The Fenelon Falls Gazette
Saturday, May 12th, 1883.

Removal.
As soon as next week's Gazette is
printed our presses, type, &c., will be
moved from the present office into the
front part of the building occupied by
Mr. Edward Haw on Francis Street. We
had hoped a while ago that by the 1st
of June, or a few days later, we should
be in the new office we intend to put
up on our own lot at the corner of
Francis and May streets, where we were
burned out in May, 1880; but as the
lateness of the spring has rendered it
impossible, and as the owner of the
shop we are now in wants it for his
own use the moment our lease expires,
we are forced to accept Mr. Haw's hos-
pitality—for such it may almost be
called—for a few weeks. Removing
the contents of a printing office and re-
arranging them takes a good deal of
time; and, therefore, if the Gazette due
on Saturday, the 26th inst., should be
a day or two late, as is very probable,
we hope our readers will bear it good
naturally.

The Pulp Mill.
During the past week over a dozen
men have been kept constantly busy on
what may be termed preliminaries to
the erection of the pulp mill. On the
market square considerable progress has
been made in the preparations for the
three houses—or, rather, the double
house and the single one—to be built
thereon, which will be run up in a hur-
ry as soon as the ground is ready. The
slanty which has stood for so many
years in the square has been bought
for a trifle, and is to be pulled down,
and the wreck, which at present men-
ders in various directions, is to be run
in a straight course from Welch's card-
ing mill to the culvert on Francis Street.
On Wednesday morning we went up
the track as far as McArthur & Thom-
son's saw-mill and got acquainted with
Mr. Burgoyne, the Pulp Co.'s managing
man, who was superintending about
half a dozen men who were digging at
the site of the kiln, which is to be
located on the half acre lot, nearly op-
posite the mill, purchased last week
from the Midland Railway Co. The
kiln will be 18 feet square and 18 feet
high; but as the walls will be six feet
thick, the interior will measure 6x18
feet. When completed, which will be
in from one to two months, it will be
kept going night and day, and will turn
out about 250 bushels of lime every
twenty-four hours. Soon after the kiln
is in operation work will be commenced
on the pulp mill itself, which will prob-
ably be finished in about six months
from now. Noticing an immense pile
of slabs on the park lot purchased from
Mr. Cunningham, we were informed
that the Pulp Co. had contracted for
all turned out by McArthur & Thom-
son's mill, into which a new circular
is about to be put, and that the pulp
mill (which is to run all the year round,
except from 12 o'clock on Saturday
mornings until 1 o'clock on Monday
mornings) will burn them at the rate of
over a cord an hour. In reply to a ques-
tion as to the mill hands, Mr. Burgoyne
said that of course a few who have al-
ready acquired skill will have to be
brought from a distance, but that the
company will give employment to as
many of the residents of the village as
possible, and will be anxious to get
good steady married men, who will
be likely to remain in their situations for
years, as many of their employees at
Napance have done.

Excursion on the 24th.
Although there will be no celebration
of the Queen's birthday in Fenelon
Falls this year, it will, we suppose, be
observed as a holiday, and those who
wish to witness or join in the sports at
Lindsay will have an opportunity of
doing so at a very trifling expense; as
a committee appointed for the purpose
by the Directors of the Mechanics' In-
stitute have made arrangements for an
excursion with the owner of the steam-
er *Esot*, which will run from the Falls
to Lindsay and back that day. All we
know at present is that the fare will be
only 25 cents, but full particulars will
be given in posters which will be issued
this week. The celebration is expected
to be the largest ever held in the county
town, which as it increases in wealth is
able to give greater evidence of its loy-
alty. The "best day's sport ever seen
in Canada" is predicted, and not with-
out good grounds, as no less a sum than
\$1,000 is to be given in prizes at the
athletic tournament, with reference to
which we clip the following from the
Post:—
"Preparations for the grand tourna-
ment at Lindsay, on May 24th, are go-
ing forward. Next week the grand
stand will be erected on the west side
of the grounds. This will accommodate
2,500 people. The games and sports
will be carried on in two rings, to which
the competitors only will have admis-
sion. These will be enclosed by an
outer ring for the accommodation of the
judges, referees, managers of the sports
and press. It is thus ensured that
there shall be absolutely no hindrance
to interfere with any competitor doing
his level best. A well contested lacrosse
match between the Lindsay and Bow-
manville teams will commence at one
o'clock and finish inside of one and a
half hours. The sports will commence
at 2:30, and it will probably take three
hours to complete all the contests. En-
tries are rolling in from men of muscle
all over the Midland district. Orillia
will send several of her active runners
and jumpers; from Peterboro' a num-
ber of entries from good men have been
received. Port Hope, Bowmanville,
Port Perry and other localities are en-
vincing a lively interest in the great
event, and behind the bars of the
county our athletic young farmers are
putting in a brief half hour practicing
the hop-step-and-jump, in which event
we predict the largest number of en-
tries."

SOMERVILLE COUNCIL.—The Som-
erville Council had a meeting, April 30th,
the proceedings of which have only just
been handed in and consequently can-
not be published until next week.

A BILLIARD TABLE.—Mr. George
Quible, our village tonsorial artist, has
obtained a billiard table and set it up
in a room at the rear of his shop, where
lovers of the game have already found
it out and spent many an hour and
quarter dollar.

WE TOLD HIM SO.—We have re-
ceived an intimation that a reply to Mr.
Suddaby's letter will appear next week
that will open the eyes of some and per-
haps hurt the feelings of others. That's
just what we told Mr. Suddaby was
probable, and he now sees that our pre-
diction is to be verified.

NEW WATCHMAKER.—Mr. J. Cam-
eron, watchmaker, from Toronto, will
commence business this week in the
shop recently occupied by Mr. Callon,
opposite this office. Mr. Cameron in-
forms us that he has about \$3,000
worth of clocks, watches and jewellery,
which will be here in a day or two and
which he will sell at city prices. His
advertisement will appear in next week's
Gazette.

A LARGE CONSIGNMENT.—Last Wed-
nesday morning Messrs. McDougall &
Brandon shipped no less than two thou-
sand dozen eggs to a purchaser in Bos-
ton, from whom they received a cheque
in advance in payment. We have never
made any enquiries as to the number
of eggs sent from this village, but do
not doubt that the above mentioned
consignment was the largest ever for-
warded in one lot.

A SWEET ITEM.—Messrs. McDou-
gall & Brandon are daily expecting a
carload (twelve tons) of assorted sugars,
which they have ordered from the Mon-
treal refinery. On so large a quantity
the saving on freight will be considera-
ble, and though not enough to enable
them to make any difference in the
price of a single pound, customers who
purchase a dollar's worth or even half a
dollar's worth at a time will get more
for their money than formerly.

FANCY STORE.—On Tuesday last Mr.
Inkpin and an assistant commenced to
close up the Colborne street entrance
to the McArthur House yard, and a
room about 14 by 36 feet will thus be
formed. There was a rumour that it
was meant for a billiard room, but Mr.
Ingram contradicts it, and says that he
intends it for a gentleman's fancy store,
and will purchase a large stock of such
articles as are not now kept at all, or
only in very limited quantities, in any
store in Fenelon Falls.

OUR BAND.—The Fenelon Falls brass
band, re-organized about a year ago,
bids fair this time to be a permanent
institution. There are now fourteen
members, who were playing in public
last Monday evening and acquitted
themselves very well indeed, especially as
they have only had a teacher for a lit-
tle over two months, and he has been
sick the last three or four weeks. So
many hands have been formed, only to
fall to pieces again, that we feared it
was impossible to construct one that
would stay constructed, but we begin to
hope that we were mistaken.

BROKEN AGAIN.—Last Wednesday
morning a nine ounce stone, thrown up
by a blast in the canal, fell upon Mr.
John Nugent's skylight and broke two
panes of glass, but did not descend in-
to the room, as it alighted upon a broad
part of the sash, which it penetrated to
a considerable depth. This is the second
time the skylight has been broken by
the same means, and the third or
fourth time glass some part of his
premises has been smashed. He thinks
the contractors ought to be satisfied
with bombarding the Grits, and let
good tories like themselves escape.

THOSE IMMIGRANTS.—The immi-
grants expected here on or about the
1st inst. have not yet made their ap-
pearance, and there seems to be no cer-
tainty of their doing so; for though
great numbers have come to Canada,
nearly all of them for some reason, pre-
fer the North-West to older portions of
the Dominion. The non-arrival of the
party said to be coming to the Falls has
no doubt disappointed a good many per-
sons; for, since the notice in the *Gaz-
ette* of the 21st ult., Mr. Cunningham
has received applications from fifty or
sixty persons in need of either farm la-
bourners or domestic servants.

PERSONAL.—Our old friend Mr. Wm.
Margach was in the village for a short
time at the end of last week; but we
only saw him for a few minutes on Sat-
urday morning just before he left by
the train. Mr. Margach now lives at
Prince Arthur's Landing, where he
holds a Government office similar to
that held by our old friend Mr. George
Bick of Bobayzeon. Dr. Bryson
is also at the Landing, and is, his
friends will be glad to hear, doing ex-
ceedingly well. Mr. Margach likes the
place, which is growing rapidly as the
result of its important position, but the
winters are terribly severe there.

NEW WAGGONS.—Two new delivery
waggon, gay with paint and varnish,
have made their appearance on our
streets within the past few days. One
belonged to Messrs. Ellis & Whittle and
the other to Messrs. Johnson & Fielder,
and the names of the owners appear in
fancy lettering on the panels below the
ends of the seats. The vehicles, which
appear to be first class of their kind,
were built by Mr. F. Sandford, of this
village, and cost \$110 each. They are
constructed in the latest style, without
reaches, and with the springs so arrang-
ed as to throw the weight of the load
close to the wheels, which renders a
heavy clumsy axle-tree unnecessary,
and the light round iron one used in its
place looks much neater and better.

THE BOSS POTATOES.—Mr. George
Manning has for sale a few bushels
each of two of the newest sorts of po-
tatoes, Beauties of Hebron and White
Elephants, which he raised from seed
procured last season from Messrs. Stone
and Wellington, of Toronto, for whom
he acted as agent. For the small quan-
tity he purchased Mr. Manning paid
25 cents a pound; but they were so ex-
traordinarily prolific that he can afford
to sell what he has to spare at \$1 75
per bushel. The Beauties of Hebron
are at least ten days earlier than the
Early Roses, but the White Elephants
are a late kind best suited for winter
use. Mr. Manning says that Mr. Thos.
Johnston, of Colborne street, to whom
he sold five pounds, raised no less than
seven bushels from that quantity, which
proves them to be the "boss" potatoes
and no mistake.

UNJUST JUDGES.—All whom we have
heard express an opinion respecting the
South Victoria agricultural society's
spring show, held in Lindsay on the
28th ult., declare that Young Netherby,
owned by Mr. George Manning, of this
village, was by far the best general pur-
pose horse entered for exhibition; and
yet he only got the second prize; and
the first being awarded to an obviously
inferior animal owned by Arthur Mc-
Quade, ex-M. P. One of the judges, to
his credit be it said, tried hard to have
the preference given to Netherby; but
the other two overruled him, and the
injustice of their decision was so glaring
that several prominent gentlemen com-
mented upon it in strong terms. Mr.
Manning is naturally very indignant,
and says that if he had known it was
to have been a competition between men
instead of between horses he would not
have pitted himself against the pet from
Emily.

Tried to Break Gaol.
MONTREAL, May 6.—A terrible af-
fair is reported from St. Vincent de
Paul Penitentiary. It appears that on
Wednesday last five convicts managed
to come together by opening their doors
with skeleton keys. They were a des-
perate gang, and, waiting until mid-
night, they rushed upon their guard,
Moise Rodgers, whom they overpowered
and gagged, and tied his hands behind
his back. The ringleader, Vieux Alex-
is Leblanc by name, undressed the guard
and assumed his clothes, and took his
revolver. Badois, the keeper, is com-
pelled by the rules to make his rounds
every two hours, and as he was doing
this a keeper named Conbrette accom-
panied him. The pair suddenly were
confronted by the five convicts. Spring-
ing upon Conbrette, Leblanc held the
revolver at his head and demanded his
surrender. In the hands of the keeper
Badois was a padlock seven pounds in
weight. Realizing that it was a criti-
cal moment he raised the padlock and
with one terrible blow crushed in the
Leblanc's skull before he had time to
move a finger. He then turned upon the
remaining four and they surrendered at
discretion. They hurried to the place
where Rodgers, the guard, had been
gagged, and were just in time to save
his life, as he had been nearly strangled
by the gagging process. Leblanc lay
motionless where he fell, and when he
was examined his skull was found to be
fractured. He is now dying.

Soundness of British Trade.
The Saturday Review (Tory) says:—It is
noteworthy that the taxes came in sur-
prisingly towards the end of the year,
suggesting revival, unless there was of-
ficial pressure to get in as much as pos-
sible within the twelve months. It is
also noteworthy that the increase in the
miscellaneous revenue was surprisingly
large. It would seem that at last the
revenue is recovering some of its old
elasticity. If this be so, it must follow
that the country is really more prosper-
ous than the other signs would seem to
indicate. Another favourable circum-
stance is the steady growth in the ship-
building trade. If the business to be
done was not steadily augmenting, it is
not to be supposed that the means of
locomotion would be so constantly in-
creased. And the additional output on
railways, canals and the like all
points in the same direction. Lastly,
it is of good omen that the amount of

business done continues very large.
Whether profitable or not, it is unques-
tionable that the volume of trade grows
larger and larger.

Seventy People Burned.
FIRE ON BOARD A STEAMER OFF VAN-
COUVER'S ISLAND.
SAN FRANCISCO, May 3.—The news
of the burning of the steamer Grappier
was brought from Nanaimo, B. C., by
John McAllister. The vessel was burnt
four miles off Seymour Narrows on
Sunday night. Fire was discovered by
the engineer, who immediately reported
it to the captain. A hundred passen-
gers, principally Chinamen, were aboard.
Immediate search was begun by the cap-
tain, who discovered the back boiler
connections. The engineer started the
donkey and connected the hose. By
this time the passengers had been warn-
ed. The excitement was intense. The
Chinamen behaved like maniacs, and
were utterly uncontrollable, and seri-
ously impeded the action of the officers.
The captain ordered all to be shot who
refused to obey orders. Notwithstand-
ing this the Chinamen rushed backward
and forward on the vessel until it was
necessary to knock some down and carry
below others and iron them. All the
time the fire was gaining. The efforts
to control it were unavailing. The
captain ordered the pilot to head the
boat for the Vancouver shore and beach
her. As soon as the sands were struck
the boats were lowered. The excitement
was so great that the Chinamen
jumped into the boats and swamped
them, and owing to the intense smoke
those who could swim didn't know
which direction to strike out, and sur-
rounded by a mass of struggling Chinam-
en, were drowned.

VICTORIA, B. C., May 4.—A steam-
er has just arrived from the scene of
the burned steamer Grappier. Twenty
white, two Indians, and forty-eight
Chinamen were lost. The bodies of two
white men were found in the water
floating tied by pieces of shirts to the
wreckage. The captain of the steamer
was picked up insensible on shore on
Monday morning and restored. Two
white men who floated off in a boat
without oars were picked up by Indians.
Heartrending scenes are described by
the survivors. Men clung to the ropes
until the flames reached them, when
they dropped into the sea and in most
cases were drowned. The hull of the
steamer sank on Monday morning in
thirty fathoms of water. The goods
and money lost are valued at \$20,000,
mostly insured. The survivors praise
the Indians for their kindness, and but
for the food and shelter they supplied
those who got to shore would have per-
ished.

The Disputed Territory.
THE ONTARIO GOVERNMENT SEIZING A
MILLION'S WORTH OF TIMBER.
The Prince Arthur's Landing Herald
of April 25th says that during the past
winter the Section B company got out
over a million dollars' worth of timber
in the disputed territory, for railway
building purposes. But the company
1,750,000 ties alone. They took out over
two million feet of lumber. The Ontario
Government no license for or paid the Ontario
Government any money, and the latter
has instructed their inspector of lum-
ber at the landing, Wm. Margach, to
seize all the ties and lumber in ques-
tion. Mr. Margach took the train, as
far as Savanno, from which place he
will take to the woods and seize every-
thing that has been cut, posting up no-
tices that anyone touching the materials
will be arrested and dealt with as a
person would be for stealing. His in-
structions are very emphatic, and he
says that he intends carrying them out
to the letter.—Toronto World.

**The Account of the Murder Com-
plete.**
NEW YORK, May 6.—The Tribune's
London correspondent telegraphs:—De-
laney's testimony as to Kelly's share in
the Phoenix Park murders will strength-
en the case for the prosecution, but will
not insure conviction, since it was not a
deficiency of evidence which caused
previous failures of justice. The con-
fessions of Delaney and Caffrey practi-
cally complete the account of the Phoe-
nix Park murders and their truthfulness
is admitted. It is considered that
Mr. Parnell's presidency of the seditious
league, including the American branch-
es, for which he is responsible but which
he cannot control, may yet bring him
into trouble. The appeal to labourers
is interpreted as meaning that Mr. Par-
nell is convinced that Irish farmers are
too well satisfied with the working of
the Land Act to give efficient support
to further agitation.

A Monster Monopoly.
The Waterloo Chronicle says:—If
there was any reason to suppose that
the Canadian public is capable of being
aroused to a sense of danger before the
nerves of sensation are disturbed, we
might, even now, when plainly too late,
lift up the voice of warning in their
ears. The utter uselessness of such
warnings is, however, so plainly taught
by experience that it is disagreeable to
write on these unpleasant subjects. Last
year when the people of Canada got
their first opportunity of pronouncing
upon the bargain with the Syndicate,
they ratified it by their vote, though its
terms are so manifestly outrageous that
no man living with sense enough to un-
derstand the contract could honestly de-
clare his approval of it. But the peo-
ple took the N. P. bait, itself a fraud
of the first water, and condoned the
bargain, or refused to consider it, be-
cause they thought this Government
was making them prosperous. Such a
people richly deserves the fleeing in-
stead of it is coming. The people
have sown the wind with liberal hand,
and they will reap the whirlwind with
out stint. A few of the consequences
of the popular verdict are shaping them-
selves even now.

Every well regulated newspaper has
the *Star's* obituary ready.

F. SANDFORD,
Dealer in all kinds of
FARM IMPLEMENTS.
PLOUGHS! PLOUGHS!
A large stock of John Whyte & Co.'s No. 3 DIAMOND STEEL PLOUGHS, guaranteed

cheapest and most durable in the Dominion.
Repairing done quickly, neatly and cheaply.
L. O'C., having had 34 years' experience in his trade, reliance may be placed in him.

The English Tenant Farmers' Bill.
LONDON, May 6.—It is understood
that the Government has completed the
Tenant Farmer Compensation Bill. It
will guarantee the farmers compensa-
tion for improvements, and provides for
arbitration to settle disputes as to com-
pensation. If the tenant believes the
rent unfairly advanced he may demand
an arbitration. The bill limits the dis-
traint for rent to one year. It is un-
derstood the Government will make the
acceptance of the bill a question of con-
fidence.

The Fastest Run on Record.
BUFFALO, May 4.—The Vanderbilt
party returning from Detroit yesterday
made the run from Essex Centre to St.
Thomas—96 miles—in 96 minutes, in-
cluding stoppages at two stations of seven
minutes. From St. Thomas to Ni-
agara Junction—116 miles—two hours
and twenty-three minutes was occupied,
but this included stoppages of 36 min-
utes. When the stoppages are deducted
the actual running time between Essex
Centre and Niagara Junction—212
miles—was 206 minutes, the fastest run
for the distance ever made, it is said,
on an American road.

Shot by a Spring Gun.
Living in the town of Almond, New
York State, is an eccentric old man of
the name of Alfred Kiddlet, who is the
only occupant of a house on the farm
which he owns. The boys and young
men of the neighborhood have been in
the habit of performing sundry depre-
dations upon his premises during his
absence. The frequency of their incur-
sions so exasperated the old man that
on leaving home yesterday morning he
fixed a loaded gun in such a way that
if the door opened the piece would be
discharged. Locking the door he took
his departure. During the forenoon a
lad named Peter Tippincoff, aged 15
years, visited the place, as was supposed
with the intention of mischief. He
sprung the trap and received the con-
tents of the gun in his abdomen. There
seems to be no chance of his recovery.

Shiloh's Consumption Cure.
This is beyond question the most success-
ful Cough Medicine we have ever sold,
a few doses invariably cure the worst cases
of Cough, Croup and Bronchitis, while its
wonderful success in the cure of consump-
tion is without a parallel in the history of
medicine. Since its first discovery it has
been sold on a guarantee, a test which no
other medicine can stand. If you have a
Cough we earnestly ask you to try it. Price
10 cts. 50 cts. and \$1. If your Lungs are
sore, Chest or Back lame, use Shiloh's
Cough Cure, John Nugent, Wholesale and
Retail Agent.

Answer This Question.
Why do so many people we see around
us prefer to suffer and be made miserable
by indigestion, Constipation, Dizziness,
Loss of Appetite, Coming up of the Food,
Yellow Skin, when for 75 cts. we sell them
Shiloh's Vitalizer, guaranteed to cure them,
John Nugent, Wholesale and Retail Agent.

DIED.
In Fenelon Falls, on Sunday, May 6th,
Esther, fifth daughter of Mr. Joseph Post,
aged 14 days.
