The Days We Celebrate.

Dear Sir:—I saw a handbill this year announcing that the 201st anniversary of the Battle of the Boyne would be celebrated etc., etc. I also received an invitation to assist at the celebration of the 201st anniversary of the closing of the Gates of Derry on the 15th August of this year.

Pay for Your Paper.

A bill instance which happened to us yesterday called to my memory an old story that is told of a book country farmer who was in the habit of taking his paper regularly from the post office, but would not pay for it until he had received it.

rain, and come in and pay up. If they do then they will feel so big that they will not be able to get into the leg and so on...

Notes and Comments

We have seen nothing on the question of prohibition more beautifully considered, thoughtful and charitable than the remarks made by Rev. Phillips Brooks, D.D., of Boston.

Referring to his advanced age, Mr. Gladstone said on a recent occasion: "Lord Palmerston is the only person who ever attained to the rank of Prime Minister of this country that I have not already outlived and left behind me."

Some days ago a rumor was started to the effect that as the result of representations made to the Imperial Government by the Government in Canada, the two French war-ships which have been in Halifax harbor for some time past would not be permitted to visit the St. Lawrence, as their presence in Quebec or Montreal would seriously offend the French feeling existing there.

Dear Sir:—You published a letter signed by Mr. O'Gorman, a short time ago in reference to this matter which is a tissue of mis-statements; and as he and other gentlemen well known are trying to create the impression that I committed perjury and got the case withdrawn, I think the public are entitled to know the full facts.

It is a pity that I did not see the full facts of the case until it was too late to do so. I had two charges of assault against O'Gorman, and he was fined in one and committed for trial in the other; then he laid a charge of perjury against me, and before the case came on Col. Dawson and Dr. Poole came to me and wanted me to settle matters and to withdraw my charges against O'Gorman, if he withdrew his against me.

more of it I will pay one half of the cost of publishing the evidence given against me if Mr. O'Gorman or his collector will pay the other half, the public will readily understand what it was that made O'Gorman persevere so when he gave his evidence, for such a mass of contradictions you never heard of.

Yours Truly "P. P. BARROW," LINDSAY, 30th July, 1890. Dear Sir:—I have the honor to perjure case. In reply to your enquiry I beg to say I have a distinct recollection of this case.

Dr. Poole and Col. Dawson agreed that what I had signed "might be signed by any gentleman without involving the forfeiture of honor, good name or social standing." So the public can easily understand how I was induced to sign the settlement without first seeing my counsel.

The New York World looks upon the California Magistrate who issued a warrant for the arrest of Mr. Justice Field as a donkey of the most precious quality. It points out that the Justice had been assailed by a mob of riotous ex-Judges of Montreal who had publicly declared his intention to his enemy; that before Justice Field could ever rise from his chair a neat-handed Deputy United States Marshal shot the ruffian; that Mr. Justice Field had no more to do with the shooting than any other bystander, and even if there had been doubt on that point, it is certain that a Justice of the United States Supreme Court was not going to run away beyond the jurisdiction.

Most women naturally look forward to matrimony as their proper sphere in life, but they should constantly bear in mind that a fair, rosy face, bright eyes, and a healthy, well-developed form, are the best passports to a happy marriage.
