soows, and it is a citation serving year hy year. This year cape, kill, a workly karmer of Captwright, instituted on his steamer and soow regular weekly trips to tandary, and there is no doubt to the end of lass he will have more than enough enston for a semi-weekly trip. Others will doubtless do that was never before entivated. The only difficulty Capt, that experienced was from striking in the river owing to how water.

MR. BARRON M.F. AF BADDOW.

FIGURY, NOVEMBER 2, 1888.

Mr. Barron, M.P. for North Victoria, having formed one of the train of Mr. Laurier in his melaneholy pilgrimage through Ontario, and having learned of the men is his adherence to his dyspeption which have some time in the men in his adherence to his dyspeption his little speech, has now begun a pilgrimage of North Victoria. On Wedness age the Part Vances article of two within the held a meeting at Baddow. At the urgent request of a number of friends from that neighborhood, we are general public believe he a chap who was an an account of the meeting. What transpired to the remarks was New York. Had it been on and relations. Her end was peace, and relations. Her end was peace.

will be noted at length again.

As a type of Mr. Garron's dishonesty one incident will suffice. In dilating on the advantages to be derived from Unrestricted Reciprocity, alias Commercial stricted Reciprocity, alias Commercial been Canada's and her people's welthe advantages to be derived from Unrestricted Reciprocity, alias Commercial Union, alias annexation, Mr. Barron after speaking of himself as a member of the Canadian, not the Ontario, Parliament; of Canada, and not Ontario, said:

| The contrast the guiding prince ple of Sir John Macdonald's government has been Canada's and her people's welfare. What a contrast the grit "Anxiety to get into office" platform presents! Is it any wonder the honest people of all parties rally round Sir John? ments of Canada, and not Ontario, said:

alone let us see how it would affect you Ontario farmers. There were shipped the coliginal level. There always was a statement, adding, "and if Mr. Hughes great marsh to the south-west of Songery thand; there are always will be for hundreds the Frade and Navigation returns of

ing to deceive the electors. Ontario has no seaport within her borders, so these further into the lake year by year. Still the water new is about down to the universe and Halitax. Mr. Barron knows when the combination have no faith in the universe interest. these farther into the lake year by year. Still the water new is about down to the primayal margins.

9. Ware the dam removed many lives would be lost through blood poisoning, thus bringing on material and typhoid fevers. This one these with the frames disputes, by reproducing an argument used by interested parties here; that the hoast of a spring would remove all danger. Well as the English remove all danger. Well as the English remove all danger. Well as the English residents in practice. Many years ago the residents up Songog river and lake made a combined visit to tandsay and let loose the pent up waters. Soon take Songog the materials and the most of the pent up waters. Soon take Songog the imported through Canada, but the lattice of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take Songog the residents of the pent up waters. Soon take songog the residents of the pent up waters. Soon take songog the residents of the pent up waters. Soon take songog the residents of the pent up waters. Soon take songog the residents of the pent up waters. Soon take the first song the pent up waters and the pent up waters. Soon take the pent up the pent up waters and the pent up the pent up waters. The pent up the pent up waters and the pent up the pent up the pent up waters. The pent up the pent

TO

McCrimmon Bros.

Go to McCrimmon Bros. for your New Fall Stock

and get Goods at their lowest possible figure without any doubt, as they are the real honest and live business men of Lindsay. They do not cut Goods down to any price you say you can get them for, when buying from them, but mark them so at start out, and you will then be sure you are getting them right in first place.

See their New Stock of DRESS COODS at the lowest possible figure. See their New Stock of FLANNELS at the lowest possible figure. See their New Stock of CASHMERES at the lowest possible figure. See their New Stock of PLUSHES at the lowest possible figure.

FURS

FURS

In Furs they beat them all.

They have a Gent's \$22.00 coat the rest are selling for \$27.00.

They have a Gent's \$6.00 Cap the rest are selling for \$7.50.

They have a Ladies' \$25.00 Coat the rest are selling for \$30.00. This is no sham or blow, as we priced them all.

TWEEDS

They can down them all in Suits, as they employ more hands, keep a better Cutter, and show a finer range of Tweeds than any place else in town. My advice to all intending purchasers is to go there, as I was there and never was so well satisfied.

A CUSTOMER.
