

WATER WORKS

After years of consideration and months of deliberation, Lindsay Town Council water-works for the whole town. Good.

the Ontario Water-works Construction Co., of Poronto, to equip and maintain a most claborate system, covering seven miles of streets, and to supply drinking fountains, and water for streets free; and to furnish the schools at half-rates. Fire hydrants are to be placed throughout the town to the number of sixty-seven.

The advantages to the town are: (1) Greater safety against free, not only in the business portions, but in prirate residence districts. Under the present system a residence a few hundred yards from the centre of the town has no more protection against fire than a farm

(2) A supply of pure water for private or domestic purposes, to supplant the wells now in many parts of the town im-

ers to locate here; for without water-works no large manufactory would be safe. Now kindsay will be sought as a

works no large manufactory would be safe. Now Lindsay will be sought as a centre.

(4) The reduction in the rates of insurance to fully make up the extra cost over the present imperfect system.

It is somewhat a pity the council did not take action some time ago, or clas adjourn it until January; but all is well that ends well.

May the works succeed.

FORONTO TO SUDBURY VIA

At a meeting of Lindsay Board of Prade on Monday evening last a resolution was introduced instructing the railway committee of the Board to co-operate with a committee of the Pown Council in interviewing President Van Horne of the Canadian Pacific Railway, and to show Canadian Pacific Railway, and to show the council in the post purchased by him is the Post printing office, from a servant of Mr. Barr lameet being in the office. Canadian Pacific Railway, and to sho the advantages of the route via Lindsay, Mr. Sam. Hughes presented figures based on most accurate available data as

Poronto to Sudbury via Banning Poronto to Kleinburg via T. G. and B.

Kleinburg to Barrie, (new) 45 miles. Barrie to Severn River 48 miles. Severn River to Sudbury 150 miles. Total, Poronto via Barrie to Sudbury

Poronto to Sudbury via Landsay :-Poronto to near Burketon, 49 miles, Burketon to Lindsay, 24 miles. Lindsay to Sudbary, 199 miles. Total, Poronto to Sudbury via Landsay

Difference only six miles, which in construction would vanish.

These are the distances as nearly as can he arrived at without accurate survey and coupled with a knowledge of the ridges in King township in York Co.; of the hills in Vespra, Oro, Medonte and Matchedash, north of Harrie; and of the almost impassable country along the Georgian Bay shores, should convince the most dubious of the difficulties of that routs. On the contrary, the perfectly level, rich country from Burketon to Lindsay and from Lindsay fo beyond Bracebridge, entirely devoid to be begins. of the difficulties of that route. On the contrary, the perfectly level, rich country from Burketon to Lindsay and from Lindsay to beyond Bracebridge, entirely devoid of even ordinary hills; and the comparatively level tract between that and Sudtively level tract between that and Sudbury, for Muskoka and Parry Sound districts are rougher near the shores than inland, all should favor the Lindsay route. The certainty is that in actual construction a shorter route would be found via Lindsay than via Barrie, Added to that the great advantages of a rich country, the Prent waters with their great lumber and timber wealth, the Lindsay district trade, the easily constructed road, absence of bridges, they, the arguments for a road via Landsay seem unanswerable.

Let prompt action be the word and work.

Mointyre broke out, completely tantalized by the witness who reminded him that it was not necessary to have Mrs. Ure's finger in his face or her voice calling to him to "look up and tell the truth." He also told McIntyre his head was not large enough to get at the facts; addressed him as "Brother McIntyre," said Swipes permanship was about as bad as McIntyre's, and in short so long as the counsel continued on the "fishing" expectition, galled him unuseroifully. It was noticed when McIntyre burst all control is his anger, and yelled that the witness was not telling the truth, that he jumped back to the table in the centre of the room, far beyond reach of the fiet of the witness. Just one line, our PAINFUL ACCIDENT. —We are sorry to state that Mr. Edward Shea met with a serious accident. He had the machine at his barn threshing, it was a horse power, he was on the power driving, when something got wrong with one of the herees; he got off to rectity it, and getting on again his foot got caught in the machinery. The result was he got one too and part of the foot taken off. He was attended by Dr. Brereton who dressed the wound. He is doing as well as possible under the circumstances. Felt Goods, will be mentioned, and perhaps it is the largest and most complete to be found outside of a city store. Among these the plainest or most fastidious taste ought to be satisfi ed.
