A Strange Argument for Hanging. A somewhat strange argument in favor of hanging comes to us from a correspondent. The gentleman in question has been seeking to discover what mode of violent death is most popular with the British the painful symptoms of that dreadful dispublic, and with that object has adopted order. He spent 17 weeks in the Royal the very reasonable means of examining Infirmary, of Elinburgh, under the skill of the methods chiefly in favor with persons | the best physicians who, having exhausted committing suicide. The result is ap- all agencies at their command, discharged parently very favorable to hanging, as in him "as incurable." He says: "I passed committed suicide, no fewer than 511, or great pain while doing so. It was nearly upward of one-third, hanged or strangled white as milk, with albumen, and when it themselves, as against 279 who cut their stood for an hour, the deposit was a quarter threat, and 271 who drowned themselves. When in this de-perate condition, he began The statistics are interesting, but they to use Warner's Safe Cure—the only known hardly amount to a genuine and unbiased specific for Bright's disease of the kidneysplebiscite in favor of hanging. In the "I have used twelve bottles," he says, and many people, no doubt, hang themselves, bless the day when I read that Bright's not because they impartially, and with disease was curable and for so little cost " full knowledge and on reasonable grounds prefer that to other methods of extinc- don and other parts of England, are a few tion, but because in England it is, however barbarous and clumsy, the method mended Warner's Safe Cure, the great speciwhich, that to our mode of execution, most readily occurs to the vulgar mind. And then hanging is a method which it is within evoryone's power to adopt. stout rope can be improvised out of heaps of things, even if the proper hempen suspender be wanting. Not so with L'verpool. other implements of death. Poison is not always easily procurable. The class Manchester. of persons from whom the greatest number of suicides come are not familiar with the use of fire-arms. The guillotine is not a common article of domestic furniture. To cut one's throat require remarkable determination and a firm hand. The is the greatest of all modern medicines for only form of death which it is surprising to find less common than hanging is What it has done it will unq e tionably do drowning. And this actually is adopted for others, and as such it commends itself by the majority of female suicides, who most warmly to public confidence. certainly seem to have better taste, if not greater inventiveness, than their

TRUSTWORTHY TESTIMONY.

Prominent English Opinions Upon an Important subject of Great Value to Every Reader.

In September last, one of the English forresters of India returned to London, Eug., utterly broken down and debarred from further service by reason of what the ex amining physicians pronounced incurable kidney disoders and dropsy. He was comparatively a young man, and felt depressed over the situation. Incidentally learning, however, of the power of Warner's Safe Cure, which has attracted so much attention of late, he began its use. Within three months he was thoroughly restored to sound man and is to day discharging his duties as well as ever in the trying climate

FOR THE Kidneys, Liver, and Urinary Organs.

THE BEST BLOOD PURIFIER. There is only one way by which any disease can be cured, and that is by removing the cause—wherever it may be. The great medical authorities of the day declare that nearly every disease is caused by deranged kidneys or liver.
To restore these, therefore, is the only way by
which health can be secured. Here is where
WARNER'S SAFE CURE has achieved its
great reputation. It acts directly upon the kidneys and liver, and by placing them in a healthy condition drives disease and pain from the system. For all Kidney, Liver, and Urin-ary troubles; for the distressing disorders of women; for Malaria, and physical troubles said to be just as good.
For Disbetes ask for WARNER'S SAFE
