THE suburban person who talks most eloquently of crops, flocks, and herds, is he who has lived all his days between the pent-up walls of a city until week before last. Fresh knowledge is what gives a man the itch.

"How came you to fail in your exrmination?" askel the tutor. "I thought I crammed you thoroughly." "Well, you see," replied the student, "the fact was you crammed me so tight I couldn't get it out."

HE was a little verdant, or he never would have said: " Perhaps we had better walk on till we come to a settee, when we can sit together." Oh! no," she replied, sweetly : "you sit down in the chair and I will be the settee."

MLLE. D. who takes part in some private theatricals, is dressing herself in masculine attire for the character which she is to assume. Her little niece comes into the room. "Look !" cries she, astonished, "see my aunt who is trying to become my uncle."

"I'LL teach you to lie, and steal, and smoke, and use profane language," said an irate parent to his eldest offspring, at the same time swinging a good-sized sapling; "I'll teach you, you young scamp," "Never mind, father, I know all them branches already."

What's the matter with the aged people of our country? They seem to be in an abnormal state of repose. There has been no mention made for nearly two weeks of any party aged 110 who saws four or five cords of wood before breakfast, and then walks

twenty miles before dinner. "In the hour of danger woman thinks least of herself," said Mme. de Stael. True ! When the thunder roars and the vivid lightning flashes, and the big drops come down, the woman who is caught out in the storm devotes ber agony to the thought that her

hat and dress will be ruined. An Oswego man, after a little experience, truthfully and indignantly asserts that no woman, however nervous, has a right to wake up her busband from a sound sleep to tell him, on inquiring what's the matter, "Nothing, . nly I wanted to know if you

A MAN purchased a grand piano for his daughter. His house is small, and to economize room the lower part of the partition between the parlour and kitchen was cut out, and the long end of the piano stuck through. Priscilla now sits at the key-board, singing: "Who will care for mother now? and the mother rolls out doughnuts on the other end of the piano in the kitchen.

New marriage customs are coming into vogue in Paris. There is now the betrothal hall, followed in a few days by the signing of a contract, which takes place in the morn- able. ing, and is preceded by a lunch, when the presents and trousseau are displayed. The civil marriage takes place quietly, an evening or two before the religious ceremony is performed.

It is well to look at all sides of a subject before you indulge in an opinion. Curran once said to Father Leary: "I wish, reverend father, that you were St. Peter, and had the keys of Heaven, because then you could let me in." The shrewd and witty with flowers. pricet saw the sarcasm, and turned its sharp edge on the skeptic by replying : "By my honour and conscience, sir, it would be better for you that I had the keys of the other place, for then I could let you out."
