L. O'CONNOR,

Manufacturer of First-Class

Sleighs, Buggies, Wagons, &c.

Having now completed all the improvements required in his new premises, formerly Mowry's Foundry, next to Carr's hotel, corner of William and Russell streets, has facilities for executing all work in the above lines which cannot be excelled.

He respectfully solicits a call from those requiring anything in his line, and will be glad to show them over his new Carriage and Waggon Shops.

L. O'Connor, being the oldest practical man in this section of the country, is enabled to guarantee a First-Class Job in any department, and every article turned out will be warranted as A. 1.

Every piece of work in this establishment is done by hand, and far superior, as is acknowledged, to that done in factories—a fact proved at the South Victoria Exhibition, where I received three first prizes, although I did not get up my work for prize exhibition, and they obtained for me sales and orders quite unexpected and unprecedented.

All Repairs done Cheaply and Promptly. A few second-hand Buggies for sale.

L. O'CONNOR.

SOMETHING NEW FOR FARMERS, DAIRYMEN AND OTHERS.

The Combined MILK BUCKET, STRAINER & STOOL.

This bucket (patented last June) has many advantages that make it acceptable to all who require it for milk cows. The milk is strained while entering the bucket, no milk is lost, and it is effectually protected from contact with any foreign substance whatever and from the odor of the stable. It does away with the old-fashioned stool, as the milk sits on the bucket. Should a vicious cow lick over the bucket, no milk is lost or injured. It needs only to be seen to be appreciated. Professor L. B. Arnold speaks very highly of it, and Professor W. Brown says, "we use it at the Ontario experimental farm," and "it is admirably adapted to secure cleanliness, convenience, and safety of the operator." Manufactured by the **ONTARIO MILK BUCKET MANUFACTURING CO., Toronto, R. W. SUTHERLAND, Manager.** Sold by special agents only, **McDOUGALL & BRANDON,** Fenelon Falls.
