cot of a little one-year-old boy, whose death the doctors said would be made certain by giving him any food. Ten days had passed and his plump form had wasted under the starving process to a mere skeleton. While he had strength weak to express his craving by sounds his bloom as he gazed upon the landscape, little eyes were turned with a look of "ah, what is so old as the hills?" "The For a moment he sat looking at her in wolfish hunger upon the food prepared valleys, my dear," responded Mrs. S.; and that it must die before noon. Without one deep love of his lifetime, for whom he father hurried home with a determination to have his light suit cleaned up for 1885, would have counted no sacrifice too great, that his boy should not die with that look and he wanted a heavier suit. "What's "Yes," he answered, in a voice so cold should think him not only a murderer, of longing in his eyes. He cooked a the use of fighting about this?" he said, warm gravy, giving it a spoonful every summer." "I think," she replied, "that to wait for their little one to die, lutthey | ever you may be."

Strengthened by the food the child's caught a glimpse of the waiting travellers, believed in his guilt. But, when at last was sleeping the peaceful slumber of a and foul as to be almost incredible. He Stephen's. She lay tack against the "Do not go home," she said suddenly, which he recalled afterwards, thinking the silence was broken, it was not by the fed child.
