Buying and selling for cash, and having neither rent nor salaries to pay, we are able to defy competition and give more value for your money than you can get elsewhere.

The high quality of the goods in which we deal is well known. We intend to keep up the standard, and you can rely upon getting only reliable goods at

BRITTON BROS.

Foot of Kent Street, Lindsay.

The Fenelon Falls Gazette

Saturday, Dec'r 22nd, 1883.

Political Notes.

Reformers throughout the Dominion have good cause to congratulate themselves on the result of the elections which took place last week, three out of four having been won by Liberal candidates. In West Simcoe Mr. Phelps secured his seat by a majority of 39; in West Middlesex Mr. Ross was elected by a majority of 156; and in the same constituency, for the Commons, Mr. Cameron had a majority of 23. Dr. Robinson was, we regret to say, defeated in Cardwell by 45; but when the influences brought to bear by their opponents are taken into consideration, the wonder is not that one out of four should be beaten, but that either of them succeeded in obtaining a majority.

Another cause for self congratulation is the decision of the Privy Council in the case of Hodge vs. The Queen. In order to test the validity of the Crooks Act Mr. Hodge, the President of the Licensed Victuallers' Association, openly committed a breach of the Act, for which he was fined by the Police Magistrate of Toronto. In the Court of Queen's Bench the conviction was quashed; but the Court of Appeal unanimously reversed the judgment of the Chief Justice of the Queen's Bench and affirmed the conviction of the Police Magistrate. Mr. Hodge then carried the matter before the Privy Council, where the case was argued in November, and last Saturday judgment was given confirming the decision of the Court of Appeal and the conviction by the Police Magistrate; thus sustaining the contention that the Local Legislature has the power to regulate the liquor traffic, that the Crooks Act is perfectly valid, and that Sir John A. Macdonald was utterly and entirely mistaken when he said the Act was "not worth the paper it was written on."

Verulam Council. The council met pursuant to adjournment in the council chamber, on Monday, Dec. 17th. The members all present, the reeve in the chair. The clerk read communications from the Canada Land Law Amendment Association, relating to "The Torrens' System of Registration of Land Titles," the Woman's Suffrage Association, and Messrs. Pousette & Roger & Long's Road. Moved by Mr. Thurston, seconded by Mr. Lithgow, That the reeve and clerk be authorized to sign and attach the corporate seal to a petition to the Legislative Assembly of Ontario, praying for the adoption of The Torrens' Land Transfer System.—Carried. Moved by Mr. Lithgow, seconded by Mr. Junkin, That the reeve and clerk be authorized to sign and attach the corporate seal to a petition to the Legislative Assembly of Ontario, praying that women be placed on an equal footing with men, in so far as relates to the enjoyment and exercise of the franchise for all purposes.—Carried. Moved by Mr. Junkin, seconded by Mr. Thurston, That the collector be abated \$3 for statute labour charged to Wm. Thurston, lot 2 con. 2.—Carried. Moved by Mr. Junkin, seconded by Mr. Thurston, That \$10 be granted to repair bridge between Harvey and Verulam, opposite Thos. Chestnut's farm, provided Harvey grant a like sum; and that John Braden be appointed to superintend the same.—Carried.

Out of Patience. A few days ago some one remarked that the trains between here and Lindsay were beginning to run a more regularly than for some time past, and that he supposed the strong exhortations of the Gazette had not been altogether without effect. The conceit and exaltation engendered in our bosom by the flattering supposition were, however, rudely dispelled last Tuesday, when, having occasion to go to town, the train was more hours than usual behind time both in going and returning, as it did not reach Lindsay until nearly noon instead of at 9:50, and did not leave until about 5 o'clock instead of at 1:25. As we remarked the week before last, the train is always as much behind time in leaving as it is in arriving, and accordingly a blackboard was hung out at the Lindsay station announcing that the train for Haliburton would be two hours late, but it ought to have been three hours and a half, which would have been a more accurate statement. As the train only passed much exasperation

was exhibited by the waiting passengers, one of whom indignantly remarked that it was a farce to have a time table at all on such a railway; and some one else (an official, we think) stated that twenty-three trains passed that station every day, and that the one from Haliburton was the only one that was ever more than a few minutes late. The victims who live along the line have no redress; they must travel north or south whenever they get the chance, and receive their mails at whatever hour of the night it suits the railway company to deliver them. But the people of Boboyzeon are not so unfortunate, and it is of some use for them to get out of patience. They have hitherto always been able to receive and dispatch mails at regular hours; and, being determined not to submit to railway tyranny, have made an application to have the mail to and from Lindsay carried by stage instead of by train, as hitherto, and their request has been granted. This of course will kill the mail stage between Boboyzeon and the Falls, and it is to be hoped that Mr. Harry Brooks, the popular proprietor and driver, will be given the contract between Lindsay and Boboyzeon. As there is considerable traffic between that village and the Falls, Mr. E. R. Edwards talks of running a stage on the line as soon as the mail stage is removed; believing that, as he has a stable full of horses and the necessary vehicles, he can make it pay fairly well in passengers and freight alone. But all this will not help the people who live along the line of the Victoria Railway, which many of them helped to build and which is treating them so scandalously that it seems incredible that there should be no way of compelling it to do them justice.

The Salvation Army. Last Wednesday Lieut. Freer, of the Salvation Army, came to Fenelon Falls from Lindsay and engaged Ingram's hall, and early next month the Salvationists will commence operations in this village. The "army" has long been a flourishing institution in our county town, where extremely opposite opinions are expressed concerning it, one acquaintance ascribing to it that "has done more good than all the churches put together," while others regard it as an unmitigated nuisance, especially as its drill—we think that is what its exercises are called—are prolonged far into the night, and the employers of the young female recruits (who are amongst the most enthusiastic) have either to entrust them with the door-keys or sit up till all hours to let them in. There can be no doubt that a good many hard cases, who never could be seen entering a church, have joined the army, and go down on their knees in the mud and pray with the greatest apparent fervour; but whether these individuals will stay converted after the novelty of the thing wears off is for time to show. Drums and flutes and flutes and the waving of hands are regarded by persons unaccustomed to them as rather singular aids to religious enthusiasm, but the use of them is only an exaggeration of the tactics not entirely unknown before the Salvation Army was ever heard of, and they appear to be very attractive to a certain class of minds. We have a few religious—or, rather, irreligious—prejudices as anybody, and if a Howling Jewish should suddenly appear in our quiet village and commence public worship in his own fashion, we should strongly favour his being permitted to howl to his heart's content, provided he did so where he would not annoy anybody; and it is therefore not to be expected that we shall raise objections to any eccentricities of Christians. It is alleged, however, that the Salvationists do cause a great deal of annoyance to a great many of their fellow-subjects and frighten horses that didn't come from Arabia so badly that runaways are often the result; but of course nothing of that sort will be allowed in Fenelon Falls, where human beings and brute beasts are equally under the protection of the law. Fortunately there is plenty of vacant ground near the centre of the village where the army can manoeuvre in peace, if not in quietness, and as we could mention quite a number of individuals who, judging by their manners and conversation, badly need converting, it is to be hoped that the campaign about to open will not be barren of results. It has, at any rate, our wishes for its success; for if those who lead notoriously evil lives can be brought to see the errors of their ways, it matters but little whether the desirable end be attained through the instrumentality of one of the recognized churches or brought about by the eloquence of the leaders of the Salvation Army.

ried. Moved by Mr. Braden, seconded by Mr. Thurston, That Robert Wilkinson be paid \$8 for clearing up the road between 3rd and 4th cons. lot 2S.—Carried. Moved by Mr. Braden, seconded by Mr. Thurston, That D. J. Northey's claim for change of road be not entertained.—Carried. Moved by Mr. Thurston, seconded by Mr. Lithgow, That Wm. Britton be allowed \$1 for removing fallen timber off of road.—Carried. Moved by Mr. Braden, seconded by Mr. Thurston, That John Junkin Sr. be paid \$1 for removing fallen timber off of road.—Carried. Moved by Mr. Junkin, seconded by Mr. Lithgow, That the reeve be instructed to confer with the Boboyzeon Council in reference to arrears on Town Hall.—Carried. Moved by Mr. Lithgow, seconded by Mr. Braden, That the following accounts be paid and orders drawn on the Treasurer for the same.—John Kelly, work on roads, \$10; W. Henderson, do., \$10; Henry Dunn, do., \$5; Geo. Thurston, do., \$14; Jas. Patterson, do., \$10; Wm. Dobson, do., \$35; Sam. Keown, do., \$40; Chas. Austin, do., \$5; John Braden, to pay others on roads, \$25; Charles Fairbairn, money overpaid as County Commissioner work on roads, \$20 \$2; Robt. Wilkinson, clearing up road, \$5; Wm. Britton, removing timber off roads, \$1; John Junkin, do., \$1; Chas. Fairbairn, sessional allowance, \$15; do., inspecting, \$1 \$0; John Junkin, sessional allowance, \$15; Jas. Lithgow, do., \$15; do., commissioner, \$4 \$0; John Braden, sessional allowance, \$15 \$0; do., commissioner, \$2 \$0; Wm. Thurston, sessional allowance, \$15; do., commissioner and inspecting, \$7 \$0; do., delivering road lists, \$4 \$0; Robson & Allen, road scraper, \$6 \$2; J. A. Moore, repairing road scraper, \$2 \$0; John Wallace, do., \$1 \$5; The Clerk, quarter's salary, \$25 \$0; do., Parliamentary Voters' Lists, \$10; do., registration of births, marriages and deaths, \$8 \$0; do., measuring stone from quarry, \$8 \$0; The Postmaster, postage, \$7 \$0; J. H. Thompson, stationery and blanks, \$15 \$0; C. E. Stewart, printing and advertising, \$7 \$5; The Treasurer, salary, \$50; John Junkin, sr., work on roads, \$15 \$0.—Carried. On motion of Mr. Thurston, the council then adjourned.

Execution of O'Donnell. LONDON, Dec. 17th.—O'Donnell was notified at 7:30 a. m. to make ready. He was perfectly resigned, and expressed great sorrow for his outburst of temper in the dock at the conclusion of the trial. He said he had felt the greatest animosity for the witnesses who appeared against him, but that had now disappeared. After the communion had been administered to the condemned man, Binns, the hangman, entered the cells. O'Donnell submitted to the operation of phlebotomy with a smile and without a murmur. The procession then moved towards the scaffold. O'Donnell walked with great firmness without assistance of the warders, who stood close around him. He declined assistance in ascending the steps of the scaffold. Father Fleming, by his side, repeated the service of the church for the dying, and held the crucifix before O'Donnell's gaze. The prisoner then took his place by the drop under the rope, the slack of which was held up over his head by a piece of thread. He was perfectly calm and looked around unmoored. Binns was self-possessed, and fitted the noose exactly around the neck of the condemned man exactly as Marwood used to fix it. He pulled the lever as the neighbouring clocks were striking 8. O'Donnell fell eight feet. The rope hardly quivered. According to the surgeon, death was instantaneous, there being scarcely any muscular movement of the hanging force. The streets in the vicinity of Newgate were packed with people. The Irish element was not conspicuous.

Penianism in New York. NEW YORK, Dec. 17.—A largely attended meeting was held under the auspices of the Manhattan circle of the Fenian brotherhood this evening, to take action in regard to the execution of O'Donnell. After a number of inflammatory speeches, resolutions were adopted calling upon Irishmen all over the world to avenge the death of O'Donnell, and pledging the members of the brotherhood renewed energy in striking down "England, the enemy of Ireland, who sets at naught the laws of humanity and civilization." O'Donovan Rossa and Prof. Mezzeroff were among the speakers.

Toronto Fat Cattle Show. Mr. George Frankland writes to the Globe as follows:—Notwithstanding the great demands made upon the columns of the Globe, I was gratified to find that two whole columns were devoted to a spirited description of the first fat cattle show held in Toronto, and such publicity will lead to great results. For the practical experience of the last ten years demonstrates beyond a doubt that our farmers are alive not only to pure breeds in cattle, but also to horses, sheep and pigs, and when we remember what these industries have done for America it argues a great future for Canada. But, sir, will you allow me to call special attention to the pure Shorthorn Duke model from the feeding stables of the Model Farm near Guelph. This grand animal weighs 2,110 pounds here in Toronto, after many days of hardship, and its age 947 days, and this astounding truth has been learned by Fat Cattle Shows, a reality farmers are slow in believing. Professor Brown, of the Model Farm, has spoken eloquently more than once on early maturity, and he has abundantly proved that millions of money can be saved to Canada by judicious feeding and producing at half the cost, younger, tenderer and juicier meats, by the study of all appliances to make early maturity a success. Cattle Shows are for the purpose of making cattle breeding and agriculture a labour of love, to teach young men that a farmer's life is, above all others, the one to be desired, especially in Canada.

Use Lardine Machine Oil for your machinery. Are you troubled with Salt Rheum, Rough Skin, Pimples or Canker Sores? If so go to W. E. Ellis's drug store and get a package of McCreag & Park's Carbolic Germicide. It was never known to fail.

Salt Rheum Cured. A DEARLY ENCOUNTER.—A few minutes after Mr. John Braden entered his store last Thursday morning he heard a loud speaking in the cellar; and, quietly raising the trap-door and

creeping down stairs, he beheld a weasel and a very large rat fighting with the utmost fury. He stood watching them for nearly five minutes, and at last the rat was seized by the throat and strangled by its smaller but more courageous and active opponent. Mr. Braden says he wouldn't have the weasel killed for five dollars, as it will probably destroy or drive away every rat on the premises.

ENTERTAINMENT.—An amateur dramatic entertainment will be given in Ingram's hall on the evening of the 4th of January, 1884. The pieces to be represented are "Cinderella, or the Little Glass Slipper," "Matrimony," and "Boots at the Swan." Tabernus, "The Sleeping Beauty," and "No Rose without a Thorn." Music will be supplied by members of the Band. Doors open at 7 o'clock; entertainment to begin at 8 o'clock. Admittance 25 cents. Children under 10 years old, 15 cents. The proceeds to be given for the purchase of chandeliers for St. James's Church.

ACCIDENT.—On Tuesday, the 11th inst., Mr. Robert Webster, of Fenelon, met with an accident which we did not hear of until last week's Gazette had been for some time on the press. Preparations were being made in the barn to slaughter a beast, and while Mr. Webster was near the top of a ladder, which had been placed in too upright a position, it either slipped sideways or fell outwards and he came to the ground, falling first upon his feet and then falling on his right arm, which was broken above the elbow, exactly where it was broken forty years ago. Dr. Lowe, who attended him, tells us that his patient is doing well, but that the bone will probably not knit quite as quickly as it would have done had the break been in a fresh place.

School Board. Fenelon Falls, Dec. 19th, 1883. School Board met. Members present, Messrs. Nie, Ellis, Moffat and Cunningham.

Moved by Mr. Cunningham, seconded by Mr. Ellis, That the following accounts be paid and the chairmen give his orders for the payment of the same: J. W. Graham, balance of year's salary, \$43; Miss McArthur, quarter's salary, \$80; Miss Thompson, do., \$62 \$0; Miss Williams, do., \$55; Miss Twomey, do., \$43 \$5; John McGee, do., \$23 \$5; John McGee, cleaning water closets and cutting wood, two lights glass, \$3 \$0.—Carried.

Moved by Mr. Moffat, seconded by Mr. Nie, That Mr. McGee be re-engaged as caretaker for the year 1884 duties to commence 1st day of Jan'y, at a salary of \$100 per annum. He further agrees to keep in repair all fences, gates and windows, to furnish nails and to keep the water closets clean and in good order.—Carried.

Moved by Mr. Cunningham, seconded by Mr. Ellis, That Mrs. Naylor be authorized to have the wood house repaired and cleaned.—Carried.

Moved by Mr. Ellis, seconded by Mr. Moffat, That the time for adopting the new series of school readers be extended for six months.—Carried.

Presentation. On the evening of Friday, the 14th inst., about thirty ladies and a few gentlemen, members of the Presbyterian congregation of this village, met at the church and afterwards proceeded in a body to the manse, where they presented Mrs. Lochead, the wife of their deceased popular pastor, with a large Sultan coal stove, a ton of coal, a dozen silver-plated knives, a silver-plated pickle cruet, and the following address:

DEAR MRS. LOCHEAD, The surprise given you this evening will we trust prove agreeable, and we feel satisfied that we shall be received in the same kind spirit which prompted our gathering. Your modest and reserved demeanor, during the many years you have spent in our midst, only tends to increase the endearing relation in which you are held by us. The noble example you set us has always been worthy of our closest attention. Your calls and visits have been not only pleasant but profitable, your conversation taking an instructive course. And now as the season of the year is here when fuel is required to make our homes comfortable, we beg you to accept this coal stove, coal &c., with our best wishes for the season's equipments, and that you and your beloved partner may long be spared to go in and out amongst us.

Signed on behalf of the ladies of the Presbyterian congregation in Fenelon Falls, Mrs. JOS. MCARTHUR, Miss LOCKHART, Miss THOMPSON.

The Rev. Mr. Lochead replied to the address in his usual lapy and genial manner, after which two or three hours were pleasantly spent by all present, an excellent tea being partaken of during the course of the evening.

CHRISTMAS.—Next Tuesday will be Christmas Day, and we hope all our readers will spend it right merrily, notwithstanding the undoubted hardness of the times. Almost contrary to expectation, we have succeeded in obtaining the raw material for our twenty-fifth Christmas pudding, which is now in course of preparation; and, our credit is still being good for a dollar or two, we have strong hopes of being able to procure a turkey. May none of our readers sit down to worse fare.

A DEARLY ENCOUNTER.—A few minutes after Mr. John Braden entered his store last Thursday morning he heard a loud speaking in the cellar; and, quietly raising the trap-door and

creeping down stairs, he beheld a weasel and a very large rat fighting with the utmost fury. He stood watching them for nearly five minutes, and at last the rat was seized by the throat and strangled by its smaller but more courageous and active opponent. Mr. Braden says he wouldn't have the weasel killed for five dollars, as it will probably destroy or drive away every rat on the premises.

The procession then moved towards the scaffold. O'Donnell walked with great firmness without assistance of the warders, who stood close around him. He declined assistance in ascending the steps of the scaffold. Father Fleming, by his side, repeated the service of the church for the dying, and held the crucifix before O'Donnell's gaze. The prisoner then took his place by the drop under the rope, the slack of which was held up over his head by a piece of thread. He was perfectly calm and looked around unmoored. Binns was self-possessed, and fitted the noose exactly around the neck of the condemned man exactly as Marwood used to fix it. He pulled the lever as the neighbouring clocks were striking 8. O'Donnell fell eight feet. The rope hardly quivered. According to the surgeon, death was instantaneous, there being scarcely any muscular movement of the hanging force. The streets in the vicinity of Newgate were packed with people. The Irish element was not conspicuous.

Penianism in New York. NEW YORK, Dec. 17.—A largely attended meeting was held under the auspices of the Manhattan circle of the Fenian brotherhood this evening, to take action in regard to the execution of O'Donnell. After a number of inflammatory speeches, resolutions were adopted calling upon Irishmen all over the world to avenge the death of O'Donnell, and pledging the members of the brotherhood renewed energy in striking down "England, the enemy of Ireland, who sets at naught the laws of humanity and civilization." O'Donovan Rossa and Prof. Mezzeroff were among the speakers.

Toronto Fat Cattle Show. Mr. George Frankland writes to the Globe as follows:—Notwithstanding the great demands made upon the columns of the Globe, I was gratified to find that two whole columns were devoted to a spirited description of the first fat cattle show held in Toronto, and such publicity will lead to great results. For the practical experience of the last ten years demonstrates beyond a doubt that our farmers are alive not only to pure breeds in cattle, but also to horses, sheep and pigs, and when we remember what these industries have done for America it argues a great future for Canada. But, sir, will you allow me to call special attention to the pure Shorthorn Duke model from the feeding stables of the Model Farm near Guelph. This grand animal weighs 2,110 pounds here in Toronto, after many days of hardship, and its age 947 days, and this astounding truth has been learned by Fat Cattle Shows, a reality farmers are slow in believing. Professor Brown, of the Model Farm, has spoken eloquently more than once on early maturity, and he has abundantly proved that millions of money can be saved to Canada by judicious feeding and producing at half the cost, younger, tenderer and juicier meats, by the study of all appliances to make early maturity a success. Cattle Shows are for the purpose of making cattle breeding and agriculture a labour of love, to teach young men that a farmer's life is, above all others, the one to be desired, especially in Canada.

Use Lardine Machine Oil for your machinery. Are you troubled with Salt Rheum, Rough Skin, Pimples or Canker Sores? If so go to W. E. Ellis's drug store and get a package of McCreag & Park's Carbolic Germicide. It was never known to fail.

Salt Rheum Cured. A DEARLY ENCOUNTER.—A few minutes after Mr. John Braden entered his store last Thursday morning he heard a loud speaking in the cellar; and, quietly raising the trap-door and

creeping down stairs, he beheld a weasel and a very large rat fighting with the utmost fury. He stood watching them for nearly five minutes, and at last the rat was seized by the throat and strangled by its smaller but more courageous and active opponent. Mr. Braden says he wouldn't have the weasel killed for five dollars, as it will probably destroy or drive away every rat on the premises.

ENTERTAINMENT.—An amateur dramatic entertainment will be given in Ingram's hall on the evening of the 4th of January, 1884. The pieces to be represented are "Cinderella, or the Little Glass Slipper," "Matrimony," and "Boots at the Swan." Tabernus, "The Sleeping Beauty," and "No Rose without a Thorn." Music will be supplied by members of the Band. Doors open at 7 o'clock; entertainment to begin at 8 o'clock. Admittance 25 cents. Children under 10 years old, 15 cents. The proceeds to be given for the purchase of chandeliers for St. James's Church.

ACCIDENT.—On Tuesday, the 11th inst., Mr. Robert Webster, of Fenelon, met with an accident which we did not hear of until last week's Gazette had been for some time on the press. Preparations were being made in the barn to slaughter a beast, and while Mr. Webster was near the top of a ladder, which had been placed in too upright a position, it either slipped sideways or fell outwards and he came to the ground, falling first upon his feet and then falling on his right arm, which was broken above the elbow, exactly where it was broken forty years ago. Dr. Lowe, who attended him, tells us that his patient is doing well, but that the bone will probably not knit quite as quickly as it would have done had the break been in a fresh place.

Execution of O'Donnell. LONDON, Dec. 17th.—O'Donnell was notified at 7:30 a. m. to make ready. He was perfectly resigned, and expressed great sorrow for his outburst of temper in the dock at
