Lindsay, Feb. 16th, 1881.

The Fenelon Falls Gazette
Saturday, October 21st, 1882.

Work Commenced.
Bright and early on Monday morning
a couple of "scientific gents" were at
work with their instruments along that
portion of the route of the T. V. canal
that is to run through this village, and
performed their required duties with a
neatness and despatch that excited the
admiration of all beholders. On Tues-
day morning—also bright and early—
the scientific gents who wield picks,
shovels, crowbars &c., turned out with
the intention of commencing operations,
but were driven home again by a heavy
fall of rain. Before noon, however, the
weather cleared up, and at 1 o'clock p.
m. some fifteen or twenty men and four
pairs of horses proceeded to the grove
between Francis Street and the river,
and a few minutes later work was begun
and will be continued without avoidable
interruptions until the contract shall be
completed. To-day (Thursday) thirty-
five men and five teams were busy when
we went up to see how things were get-
ting along, and already quite a change
has been made in the aspect of the
grove, the beauties of which will soon
be gone forever. A great many of the
oak trees along the line of the canal
have been cut down and the trunks con-
verted into pins, a large area has been
ploughed up and the sod and a foot or
so of earth removed, and soon the men
expect to be wrestling with the rock,
which lies a short distance beneath the
surface. While we stood looking on,
Mr. Macdonald was constantly engaged
in giving instructions or lending a hand
where it was most needed, and evident-
ly knows just what requires to be done
and the best way to do it. The force
at present at work is a small one; but
it is growing daily, as all likely looking
men are engaged at good wages, and
when from seventy-five to a hundred
have been obtained they will make the
dirt fly right merrily. Of course an
immense quantity of earth, stones and
rock will be taken out of the cut, but
we are glad to learn that there will be
no difficulty about getting rid of it.
The material already removed has been
dumped in a hollow a few rods from
the canal, which will hold a very great
deal more, and there are plenty of other
places which it will be an improvement
to fill. It is said—and we hope it is
true—that the council intend to have
Colborne Street covered with broken
stone a foot or two deep from end to
end, and to fill in the unsightly gully
on the east side near Mr. Johnston's
residence; both of which they now have
a rare chance of doing at a compara-
tively trifling expense. Near the weigh-
scales a number of long sticks of timber
have recently been deposited, and two
or three men are getting them ready to
be used in the construction of two dock-
ers, which will be needed for lifting
masses of rock that cannot be raised by
other means. In a word, the canal is
already giving employment to a great
many men who might otherwise be idle
part of their time, and it is consequen-
tly so popular an institution that we
fancy no ratepayer will begrudge the
cost of the little justification which—as
will be seen by the report of the pro-
ceedings at the meeting held on Monday
night—is to take place as soon as the
necessary arrangements can be made.

Public Meeting.
A public meeting of the residents of
Fenelon Falls and surrounding neigh-
bourhood was held in the council cham-
ber, Seely's hall, on Monday evening,
the 16th inst., on the invitation of the
rev. of the village, Joseph McArthur, Esq.,
who was unanimously elected chair-
man, and Mr. R. C. Calhoun ap-
pointed secretary. The chairman then
briefly stated the object of the meeting
—namely, the desirability of showing
by some public recognition their appre-
ciation of the services of their member
for the House of Commons, Mr. Hector
Cameron, particularly as regards his
action in promoting the local interests
of the village in the furtherance of the
improvements of the Trent Valley wa-
ters. It seemed to be the unanimous
opinion that Mr. Cameron should be
invited to meet his constituents at a
public supper at some early date to be
mutually agreed upon. A resolution
was then passed, it having been moved
by Mr. Thos. Roberts, and seconded by
Mr. W. S. Burley, That the following
gentlemen be appointed a committee,
with power to add to their number, to

make all necessary arrangements for
the above object: The Rev. W. Logan
and Messrs. Jos. McArthur, W. Jordan,
J. Thomson, W. Deyman, J. Nugent,
S. Swanton and H. McDougall. The
proceedings then terminated.

Behind Time.
Since the freight train on the Victo-
ria branch of the Midland Railway was
abolished, the mail train from the south,
which is due at Fenelon Falls at 4:40,
has generally been more or less behind
time and occasionally does not arrive
until six o'clock, and of course a great
deal of indignation is felt and expressed
by those who suffer from the delay,
which is attributed to various causes.
We have heard it stated that when the
train stops for water at McLaren's
creek the men sometimes go crane
shooting for half an hour or so, which
is scarcely credible, though we believe
it really did occur once at least. The
truth is that the train has too much to
do, having freight to carry as well as
mails and passengers, and the conveni-
ence of the public has become a second-
ary consideration. The most exasperat-
ing feature of the delay is that the pas-
senger and mail cars are often left
for nearly half an hour on the track
above the switch south of Greene &
Ellis's mill, while the engine is busy in
the lumber yards. As a petition which
was got up with reference to the mails
some time ago has had no effect, the
impression is that the Midland Railway
Company feel that they can do exactly
as they please and do not care a straw
for expostulations. The indignation at
the irregularity of the mail is becom-
ing stronger day by day, and the resi-
dents of this village are trying to hit
upon some plan by which the annoy-
ance can be put an end to.

Fatal Shooting Accident.
On Monday last an accident occurred
about two miles from Kilmont by
which a young man named John Dorey,
eldest son of Mr. John Dorey, Sr., a
well-known resident of Lindsay, was
deprived of life without a moment's
warning. The particulars, as narrated
to us, are as follows, and are probably
nearly or quite correct. The ill-fated
young man and a companion named
Brown had been out hunting, and on
their road back to Kilmont were met
or overtaken by Mr. William Dunbar,
hotel-keeper, of that village, who had
been out for a drive in his buckboard,
and who invited them to ride home
with him. The invitation was accept-
ed, and Mr. Brown got in beside Mr.
Dunbar, but Mr. Dorey said that as
there was not room for three to sit com-
fortably on the seat, and as he was the
youngest of the party, he would get up
behind. He accordingly did so, stand-
ing upright and holding by the back of
the seat, with the butt of his rifle rest-
ing on the slats of the buckboard. How
far they had driven when the accident
occurred we do not know; but as the
horse was jogging along with his heavy
load, the two men in the front seat were
startled by the report of the rifle close
behind them, and turning around, they
saw their companion lying in the road.
They instantly jumped from the vehicle,
ran to him and raised him up, but he
was quite dead, the bullet having entered
just below the inner corner of one of
his eyebrows and passed through his
brain. Upon arriving with their life-
less burden at Kilmont a telegram
was sent to Mr. Dorey, Sr., who left
Lindsay with some friends by the after-
noon train to fetch the body of his son
with which the party passed through
Fenelon Falls the next morning. De-
ceased was about 22 years of age, and
the sympathy felt for his stricken fam-
ily will be intensified by the fact that
his only sister was buried less than a
fortnight ago. The accident is said to
have been caused by the stock of the
rifle slipping between the slats of the
buckboard and the hammer striking one
of them. It was an act of extraor-
dinary thoughtlessness on the part of
the unfortunate young man to carry the
weapon in the manner he did, especially
if it were a breech-loader, from which
the cartridge could have been removed
in a few seconds; but familiarity with
firearms is but too apt to breed com-
placency, or at least forgetfulness of the
danger arising from the incautious
handling of them, and numberless lam-
entable casualties like the one above re-
corded are the inevitable consequence.

School Trustees' Meeting.
A special meeting of the School Board
was held on Wednesday last. All the
members were present, and the chair-
man in the chair. The minutes of the
last meeting having been read and ap-
proved, it was
Moved by Mr. Moffat, seconded by
Mr. Ellis, That the repairs recom-
mended by Mr. Naylor and Mr. Nie be
approved of, and that they be appointed
to have them carried out as soon as
possible.—Carried.
Moved by Mr. Naylor, seconded by
Mr. Moffat, That Mr. Graham be re-
compensed at his last year's salary for the
year 1883, with the understanding that
the School Board with the head teacher
shall have the privilege of certain dis-
tribution of the work in school.—Car-
ried.
Moved by Mr. Moffat, seconded by
Mr. Nie, That we advertise in the
Weekly Globe for a successor to Miss
McMurry, for the third division of this
school.—Carried.
Moved by Mr. Naylor, seconded by
Mr. Jordan, That the Fenelon Falls
school house be reimbursed in the Lan-
cashire Insurance Company, at and for
the sum of \$4000, at the rate of 3/4 per
cent.—Carried.
Moved by Mr. Naylor, seconded by
Mr. Moffat, That the offer of \$150
made by Mr. Keith cannot be accepted,
as it appears that \$395, exclusive of
costs and debentures, is due this Board.
—Carried.
Moved by Mr. Ellis, seconded by Mr.
Moffat, That Miss McArthur be re-
engaged at a salary of \$320, Mr. Wil-
liams at a salary of \$220, and Miss
Twomey at a salary of \$175.—Carried.

The cattle plague in Picton County
has been almost stamped out.

Village Council Proceedings.
Fenelon Falls, Oct. 16, 1882.
The council met at the call of the
reeve. All the members present and
the reeve in the chair. Minutes of last
meeting read and approved.
Moved by Mr. Fitzgerald, seconded
by Mr. Thomson, That the reeve and
clerk be empowered to enter an action
and conduct the same in the Division
Court against the corporation of the
township of Verulam for the sum of
\$91 12, amount of school moneys due
this municipality for the year 1881.—
Carried.
Mr. Fitzgerald gave notice that he
would introduce a by-law at next meet-
ing of the council to appoint a collector
of rates for the present year. The coun-
cil then adjourned.

Condensed News.
—Woodville pines for a pound, hav-
ing no place in which to imprison pre-
datory pigs.
—Mr. P. O'Carroll, of Norwood, has
a hill of potatoes which only a week ago
was in full blossom.
—The youngsters of Port Perry are
getting up bee-hunting parties, the crop
in that neighbourhood being a good one
this year.
—An apple tree in the garden of
Rev. Mr. Abbs, Port Perry, had bloss-
oms and perfect fruit at the same time
on one of its branches.
—Port Hope is already joined to Co-
bourg by telephone, and will soon have
similar connection with Bowmanville,
Toronto, Hamilton and Guelph.
—Mr. Richard Harper, of Reach,
fell from the top of a ladder to the floor
of his barn, a distance of thirty feet,
and received such severe injuries that
he died soon afterwards.
—The wife of Mr. Andrew McCul-
lach, of Cobourg, died suddenly while
eating dinner. She had been subject to
asthma, and it is supposed that she was
strangled by it while attempting to
swallow some food.
—A young man near Marmora took
a dose of sulphate of zinc in mistake
for Epsom salts. His mother promptly
gave him several draughts of salt and
water, which cured him and saved his
life.
—A drunken man named Henry Fos-
ter was ejected from Kennelly's Hotel,
in Peterboro', and retaliated by throw-
ing stones at the windows, doing about
fifteen dollars' worth of damage before
he was arrested and sent to the lock-up.
—While Mr. Wm. Adams, of Ennily,
was in his stable giving his horses some
salt, the animals became alarmed from
some cause and knocked him down and
trampled on him. His right arm was
broken, his body bruised and his head
badly cut.

An immense number of the foot-
prints of some kind of small animal were
recently observed on a road about two
miles from Port Perry. Some are of
the opinion that more than a hundred
"coons" must have passed over the spot;
but an old hunter differs from them,
though he does not say what animals he
thinks made the tracks.
—The third fire in Port Hope within
two months took place a few nights ago,
and there is no doubt that it was started
purposely, as the house burned was un-
inhabited, and had nothing in it but
some garden tools. The *Guide* thinks
"it is about time that some active
measures were taken to catch the vil-
lains who are guilty of such acts."

NEW STORES.—Mr. Johnston Bran-
don is opening out a large stock of
boots and shoes and groceries in one of
Mr. Cunningham's brick stores, and his
advertisement will appear in next week's
Gazette.

SCHOOL ATTENDANCE.—The follow-
ing was the average attendance in each
division of the Fenelon Falls public
school during the last quarter:—Miss
Twomey's, 45; Miss Williams', 40;
Miss McMurry's, 41; Miss McAr-
thur's, 20; Mr. Graham's, 12.

DECLINED.—We decline to engage in
an exchange of personalities with the
Port Hope *Times* or a discussion of the
mental or moral qualities of Mr. S. S.
Peck with the *Lindsay Warbler*. We
pointed out what we considered a fault
on the part of each of those papers, and
though both have responded to our re-
marks at considerable length, neither
has denied that what we said was cor-
rect.

BACK AGAIN.—Mr. Richard Smith,
who resigned his position as manager of
Mr. George Bertram's hardware busi-
ness a few weeks ago and went to Lind-
say, is back again at his old post, where
he will in all probability remain per-
manently. All his acquaintances in the
village regretted his departure and now
rejoice at his return, for he is a general
favourite, and in gloomy weather the
light of his countenance is a first rate
substitute for sunshine.

CONCERT.—A concert in aid of the
Fenelon Falls Mechanics' Institute will
be given in Ingram's hall on the eve-
ning of Thursday next, the 26th inst.
The valuable assistance of Mr. and
Mrs. J. D. Smith, of Port Hope, Miss
Jewett, Miss Lenay and Mr. Charles
Polzner, of Lindsay, and Mr. Alexander
Hart, of Toronto, has been promised,
and the programme will be an unusu-
ally attractive one. Posters, containing
full particulars, will be issued this week.

THE PRIZE LIST.—We have been
told that there were some few errors in
the Fenelon Agricultural Society's prize
list, which appeared in last week's *Gir-
lette*, and which was printed according
to copy; but the only mistake pointed
out was in class F—Leicester sheep.
In this class the first prize for ewe
lambs was awarded to Mr. W. Dobson
instead of to Mr. Wm. Isaac, and this
error no doubt arose from the fact that
Mr. Isaac, who exhibited the lamb, sold
them to Mr. Dobson some time
during the afternoon of the show day.

C. E. Thompson, rubber stamp man-
ufacturer of Montreal, has just fallen
heir to \$40,000, left to him by an uncle
who made a fortune as a Government
contractor in India. His uncle's last
act to young Thompson in life was to
switch him for stealing apples, on ac-
count of which the lad ran away, and
lived to receive the legacy.

Improving our Navigation.
THE GOVERNMENT REMOVING THE OB-
STACLES—GOOD WORK ALREADY
DONE.

The Government drag for removing
the obstruction to navigation at the Pe-
terborough and Ashburnham wharfs is
doing good service. It has only been a
week at work, but, towed by the Golden
Eye, the huge rake has removed the ac-
cumulation of slabs and sawdust in
front of the Peterborough wharf so that
a depth of four feet has already been
obtained, where formerly there was only
a few inches, and the steamers are thus
enabled to swing and turn where they
would hitherto have had no room to do
so, and consequently could only leave
the wharf with difficulty by backing
out. The debris removed is being drag-
ged into the deep channel where there
is over thirty feet of water, but the
greater portion of it is being carried
down the river by the current, and no
doubt most of the remainder will be
also swept away by the spring freshet.
When the work near the Peterborough
wharf has been accomplished, a similar
process will be adopted at the Ashburn-
ham wharf, where there is also a large
deposit, making the water very shallow
at the landing place, though there is a
depth of 37 feet at a short distance.
The bank that has formed opposite the
Cemetery Point will also be removed in
a similar manner.

The Government Superintendent, Mr.
Stenden, is well satisfied with the pro-
gress that has been made. He describ-
ed the Golden Eye as being very well
adapted for the purpose, being the handi-
est boat he had ever had his rake at-
tached to, so that on Saturday last he
was enabled to make eight trips an hour,
better work than he had ever done be-
fore. The improvement of our local
navigation will be a great boon to the
vessel owners and the public, and when
the Trent Valley Canal is completed it
will enable the barges and tugs to come
right up to the centre of our town.—
Peterborough Review.

Arabi's Trial.
CAIRO, Oct. 16.—The evidences of
Arabi's complicity in the June mas-
sacres are possibly insufficient to secure his
conviction, but there is little doubt that
"not proven" rather than "not guilty"
will be the verdict. Eight hundred
documents, including correspondence
between Arabi and various persons,
which Gen. Wolsey captured after the
battle of Tel-el-Kebir, have reached the
Foreign office. At the private investi-
gations of the rebel prisoners most of
them objected to being questioned re-
garding events prior to the outbreak.
Arabi especially urged that they were
covered by the Khedive's general par-
don. Arabi denies that the June mas-
sacres were precipitated by the presence
of the British fleet, and he was in no
way responsible for them. The Alex-
andria bombardment was done after a
mere twenty-four hours' notice, which
was entirely too short to allow the peo-
ple to remove or carry away their goods.
Arabi alleges that he and his officers
did all in their power to keep under
control this dangerous feeling, and would
have succeeded in preventing this out-
break if Admiral Seymour had not been
in such haste. There was a common
belief among his staff that the British
were well informed of the dangerous
temper of the populace, and knew that
a bombardment under the circumstances
would drive the Egyptians into a fren-
zy. Arabi said all the bloodshed was
caused by a Maltese stabbing an Arab
who was denouncing Admiral Seymour's
conduct. In contradiction of the charge
of rebellion Arabi will produce evidence
that he was acting in perfect fealty to
the Sultan and the Khedive. Sir Ed-
ward Malet announces that the trial of
Arabi and his associates will not pro-
ceed unless they are defended by Eng-
lish counsel, while the Egyptian Minis-
try has informed Sir E. Malet it will
not be responsible for the government
of the country if English counsel intro-
duces a method of procedure unknown
to the Egyptian Courts.

Affairs in Egypt.
CAIRO, Oct. 13.—Sir Edward Malet
has issued a circular to the British Con-
sular Agents in Egypt requesting them
to send him a list of political prisoners
in their respective towns, and to strictly
watch that the Khedive's order for the
humane treatment of the prisoners be
carried out. An officer who acted un-
der the orders of Saleim Pasha re-
vealed to-day what he knew of the burn-
ing of Alexandria, but the tribunal be-
fore which he was examined failed to
extort any evidence from him criminat-
ing any of the leaders of the rebellion.
One of the principal Egyptian Ministers
declares that neither he nor his col-
leagues will remain in Egypt unless
Arabi and the other rebel leaders are
executed. He has complete confidence
that Arabi can be proved to have given
strict orders to burn Cairo. The trial
of the leaders is a daily fixed for
Monday. Cherif Pasha opposes the
presence of an English consul at Ara-
bi's trial except as a spectator. The
Khedive and Ministers are determined
on Arabi's execution. The *Egyptian
Gazette* states that the effective new ar-
my will consist of 11,000 men com-
manded by English and Egyptian offi-
cers at an annual cost of \$2,400,000.
Seventeen natives implicated in the
June massacres have been arrested in
the interior and taken to Damahou.
Upwards of three thousand persons
have lodged claims amounting to six
million pounds for losses sustained after
the bombardment of Alexandria.

The Salvation Army in India.
The Indian contingent of the Salva-
tion Army, consisting of three men and
one young woman, have landed at Bom-
bay with a great demonstration of mili-
tary pomp. A triumphal procession of
war chariots, consisting of bullock cars,
paraded the streets, the woman beat a
tambourine, and one of the young men
attempted to blow a trumpet, but inas-
much as he was warned that this was
in contravention of police regulations
and he declined to do so, he was inco-

F. SANDFORD,
Dealer in all kinds of
FARM IMPLEMENTS.
PLOUGHS! PLOUGHS!
A large stock of John Whyte & Co.'s No. 3 DIAMOND STEEL PLOUGHS, guaranteed
to clean, or no sale. Also, two kinds of GANG PLOUGHS. Points and Soles of differ-
ent makes always on hand. Agent for

The New Brantford Reaper & Mower,

on hand, all made of well seasoned first class material.

Horse-Shoeing & Jobbing a Specialty.
A good second-hand Reaper for sale. Price, \$20. Has only cut 25 acres.
F. SANDFORD,
Fenelon Falls.

tinently arrested. The procession is de-
scribed as having caused considerable
amusement to the natives, who took the
Salvationists for circus people, and pos-
sibly viewed the procession as a grati-
fying present by the Government in
commemoration of the victory in Egypt.
The uniforms of the men consisted of
yellow coats reaching to the knees, tan-
talons, turbans and shawls, and Eng-
lish boots. The young woman wore a
yellow dress, crowned with a tall trim-
med with ribbon. On two occasions
the procession was met by a large crowd
of Hindus with t-bombs, but with the
assistance of the police the Salvationists
continued their march. Each member
of the contingent, with the exception of
the enthusiastic member who had been
arrested, delivered an address. There
is considerable danger, the Calcutta
correspondent of the *Times* says, that
these objective and aggressive religious
demonstrations may excite native sus-
ceptibilities and cause disturbance.

A Sporting Empress.
The Empress of Austria, even put-
ting aside the fact that she is a grand-
mother, is a most marvellous woman,
and has lately been through a more
than usually severe course of training
for the hunting season, which, by the
way, she will in all probability spend in
Hungary. During the time that Her
Majesty was at her summer residence
at Ischl, in Upper Austria, she gener-
ally rose at six o'clock in the morning
and devoted a couple of hours to gym-
nastics or fencing, after which the morn-
ing tub and a plain but hearty break-
fast were supplemented by a walk or
ride, which lasted some hours. Lately
the Empress has actually been running
for two hours a day; and, to encourage
her in the exertion, a pack of beautiful
fox hounds have recently been sent to
Godelo, which her Majesty intends hunt-
ing herself. The walking costume, in
wet or cold weather, is a long water
proof Newmarket coat, brown straw hat,
thick navy boots; in hot weather the
long coat is changed for a hunting slip
of thin stuff. At Godelo the Empress
has a circus, in which she trains her
own horses and rides them *a la Renz*.

Trent Valley Navigation.
We are glad to learn that the Domi-
nion Government has assumed the Lake-
field dam, both by passing an order in
council to that effect and also by taking
actual possession of the work. Though
we ourselves need no further evidence
of the bona fides of the Government as
to continuing the work of making a
valuable our inland navigation, yet there
are some who have maintained in the
teeth of the facts that the pledge to
open the Trent Valley Navigation was
only a political dodge, and that we
would hear nothing more of it after the
election. These doubters have now an
other strong proof that the Government
is not only sincere but zealous in this
matter. It would be useless to construct
a canal without holding the control of
the water, and the assumption of this
dam, with its attendant cost, shows that
Sir C. Tupper and his colleagues are in
earnest and not disposed to let the mat-
ter sleep.—*Peterborough Review.*

Irish Affairs.
LIVERPOOL, Oct. 13.—Lord North-
brook, First Lord of the Admiralty,
speaking here to-night of the beneficial
effect of the Land Act, expressed the
belief that the turning point had been
reached in the affairs of Ireland. The
number of outrages had decreased and
rents have been freely paid. Mr. Faw-
cett, postmaster-general, said the chief
danger threatening the Liberal party
was more likely to come from within.
With the settlement of the Egyptian
question and the improved condition of
Irish domestic legislation would come
to the front. Referring to the proposi-
tion for the nationalization of the land,
Mr. Fawcett said that he could not see
that it was a practicable one. Mr. Faw-
cett said whether the Government lost
or retained the Irish vote in Lancashire
they were determined not to depart
from the path of strict justice in Ireland.

A Terribly Fatal Diphtheria.
CHATHAM, Va., Oct. 13.—The rav-
ages of diphtheria in this section are
dreadful, and are becoming more alarm-
ing daily. There are hundreds of cases.
It is estimated that 200 deaths occur-
ed in two months. Nine of every ten
families have lost from one to five chil-
dren. Twenty-one deaths have occur-
ed in four families. Four graveyards in
one neighbourhood have eighteen to
twenty new graves each. One school

has lost twenty pupils. On Sunday
three persons were lying dead in one
house. Mostly those who die have black
vomits, and some are covered with run-
ning sores. The doctors are unable to
account for the terrible fatality, and
some think it scarlet fever and diphthe-
ria combined. The systems of those
who recover are badly shattered.

Wedded Behind the Bars.
On Friday a wedding occurred in
the Penitentiary, a convict named But-
ler being wedded to a woman who served
a term in the prison, but who was
released two months ago. Butler has
served several sentences, and some years
ago made his escape, but was re-pu-
red. He had not the chance of couring
as people generally do, but is supposed
to have taken the eye of the female while
a contributor to penitentiary entertain-
ments, he being quite a versatile char-
acter. Of course once he saw that she
was suited, he paid her some little at-
tention, and gave her looks that meant
more than many words. Butler, who
is coloured, will be a free man in a few
days, but he received permission to
have the wedding in advance. This is
only the second time that such an oc-
currence has taken place in prison.

Brandon, incorporated as a town but
a year ago, has twenty-three applicants
for liquor licenses. Only four are for
shop licenses.
The closing of the League Fund by
the *Irish World* created a sensation in
Dublin, and explanations are demanded
as to how the money was spent.
Michael Lee was convicted at the
Assizes at Napanee on Friday of the
murder of his sweetheart, Maggie How-
ie, and sentenced to be hanged on Nov-
ember 17th.

The editor of the *Irish World* has
closed its Land League fund for the
reason that there is no longer a Land-
League in existence. The *World* has
remitted \$340,000 during the agitation.
The corporations limited of Winnipeg
have recently been extended from an
area of twelve to twenty square miles.
Winnipeggers are evidently determined
to have sufficient room to breathe freely.
The population of London is, accord-
ing to the latest census, 4,764,312,
which is much larger than the popula-
tion of the thirteen American colonies
before the Revolution. And it is still
growing at the rate of 60,000 a year.
Where will it stop?

Adam Kirpen has a beard twelve
feet long and proportionately heavy,
and by means of it he has not only
lived twenty-two years without work,
but has accumulated considerable prop-
erty in Chicago. He travels through
the west selling his photographs.
On Friday last in Winnipeg two
brothers named Magwood were driving
a heifer, when
