Marrying Mr. James Burnett, also a native of the "Loyal North," the good lady lived for several years in her native land where several of her children were born. In 1851, they in the prime of life, with their little family, emigrated to Canada, and located in Cavan township, near Mill-brook in Durham county. Thence about twenty nine years age they removed to Ops, east of Lindsay, where they have since resided. A TEMPERANCE LECTURE IN ITSELF, -One A TEMPERANCE LECTURE IN ITSELE.—One evening recently, just after the express train had passed over the high bridge between. Omemee and Peterboro, the section foreman heard some one calling; and on going out saw a team and sleigh near the middle of the bridge. The driver was helplessly drunk. Had as it was, it would have been horrible had it occurred while the train was approaching. The team was got off with difficulty.

WE RECRET this week the departure of two of Lindsay's most popular young men, in Mr. C. Corneil and C. Neads, who go to Winnipeg to seek their fortunes. They both leave behind them many warm friends, who will always be pleased to hear of their success. The Y.M.C.A. loses two of its most faithful members, and the lacrosse team when it looms up this summer, will find they are short of a good man in Mr. Corneil. They are both pushing, energetic young men and will make their mark in the world. We wish them every success.

COMPLAINTS are instity made by many rail-

Complaints are justly made by many railattendance of the collector. One gentleman received his notice only on Dec. 20th. There was no date on the bill, and the notice to pay within fourteen days was indefinite. The collector promised to call at the house for the money, but did not; so the gentleman now reuses to pay extra percentage.

A Worthy Farmer from Mariposa justly complains that while passing the school buildings on Kent St, this week with a load, a number of boys attempted to get on the sleigh. Knowing how easy it is for boys to slip a hold on a load, he quietly warned them off and was greeted with calls and expressions most vile. The matter is mentioned that boys may quietly think over the question and remember any boy can be a young blackguard; but not everyone can be a gentleman. A true spirited boy would look on such things as of sport; if successful in getting a ride the boy wine and should be happy; if unsuccessful the boy misses, and should be content.

Serious and Paintel Acordent,—On Saturday afternoon the 17th inst., the eldest son of Mr. J. W. McGill, Manvers, a boy of 12 years of age, met with a terrible socident. It appears that he and a younger brother were operating a cutting machine which became choked, the elder boy put his hand in front of the knives to clear the obstructions at the time telling his brother to turn hard, which he did, the knives coming down with great force, severing the hand and four fingers almost completely from the wrist, only a small piece of flesh remaining. Dr. Alien of Janetville, was immediately called and amputated the injured member, and the patient putated the injured member, and the patient is doing as well as could be expected. The little fellow never once complained while the Dr. was dressing and attending the wound.
