When dead, the letters which compose your name will be of no more interest to you than the rest of the alphabet.

Catarrh-A New Treatment. Perhaps the most extrao dinay succes that has been achieved in modern science has been attained by the Dixon Treatment of catarrh Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a cure at ad. Starting with the claim now generally Toulon, has been distributed and has hibited a peculiar admixture of impatience believed by the most scientific men taken root throughout this city.

I hibited a peculiar admixture of impatience believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dix-"It appears that the attack of the fitting suit of dark clothing which was on at once adapted his cure to their
