I have very great pleasure in endorsing the above statement of the benefit to my wife's health, since she commenced the use of the Vegetine.

Vegetine. I consider it an excellent medicine, and most cheerfully recommend it to those suffering from General Debility. I remain yours truly, MRS. M. A. SMITH, OTTAWA, ONT., Mar. 8, 1880.

Dear Sir-I have much pleasure in adding my quota to the already immense volume of certificates so deservedly eulogizing Vegetine. It is as stated a purely vegetable compound and as an invigorator, purifier of the blood, and regulator of the action of the liver, has no equal. As yet I have never known it to fail in curing any of the many diseases for which it is recommended. It is rapidly becoming a popular medicine. Those who use it once, when necessity requires, call for it again. W. A. JAMIESON.

VEGETINE thoroughly eradicates every kind of humor, and restores the entire system to a suasion my wife induced her to try your healthy condition.
