

The Victoria Warder

THE VICTORIA WARDER, THE TEACHERS' FRIEND.

The WARDER, edited and published by Sam Hughes, late First English Master, Collegiate Institute, Toronto, whose works on geography and railway and county maps of Canada are familiar with teachers, has, since Mr. Hughes purchased it four years ago been the staunch friend of all deserving teachers, and the encourager of a liberal spirit of education.

CANADA'S PARLIAMENT. The Ontario and the Dominion Parliaments are now in session. Victoria county's representatives are away nobly doing service for their constituents.

FRENCH REFORMERS. General Boulanger was this week elected in a constituency in Paris by 80,000 majority. There was great excitement, as it is feared he is in league with monarchists and Jesuits to upset the republic.

DEBATING SOCIETIES. From every part of Victoria comes word of debating societies and literary and musical societies. These exist at Hartley, Palestine, Islay, and many other parts.

HAUDDIMAND. On Wednesday last, the election Colter vs. Montague was fought out in Haudimand; and we regret to say, Colter was elected. The Indian vote was purchased wholesale by the Brits, the very men who denounced Sir John for extending the franchise, being the ones to pandor for the Indian vote.

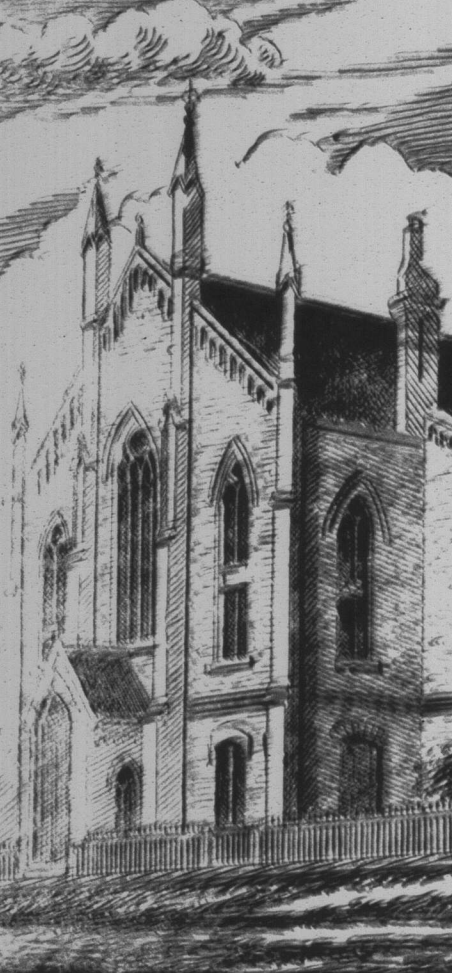

SAMOA. There is trouble brewing in Samoa, an island in the South Pacific Ocean. The place has for some time been under the joint occupancy of Germany, United States and Great Britain; but latterly the Germans have been very overbearing, especially towards the United States.

ORIENT-HAIBURTON. The new telegraph line from London to Hainan, (Hainan Station, or Hainan) which is now being run from Hainan to Hainan is much to be desired. This great work will be a boon to the Hainan people who will thus have a direct line of communication with the rest of the world.

Formal Opening of Lindsay Collegiate Institute.

Rev. W. K. Anderson, the pastor of the Baptist church on Cambridge St., is very old gentleman who has never forgotten in the higher and nobler walks of life, that he was once a boy; and that students in a strange town are never any the wiser, but often much better, for attendance at the means of grace.

Rev. Dr. W. Williams is pastor of Cambridge Street Methodist church, a large and comfortable place of worship, situated on the corner of Bond and Cambridge streets. The reverend doctor is a great friend of the student. His sermons are grand examples of thought, elegance and good English.

St. Andrew's Presbyterian church on William St., had for pastor until last spring, Rev. Dr. McTavish, now of Toronto. As yet no additional clergyman has been obtained, though a regular supply of talented gentlemen is furnished.

J. R. McNellie, perhaps, as much as any other has taken an active interest in education here, and was Chairman of the Building Committee of the new institute. He devoted time and energy without limit to the success of the undertaking, and naturally feels proud. His modesty alone prevents us giving his likeness this week.

Rev. A. O'Leary, Thos. Stewart, J. L. Winters, F. C. Taylor, and S. A. MacNure.

Mr. J. D. Flavelle is another useful member of the Board of Education. He is member of the firms Dundas & Flavelle Bros., and Sadler, Dundas & Co., and takes an active interest in all educational affairs. He is also a great lover of many athletic sports, and excels at curling.

THE MINING DISTRICTS.

About thirty miles north of Lindsay are deposited the richest fields of iron and other ores, said to be found in America, all awaiting development. A trip to these districts should amply repay any student.

The following students from outside the town are at present in attendance at the Collegiate Institute:
