CORTO ENTRAL PROBRATION, 178 OFFOR

Paraday, from Fish, withoused two to markator well attended meetings in fandmy in the interest of importal Pederation. An was reported the local Patent Come bingtion, now adming at Annexation to the Catted States, both before and since have hellfled the importance of the movemont. He moress mans doubt to their arhomes. The Post opposed it has that with hypathete percept is reprimmendation, for for have the opposition in now consider. an a havor. They even spread the report that there was to be an afternoon most miss and that only hard speakers would states contest he present at alight; but despite every move both sutherings were exampled Profit affair; ampressure. A full respect to seven in other

in other, if promise, to injure importat Pederation, the Post as usual deliberately meropresents the sime of the promoters the talk of a tax on "the poor man's hroad" in Rushand, in anthor brise and original with him. Those sam dection eries that have done demander service in Pertents, are things of the past. No one advocates ofther the extreme protection of the finited States on the one hand new the extreme free trade of treat

financial Kataration manner

(1) The maintenance of the Union hatween treat Artean and her colonies. That, it consus, at imps presentes of ac acceptated Restaurably with the United States, "Domineralal Union," or "Annex education and organization be actively whitelle

(3) The development and encurrys ment of trade and commerce many first ata and how ordentess. This when is faint be antiquestimists.

central, invident the readings of each sumpenent part of the Routes to summe her her where it the responsibility arising therefrens and that necessitates the bear ing by each of her share of the defence and maintenance of the emptye's needs

(h) A postal union, which should he extended to other nations.

(11) The collection and Assembation of abstintical information conding cowards the malailating of the Raphyes the encouragainment of transporation to the adontes, and many other matters of more or less

importance.
(7) And above all, adherence to Pritish sengetteetenst gevernment.

There is no furking intention in any of these principles to appress the "poor man." The only "poor man" Canadian imperial Federationists are after is the "THE "CO" or, in brief, Annexactionists. And they are after him "hot

Now, to errive at a basis of argreement on imperial Pederation is where the difficulty presents itself. First, the interests involved should be considered. These are such as are now subjects of internathenst arrangement, and include among

Frank and commerce, Frank, earlie and hereign velographic

Navigation and shipping. Naturalization and allens, Frontier or coast haberies, Configuration, and approximate and Austrial information.

The detence of the Respire

finishing of revenue.
Knaetment and enforcement of laws and maintenance of Supreme Appeal Court githin definite limits.

Court within definite limits,
k. Preaty making; but not affecting tariffs, unless with consent of each component interested part of Federation.
I Federal public works,
m. Appointing governors general.
These interests would require a governing body. What would be simpler than in have an imperial Farliament or Council made up of representatives from each component gast?

each colony; in short, it at best would be the transferring of expenditure from National to Imperial account.

Under such a federation the local par-liament of Great Britain and Ireland would be freed of much now calling for serious deliberation, and hence could deyole much more attention to purely home

In early Britain and other Anglo-Saxon lands, tithing, hundred, shire and nation were the divisions. Modelled on old Anglo-Saxon practice, Canada's divisions are, school sections, townships, countries, provinces, Canada, each having powers and functions of a special nature; in short, government is classified. Imperial Federation would be simply an extension of the cone mighty plan. Ultimately, we hope to see the United States also join

With Sir Charles Pupper, who, to check the arder of many in England speking to conclude Imperial Pederation immediately, says there is no haste, we thereighty agree. Confederation of Hitish American provinces was proposed as early as 1840, and stops were entered on in 1860 looking to what was finally accomplished in 1867. But things more more repully now, and the causes are more pressing. Across the borders one

The republicans proposing to purchase or to computer Danada:
The democrate doing likewise:
The advocates of the "Monroe doctrine" elamoring for Danada and Mexico:
The trish romanists, who now really rule the United States politicians, demanding the conquest of Danada in order to destroy British influence and power:
The gigantic monopolies contering in Boston, New York, Philadelphia and Baltimore, clamoring for Danadian produces to reach foreign markets via United States routes:

The feeting of wounded pride over the

The desire to divert attention from The desire to divert attention from international trouble from negroes in the south, and anarchists, socialists and every other disreputable "ist" in the north, by a kiroign war; all these are potent causes tending to bring national projects in Canada to a smeety issue. But, when added to these one finds agitators in Canada, bustly ongaged disseminating the doctrines of Commercial Union, alias Unrestricted Reciprocity, thus American, when to strike holdly for the maintenance of

A union of hearts and a union of hands, A union none can sever: union of homes and a union of lands. And the flag, Parrien Union, forever,"
sir Charles Pupper is thereughly it favor of Imperial Federation, but he is har too wise a statesman not to know that undue haste in knowand would be detrimental to the mores of the more ment. The Wanner works ago outcarried on now, each month learning more, and removing spening difficulties

until finally when needed, the whole (i) The vides is reason and the country theredizes Article nation will be prepared to Feder which wanted here. Now are the extravagamess of the Artish court needed in a federation. Of course, if Artisin in her own home parliament chooses to preserv present extravagances no one in Canada should object; but it would not do as part of the imperial Federation. Keep the Sovereign as becomes the ruler of the british Empire, and not as some eastern

Much has again and again been written in these columns on the trade aspect of the case. Canadian farmers now and ready market in England and Canada for every thing they produce except barley; and before the end of another year we hope Canadian barley will be marketed in Eng-

Thus from every view point it seems most advantageous to Canada to preserve, ay to strongthen her connection with
