#### A TALK WITH JOHN OF ABYSSINIA. The African King Extorts a Thousand

Dollars from an Austrian Merchant. An Austrian merchant, who has hitherto been living at Kassala, in the Soudan, and carrying on an extensive trade there his relations in Vienna. In a recent tian troops in the town, but that the place has been besieged for the last three escape an uncertain fate he determined, upon the advice of one of his black servants, to go to Makaki, the headquarters of the King of Abyssinia, and to purchase of the latter a protective escort for himself and his caravan.

About the audience he had of King John he writes as follows:

The King inquired of me in Turkish if I was perfectly familiar with that lan- all intents and purposes he is a business guage. I answered in the affirmative. If man. not (added the King in English) he would dialogue ensued :

King-Thou art a subject of the most mighty Emperor of Austria, and dwellest at Kassala

Myself-Yes, for many years past. King-Thou hast now left Kassala and intendest to return to thy native country? Myself-Such is my ardent desire. King-Kassala will no doubt soon be in

the power of Mohammed Achmed ? Myself-Unless a miracle happens, be able to resist the superior forces of the Mahdi.

is no relying upon assistance from Egypt, will be too late. Dost thou know Mohammed Achmed by sight? Myself-I know him and dealt with

him when he dwelt quietly and peaceably King-Thou liest! Mohammed Achmed

a trader in wild beasts! Myself-What I say is the truth. His name appears in my books, along with the prices I paid him for the animals he furnished me with.

King-And do his people know of Myself-No. Few know it, and they

understand how to be silent. King-As thou art acquainted with Mohammed Achmed, why didst thou not solicit of him a safe escort to Soua-

as he is hostile to me and hates me.

King-If England and Egypt fulfill my various diseases and vermin. demands, I shall accord to the troops from Kassala and other endangered places in the Soudan free passage through foot long and two or three inches wide. my territory. Also to thee and all of Scatter sulphar on one end of this, light metropolis. The question is really a seri-

been stipulated, and that his Majesty in to guard from fire, if litter is in the stable, the exercise of his sovereign power, had it should be removed previous to lighting quadrupled the price. No notice was the sulphured paper. A safer way, how- five thousand chimneys per annum. Thus taken of this remark either by the King ever, would be to put some paper in a year by year the dark cloud that hangs he returned home the bird would fly to a or any of his suit. To my great surprise hollow dish or pan with a handle to it to the King new asked me: "Is it true that take hold of and move about .- T. B., in our faces, our clothing, our curtains, and your Crown Prince Rudolf, your future N. Y. Tribune. monarch, is so learned a man as even to write books?" I replied in the affirmative, adding that the Crown Prince Rudolf was not only learned, but well accomplished in all chivalrous arts. The audience now ended

On my way to the treasurer, to whom I had to disburse the £200, I made the unpleasant discovery that my watch, garments-had been stolen by the Abyssinians. And they are to save the Soudan! I fear King John and his subjects will save that fine country for themselves.

At El Obeid a German officer named Von Seckendorff is languishing in the greatest misery. He was at one time a Major under Hicks Pasha, and is said to have been long a prisoner of the Mahdi. By his friends he has no doubt long since wealthy relations, who are said to live at Berlin and Brandenburg, will be able to undertake something toward his deliverance. This is not so difficult as people in accomplished here with gold.

The Queer Life of a Spanish Hermit. drid correspondent writes) a curious being near Lorca. parasites on their roosts or otherwise. of its future progress will prove correct, out and the fly disappeared. too often, is healthful, and a guard against the chimneys of private houses being made to consume their own smoke, yet who calls at the railroad station for them. there is some satisfaction in feeling that The train hands sometimes puts his even a faint attempt is being made to purify the atmosphere of this dirt-grimed the station, but the dog invariably throws and houses are added to London every year, which means an addition of seventyover us becomes more dense; our hands, more numerous and severe, and our situation in all respects more pitiable. If Lord Stratheden and Campbell ultimately succeeds in finding a remedy for the evil, he dead.

### New Peril at Sea.

Mr. H. C. Rothery, the wreck commissioner, with assessors, held inquiry into the foundering of the "Hornet," resulting in the loss of seventeen lives. The "Hornet" was an iron steamer of 349 tons. She left Newport on the 24th of January, with a crew of eighteen hands all told, for Marseilles, laiden with coal, According to the statement of Joseph Ellery, the only survivor of the crew, she reached Lundy Island at 2 a.m. on the 25th, and later in the day a gale sprang up. At 5 a.m. the ship was five miles south of Scilly, when a fireman went to the master in the chart-room and asked him to put back and send the second engineer verish condition of the system is produc-ed, resulting in more or less constipation. Shortly afterward all the master consented to go back their food has had time to digest, a fe- ashore, as he did not know his duty. Now, instead of administering condition to Falmouth. When off Lundy Island The Civil Guards, who have rendered powders, or some laxative medicine, let a fireman reported that the pulsometer important services to the unfortunate vic- us add a healthy food ingredient to these sea-cock was open. The master went intims of the terrible inundations of the val- rations, and that is a mild, soothing laxa- to the engine-room. It was stated that the ballast tank was filling, and that the engineer remarked that he knew nothing of the pulsometer. The pumps were set going, but in a very short time they were choked, the water came over the stokehole-plates, putting out the fires, and the vessel began to fill aft. At 9 a.m. on the 27th a steamer hove in sight and bore down, hut when three hundred yards distant three heavy sees broke over the vessel in succession and took several of the crew overboard. The ship then quivered and sank, taking the rest of the crew down with her. Ellery was subsequently picked up by two men from the Bowsfield and was taken to Malta, and afterward but when one, two, and three gentlemen said the court were of opinion that the The using several teams we have continued loss was due to one of the sea-cocks havthis flaxseed ration for years, and with ing been left open, most likely the pulso-
