Third section, in St. Petersburg, which crime, open street, was yet so carefully planned sized parasols for coaching and seaside are covered with plain plumb, purple, and bottle green, satin-lined with gold color or peach blossom and the last new shade of pale blue, water green, and other becoming though committed in broad daylight in the colors both for blond and brunette, largersized parasols for coaching and seaside are sized parasols for coaching and seaside are and so quickly done that the assassins and so quickly done that the logic done th peach blossom and the last new shade of life of the czar might be equally successful. starw called gas jet. The damier designs of red and black checker-board silk are extensively used for linings. These checks are seen also in three contrasting colors. Extremely pretty seaside parasols are covered with momie cloth having floral strips around them ; others are of Madras gingham. Some of the latest importations have flamed their passions, and they spoke now of a cream-colored, fine cambric ground covered with delicate brown branches and foliage and flying birds; one gore is plain and decorated with a brown palette, the usual

PATAL NIHILISM

in Russia.

The Many Events Which Culminated in the Death of the Uzar.

New York Times.

It has been generally supposed that the organization of Nihilists in Russis, whose members, during the year 1879, committed so many crimes, was composed of great numbers of the population, and extended its ramifications throughout the empire. And it has been a favored theory that the purpose of this organization was not merely to over-HAND-PAINTED costumes appear among throw what it deemed a despotic and cruel government, but to establish in its stead one be balanced by three affirmative. Besides BLACK satin is combined with crape for that should insure the blessings of political iberty and prosperity to oppressed and grosning millions. Assuming this, these crimes have been by many regarded not the work of assassins, but as the acts of patriots attempting governmental reform.

perusal of this article will dispel this impression and establish from the testimony of witnesses, and the confessions of some members of this organization on the trial of six-St. Petersburg, that neither in the character there any evidence of elevated purpose or form and with more terrible instruments, nor in the number of those engaged was of extended sympathy among any class of such as explosions of dynamite. Schiriaief Russia's population of 82,000,000.
