McDUGALL & BRANDON BROS. Fenelon Falls, Feb'y 7th, 1884. 3w.

The Fenelon Falls Gazette

Saturday, Feb'y 16th, 1884.

A Sensible Bishop.

The Bishop of Niagara is a sensible man, and therefore inevitably holds the same view as the Gazette on any given subject. In our issue of the 2nd inst. we drew attention to and approved of the remarks of the North American Review and the Toronto Globe on the present educational system; and in the Globe of the 7th, the bishop has a long letter in the very same vein, heartily endorsing the utterances of both the publications mentioned. He was, he says, a superintendent of common schools for the township of Thorne more than thirty years ago, and can testify that "the pupils in the common schools of those days could spell, read, write, cipher and understand geography better than they do now."

We have the least doubt that the bishop is right, and as spelling, reading, writing and ciphering are the most useful accomplishments the average boy can learn. It is a grave mistake to force him to spend the time that ought to be devoted to them in studies that will never be of the least advantage to him—to say nothing of wasting public money on profitless pursuits. We have always maintained that the effect of the present pernicious system is to make the rising generation "too 'stun' k-up" to pursue any useful occupation that is not what they consider genteel, and that this is true, at least in the United States, is proved by an article quoted by the bi-hop from a Massachusetts monthly entitled Good Cheer, which says:

"The head of a great manufacturing house in New York has just given expression to his views of the common school system as at present administered in this country. Our employees as you know are trained from boyhood, in order to become expert in our business. But if the sons of our old men, from whom we expect constantly to recruit our ranks, attend the Public Schools, they get an idea that manual labour of all kinds is degrading; that they must either aim at the Presidency, or, at least, a Congressional position in order to retain social respectability. So utterly opposed to following a good trade did such of our boys become as went to the Public Schools, that we decided in their self-protection to open a school in connection with our own establishments, where the sons of our workmen might acquire a fair education, yet escape the pernicious influences which rule the Public Schools in regard to the status of labouring men."

After remarking that all the professions are overstocked, and calling attention to the astounding yet incontrovertible fact, proved by the statistics of merchandise in this country, that of every one hundred merchants ninety-five fall before they retire on fortunes or die, the bishop says:

"I would, then, foster a system at an enormous expense to the country, which not only does not impart the education which the country wants, but actually inflicts the sons of the artisans of our towns and cities, and the sons of the farmers, too, as I hope to show in another letter, for walking in their father's honorable steps, but fills them with the idea of living easy lives by becoming professional men, or, if they cannot become such, by becoming merchants, with the pretty certain prospect of following the 95 out of every 100 of their predecessors by going into bankruptcy, and pulling their parents down into want and misery too? I have materials, consisting of public documents, articles from the ablest authorities in the United States, showing what have been the fruits of the system in that country, and shall be glad to follow up this letter with one or more on the same subject."

The Tea &c. at Lambs'.

The residents, and particularly the juvenile residents, of South Verulam, will not soon forget the tea and entertainment in Lamb's school house last Tuesday evening. Even a tea meeting alone, being almost the only treat practicable in rural sections, is long looked forward to and thoroughly enjoyed; but in this instance there was added a dramatic entertainment that the spectators one and all admitted far exceeded their most sanguine expectations. The plays performed were "Cinderella" and "Matrimony," and as the parts had all been thoroughly learned and the costumes were as gorgeous as it was possible to make them out of inexpensive materials, the performance was in the highest degree satisfactory. The Fenelon Falls Dramatic Co. is of very recent formation, and has only made three appearances in public, but many impartial critics (which we cannot pretend to be) declare that their acting would be no discredit to professionals. The residents of the neighborhood deserve great credit for the pains taken to make the affair a success. The members of the Dramatic Co. and of the brass band, as well as many other villagers, were driven out and home again, and any quantity of tea and choice eatables were provided. Notwithstanding the weather, which was simply execrable, the school house was so crowded that even the passages between the seats were filled, and many had to remain upon their feet nearly all the evening. Quite a number of young children were present, but showed no signs of sleepiness or peevishness, for the wondrous of the stage and the music of the band, which played several choice selections, kept all their faculties on the alert. During the intermission between the two plays an election cake was put up, the candidates being Miss Jane Ellen Lamb and Miss Elizabeth Dobson. The vot-

North Verulam.

BAD ROADS.—Owing to the recent thaw the roads are in bad condition for those who have wood to deliver. CATTLE.—Several farmers of the townships of Cavan and Manvers are scouring the country in this vicinity for working-cattle. Some fat cattle are also desired by the same buyers. WORTH KEEPING.—Having been asked several times of late by farmers for a rule to find the weight of fat cattle by measurement, I now give it, and trust they will take advantage of it by cutting out the following and retaining the same. It may save themselves some loss and the sender of it some trouble. The rule is this: Multiply the girth in feet by the distance from the bone of the tail immediately over the hinder buttock, to the fore part of the shoulder blade, and this product by 31 when the animal measures more than 7 and less than 9 feet in girth; by 23 when less than 7 and more than 5 feet; by 16, when less than 5 and more than 3; and by 11 when less than 3 feet. This rule will hold true in thoroughly fat cattle, or other animals; but should they not be thoroughly fat, or, in case of a cow that has had calves, then a deduction of 1 pound in every 20 must be made. One point must be borne in mind, as weight-scales very often differ, so also this may differ, and at best it must be relied upon as an approximate of weight only.

DENTAL.—Persons wishing to see Mr. Ne-lanis, dentist, of Lindsay, will please call at the McArthur House on Monday or Tuesday next, the 17th and 18th inst.

THANKS.—The authorities of St. Peter's Church, Verulam, desire to convey their thanks to the Amateur Dramatic Club and the Band for their very successful services on the evening of the 12th inst.

BAND CONCERT.—A concert in aid of the Fenelon Falls brass band will be given in Ingram's hall on Monday, the 25th inst., and the Dramatic Co. will perform the amusing farce entitled "Boots at the Swan." Programmes will be issued in due course.

THE JUBILEE SINGERS.—The concert by the original Canadian Jubilee Singers, under the auspices of the Fenelon Falls Mechanic's Institute, was given in Ingram's hall last Friday evening, according to announcement, and was fairly attended, the proceeds amounting to \$16 55.

A NOVEL SALE.—Some days ago Mr. Henry Stewart, of Verulam, was offered \$70 for a young mare by a man from Toronto. The bid was refused, and after some talk, the stranger asked what he would take for her per pound, and Mr. Stewart said, "Eight cents." This being agreed to the animal was placed on the scale and found to weigh a little under 900 pounds, and the price paid was \$71 25. We never before knew a horse to be sold by weight.

\$300 WORTH.—The Directors of the Fenelon Falls Mechanic's Institute have been busy several evenings this week making selections of new books and periodicals from catalogues obtained from different publishers. The amount to be expended is \$300, which will make a very material addition to the already large library of the Institute. Those who are not already members should join at once; for in no other way can a choice and varied assortment of interesting and instructive reading be obtained for so little money.

N. V. REFORM ASSOCIATION.—The annual meeting of the Reform Association for the North Riding of the County of Victoria is to be held in Ingram's hall, Fenelon Falls, at noon on Friday, the 22nd inst., and circulars to that effect have been issued, requesting the recipients to inform all friends of the cause, in order that the meeting may be well attended and a proper organization maintained. Preparations for war ought always to be made in time of peace, for it is rather late to do so when the enemy is at our gates; and the same rule should be observed in politics, of which the wide-awake president of our association is well aware and "governs himself accordingly."

THE WEATHER.—During the past few days the weather has been rather variable, and so mild at times that a general thaw was expected. Sunday evening was one of the loveliest we have ever seen; but a great ring around the moon presaged a storm, which commenced on Tuesday afternoon and became very violent before 10 o'clock. Still, the cold was not severe, but the high wind and the driving rain and sleet made the night an exceedingly unpleasant one to those who had to be on the roads. Wednesday was mild, but today (Thursday) is colder, and snow is falling heavily. As the winter has been so steady and unbroken, no one will be surprised should it break up earlier than usual, and wild ducks, robins and chipmunks have already been seen.

WHO'LL TAKE IT.—We have received a letter and circular from an old friend whom we have not seen for years, and who is now connected with the Ontario Milk Bucket Manufacturing Co. of Toronto. Last year a patent was obtained for an ingenious combined milk bucket and stool; and the company lately formed to manufacture it want a good general agent in this locality, who will appoint sub-agents and push the sale of the article amongst the farmers, for whose benefit the invention is chiefly intended. Who'll take the agency here? There ought to be no objection in it, as the combined bucket and

Trent Valley Canal Deputation.

From the Ottawa Free Press, Feb. 6th. At eleven o'clock to-day the deputation which is in the city to interview the government in regard to the Trent Valley Canal, waited upon Sir Charles Tupper in the railway committee room of the House of Commons. The following are those who comprised the deputation:—

John Lang, warden; M. Sanderson, reeve, township of Smith; John Maloney, reeve, township of Douro; R. C. Strickland, reeve, Lakeland; Frank Kimhurst, reeve, Burleigh; deputy-reeves, Geo. Stewart, Ottonabee; Henry Collins, Monaghan; Jno. Brown, Belmont; John Frazer, Norwood; George Oliver, Harvey; A. R. Kidd, Dummer; Mansfield, Galway; Stevenson, A-pho-del; John Becher, county engineer; Patrick Clough, reeve, Eganmore—County of Peterborough.

Dr. Willoughby, warden; Mr. Brewer; Mr. Wa-sells, reeve, township Munar; Mr. Crews, deputy reeve, township Munar; Mr. Fowells, Ed. C. Cramer, M. P., Gillet, M. P.—County Northumberland and Durham.

Messrs. John Fell, M. P. P., John Daniel, C. Fairbairn, John Bailey, W. Cameron, E. Hopkins, J. L. Reed, Joseph McArthur—County of Victoria.

David Dunn, warden; Reeves—J. Fraser, Tay; John Howell, Midland; Arch. Thompson, Orillia and Matchedash; Mr. Wincko, Morrison—County of Simcoe.

John White, M. P., Alex. Robertson, M. P., D. J. Willmott, H. G. Backer, M. Bird, Clement Armstrong, Wm. Finley, Ruff Glass, Sidney—County of Hastings.

Jos. F. Way, Fowell, A. McRae—of Belleville.

James Richardson, mayor; councillors P. J. Burke, James A. Orr, O. H. Barber, Charles Flindall, G. W. Oaten, D. R. Murphy, T. McCabe, F. Connors, W. T. Baker, W. H. Austin, Wellington Miller, H. G. Cunningham, Geo. Graham, editor Courier—Trenton.

Gen. A. Cox, mayor; councillors A. Rutherford, J. J. Hatley, John Douzlass, R. S. Davidson, Thomas Cahill, Thos. Kelly, Jas. Stevenson, R. A. Mason, J. La Plante, J. M. Garvey, F. Phelan, Wm. Hamilton—Peterborough.

J. W. Wallace, mayor; Col. Deacon, T. Fee, G. Candell—Lindsay. John Dickinson, John Orr, James L. Burton—Barrick.

G. J. Booth, mayor; James Quinn, reeve; J. B. Thompson, councillor—Orillia.

J. L. Reid, reeve; Hirkimer, councillor; John McDonald, (member of the M. Board & Co.) Jasper Bolton, Harvey, Oliver—B. Beaveron.

W. G. Sanders, Joan McWilliams—Lakeland.

Rev. Wm. Logan, Geo. Cunningham, John Thompson and William Jordan—Fenelon Falls.

In addition to the above there were also present several members of parliament, more particularly those representing the constituencies through which the proposed highway is contemplated, and who also spoke as to the feasibility and desirability of constructing the work.

The following gentlemen addressed the Minister of Railways in the order given:—Messrs. D. R. Murphy, chairman of the committee which was appointed to frame the petition for presentation to Sir Charles Tupper, Dr. Willoughby, Dunn, Ge. A. Cox, G. W. Oaten, Rev. Mr. Logan, Cook, M. P., Hilliard, M. P., Cameron, M. P. (Victoria), White, M. P. (Cardwell), Conzidine, Barnham, White, M. P. (East Hastings), Robertson (Middlesex) and Armstrong.

Quite a number of the deputation were pointed out to Sir Charles that as this public work was made to do service by them in political elections it was necessary for him to give an appropriation, or the people would tell them when they returned home that the whole thing was a political dodge. Rev. Mr. Logan put this matter in a particularly happy way to Sir Charles. The tenor of all the speeches was to the effect that it was extremely desirable to proceed at once with the construction of the work, not merely in the light that it was a local work but a national highway, in so far as it shortened the distance of conveying the North-West wheat to the seaboard by about 500 miles. A goodly sum has already been expended, and when it was taken into consideration that only about 60 miles out of 200 were necessary to be built, the import-ance of the work could not well be over-estimated.

The following petition was then read and handed to Sir Charles Tupper:—We, the undersigned petitioners, representing twelve counties along the line of the Trent-Huron Navigation, beg most respectfully to represent that the policy of the present Government in opening up the great Trent Valley Water Route from Georgian Bay to Trenton has our fullest endorsement and approval, and by our presence in person here to-day, wish to impress upon you the great importance which we attach to this canal route as a national highway and local outlet, and we urgently beg that you will place such sum in the estimates at this session as will assure the deputation and country of the early completion of this national work, and as in duty bound will ever pray.

(Signed) D. B. Murphy, chairman of Trent Valley Canal Committee, solicitor, Trenton, and all the members of the deputation. Ottawa, Feb'y 6th, 1884.

Sir Charles Tupper, in accepting the petition, said that he had already appointed an engineer, Mr. Rubright, to examine into the survey and other matters, and report to him at an early day. This report was not yet ready, but when it was he would lay the whole matter in a favourable light before his colleagues. In the meantime he had arranged for doing what work the engi-

Wholesale Poisoning.

A WIDOW MURDERS HER EIGHT CHILDREN TO SECURE THEIR PROPERTY. BERLIN, Feb. 9th.—A murder trial which has aroused much interest in East Prussia has just ended at Insterburg in the conviction and sentence to death of the widow Eske for murdering nine persons of her family. The crime as shown by the evidence was a most atrocious one. Thinking to obtain the legacies left by her husband's will to eight children, amounting to 4800 marks, she administered poison to their food, causing the death of all, as well as of a young man who was betrothed to one of the daughters and who lived with the family.

An Arkansas Butchery.

TWO MEN KILLED AND THREE FATALLY INJURED. HOT SPRINGS, Ark., Feb. 9.—While three brothers, Frank, Jack and Wm. Flinn, were proceeding home in a back this morning seven men, armed with double-barrel shotguns and Winchester, stepped out of a saloon and opened fire. The Flinns were armed, but the attack was unexpected. Jack Flinn was shot through the forehead and died in a few minutes. Wm. Flinn was shot through the breast, probably fatally. Frank Flinn was shot through the hand. Frank Hall, driver of the hack, was shot through the neck and died. Robert Hargrave, a bystander, was shot through the breast and will probably die. J. H. Craig, a prominent lumberman, received a charge of buckshot through the back and his condition is precarious. The difficulty originated in an attempt of Frank Flinn to prevent Doran from opening a gambling house. At the time Doran tried to assassinate Flinn and fled the city. He returned a few nights ago, but Flinn was unaware of his presence until the volley was fired.

More Useless Immigrants.

About thirty immigrants, mainly miners, clerks, traders and labourers, from the steanship Caspian, arrived in this city on Saturday afternoon. All had been advised by different agents in the Old Country that there was a great demand for such classes here, and that they could not arrive at a better time for getting employment. It would be interesting to learn who is responsible to the country for advising these people to come out, especially at this season of the year. Already some 150 or 160 families of immigrants who have arrived here during the past summer are being kept at the expense of the various charities in this city because they can get no work to do. The immigrants who arrived on Saturday, like the Cornish miners who came out three weeks ago, are all brought out on assisted passages, so that the Government evidently makes no objection to their coming during the winter.—Toronto News.

Montreal Carnival.

MONTREAL, Feb. 8th.—The winter carnival practically ended with the grand ball in the Windsor this evening. Everything has been carried out according to the letter of the programme, and nothing left wanting to satisfy those who came on the strength of the promises held out. To-day the weather was not all that could be desired for outdoor sports, as a continuous fall of snow prevailed; still, it did not deter people from sleigh driving and taking in the sports, like the curling, which were under cover. The Governor-General visited the High School under the Protestant Board of High Commissioners. After hearing a description of the system of instruction adopted from the speech of Rev. Canon Norman, the chairman of the Commissioners, his Excellency paid a high compliment to public education in Canada by saying it was superior to that in England.

Going at Last.

Major-General R. G. A. Luard, commanding the militia of the Dominion of Canada, is to be permitted to leave the country with his seal on. The General is a good sample of the old school of arrogant, overbearing and insolent humbugs who are pichforked into colonial positions, where they imagine they can swagger and swear to their hearts' content. But the day for that sort of thing has gone by, and this man who has openly insulted our volunteers upon more than one occasion will be sent home, where he can engage with other cranks in cursing a country which would have none of his ridicul behaviour. Minister Caron has had him removed, for which Minister Caron merits the thanks of every "d colonial" in Canada.—Toronto News.

Resignation of Father Lynch.

The Lindsay Post says that after mass on Sunday, Feb 3rd the Rev. Father Lynch announced to the congregation of St. Mary's that he had placed in Bishop James' hands his resignation of the charge of the parish. Father Lynch is well advanced in years and has found the care of so large and populous a parish more than he could safely undertake. He will, it is understood, seek rest and recreation for some time. While Father Lynch has had charge of the parish hardly a year he has been very highly respected, and the announcement will occasion much regret.

The Oldest Woman Dead.

On Sunday morning, Feb. 3rd, the oldest woman in Cavan, and for aught we know, in the Province, peacefully passed away, at the residence of her son, Mr. James Gibson, of the 2nd concession of Cavan. Mrs. Agnes Gibbons came to Canada in 1812; born in Bally-James-Duff, county Caron, Ireland, in 1778; she with her children settled in Cavan, where she has resided ever since. On Sunday morning last, at 4 o'clock with little warning, she quietly passed into eternity.—Millbrook Messenger.

Placards have been posted throughout Paris inciting the starving workmen to arms.

Three appraisers have been appointed to secure lands for the proposed International Park at Niagara Falls. Ellis says that within four years electricity will have entirely displaced gas and even kerosene as illuminants.

New Advertisements.

INTERESTING TO ALL. The undersigned has just received a good assortment of PICTURES, PICTURE FRAMES And Mouldings, which are well worthy of inspection and will be sold cheap.

FRAMES MADE TO ORDER in any style at the shortest possible notice. Painting, Kalsomining and Paper Hanging done as usual. A good stock of PAINTS, OILS, GLASS AND PUTTY kept constantly on hand.

NEW LIVERY STABLE.

The undersigned begs to inform the residents of this village and its vicinity that he has just commenced the livery business on Francis St. East, with sound fast horses and stylish new rigs and respectfully solicits a share of public patronage. Charges Very Reasonable.

Commercial Travellers will find it decidedly to their advantage to give him a call, as they will be liberally dealt with. JOSEPH WELCH, Fenelon Falls, Feb'y 6th, 1884. 30-t.f.

Apprentice Wanted.

Wanted immediately, a smart steady boy as an apprentice to the carriage making business. F. SANDFORD, Fenelon Falls, Jan'y 16th, 1884. 47.
