**THIS IS A GENUINE SALE**

and no humping, and customers can depend on buying goods that have been bought for cash, and consequently at the lowest prices. I will sell at cost for cash only, and will close my books as near as possible from this date. My stock as usual, consists of

**Choice Teas,**  
GENERAL GROCERIES,

Crockery, Glass-ware,  
and EARTHEN-WARE, and also a choice selection of Wall Paper and Window Blinds.

**Don't Miss This Chance.**

**PICKERING COLLEGE.**

TO PERSONS WHO WISH TO SECURE for their sons and daughters a thorough and practical education, and to young men and women who purpose preparing for Second and Third-Class Teachers' Examinations, or into the Law, or into the University, or into the College of Physicians and Surgeons, this institution offers peculiar advantages. Its special features are:

1st. Although endowed and maintained by the Society of Friends, it is open to young people of both sexes of all denominations. All students are expected to attend some place of worship, but it may be that which they or their parents or guardians select.

2nd. It aims to give a first-rate education at the lowest possible cost. The fees are only \$150 per annum, or a proportionate amount for a shorter time; and they include tuition, board, washing, fuel, light, etc.—every necessary expense except text-books.

3rd. Its curriculum and studies are precisely the same as in our best High Schools and Collegiate Institutes. But students attending this College have many advantages not to be obtained in most High Schools: such as board in College building, a reading room well supplied with the best current news and literature, comfortable study rooms, parlours, bedrooms, etc., gymnasiums, playgrounds, etc.

4th. It is aimed to make the Scientific Department as thorough as possible. A very complete chemical apparatus has been purchased in Philadelphia, suitable for Second-Class and Intermediate work. Every student in the department will be required to become a practical experimenter.

5th. A Commercial Form is established in which students are thoroughly taught Commercial Arithmetic, Composition and Book-keeping. Any student in the Commercial Form may take any other subject in addition.

6th. Students who do not wish to prepare for any examination may take an optional course, and devote their time to special subjects.

7th. The means afforded for mental recreation are ample. Besides the reading room, there is a Literary Society which meets once a week, and a course of lectures by leading educationists and others will be delivered during the winter.

8th. The College building is so arranged that the sexes are separate except during recitations and in the dining-room. Boys and young men are under the charge of the House-master. Young ladies are under the supervision of the Governess.

The management hope, by dealing fairly and carrying out faithfully all that is undertaken, to secure a good class of students. None but those willing to do work for their own sake are invited to attend. The idle and vicious, after a fair trial, will be got rid of. There are no prizes, scholarships, or rewards; no marking system or competitive examinations.

The management can confidently refer to the work done in the College during the last year. Classes have been specially formed for all the Professional and University Examinations. The results of the year's teaching in these classes will be detailed in the new "Announcement" which will be ready on August 20th. Especial attention is given to the Government Intermediate Examination, which is now the most important examination held in the Province.

For full particulars, and for the College Announcements, apply to
