CHAPTER III.

There was a very curious atmosphere in the house the nextfew days. Even George became sensible of it. "What is the matter?" he saked his

brother. "You and Cordelia look as if you had been at a funeral."

said quietly-

"There is something the matter, what it is in a few days. But don't ask you left there lately?" me any more now."

There seemed to be no guilty con fersed Lord Heatherbloom. showed any signs of distress: but then you can, tell, as well as I, the value of Where the watering place is far from truth, the scientific view of what ought her knowledge of the loss was sufficient that jewelry, which is all quite new, and the stable cattle will often suffer from to be esten, and how it should be preparto account for that. Lord Heatherbloom which I know George has not given her." thirst in cold weather rather than go ed, is so at variance with what we do eat, could not bring himself to believe she had anything to do with the theft; she tate for generations. This was the case came here she wanted to have them for cistern can easily be protected from it is to be wondered at that we are not an with all the ser ants in the house, except her own. some of the younger ones. Mrs. Riddel.

thirty and forty years. After some days of waiting and anxlous hesitation, bord Heatherbloom call- diamonds were stolen." ed in the services of one of the best Lonvery carefully; he considered that Lord mean ?" Heatherbloom had done well to keep the despite an immense patience, he could At last be came to Lord Heatherbloom?

"There is nothing more to be done in this way," he said. "You had better announce the lose, and have all the servants searched and questioned."

The next day was one long to be remembered by the whole household. The police came in and searched the servants' rooms and boxes, while one after another therbloom stayed for some time with them; but there was such a total absence of anything like a clue that he felt faint, knowing that crushed rose to be in his study. Here, late in the afternoon, came the detective, and with him Mrs.

"My lord;" said the officer, "this woman knows comething; but I cannot get it from her. She says she will tell no one but your lordship.

"Leave us alone then," commanded Lord Heatherbloom to the officer. When he was gone, he turned to the

housekeeper. "Now, Mrs. Riddell," he said, "tell me what you know; keep nothing back, I beseech you, for this is a very serious affair !"

"I know it, my lord, and I made up my mind this morning I would tell this to you, but to no one else, my lord, unless you wish it. That is for you to deoide-the incident puzzled me very much at the time; but I never thought it could be of any importance until

Tell me what it is, Riddell," commanded Lord Heatherbloom; "don't keep me waiting."

"The night on which those jewels must have been stolen, your lordship and my lady and Miss Floss were home before three. The carriage woke me as it drove to the door, and I looked at my watch. I could not go to sleep again; I'm getting an old woman now, my lord, and sometimes I can't, when I'm wakened in me! the night, and when I lie awake I can't that night: a little after four I started up, certain I heard a step or a sound in there was another sound, and a moment ic, was impossible. later I saw Miss Floes come out of her daybreak, and I could quite distinctly see things?

her, wrapped in her long gray silk cloak, with the hood drawn right down over her herself out at the front door." Lord Heatherbloom leaned back in Tell me, he continued, his manner tion to cut the mow.

"I went back to my room and looked out of the window. I could just catch a edglimpse of her, but she kept very close to | "I-I suppose-frem you!" the wall. I am almost certain there was a man waiting to meet her at the corner her impatiently. of Park Lane : certainly he had been standing there before, and he disappeared when she did. I saw nothing more, my lord : but I did not sleep again. A little after five I heard a slight sound on the ly. " But I thought-I thought you for late feeding, but we do not believe stairs and a door shut very softly." "But how could she get in again?"

"There's a latch key, my lord, alwayr in the drawer in the hall; she could undo all the other fastenings and take this key with her. She must have chained and bolted the door again when she came

There was silence for a few minutes. Then Lord Heatherbloom spoke.

"I am very grateful to you, Riddell, for telling this only to me," he said. " Never breathe a word of it to any other living soul. And now will you go and than this !" send the police officers to me?"

She did so. The men came, hoping to be put or a new scent. To their amaze ment, they heard that the affair was not to be investigated any further. They were rewarded for what they had done, and

told to let the matter crop. But the excitement in the household had made the matter, to a certain extent, public. The newspapers were full of the died, and her pet cat has since committed mysterious disappearance of Lady Heatherbloom's diamonds. But, as absolutely nothing was discovered about their

loss, by degrees the interest in the story room in which the body lay until the her husband. He found her in the that position nor took food. After it had

A lecturer wishing to explain to a little girl the manner in which a lobster casts Palace at St. Petersburgh. As heir to his shell when he has outgrown it, the Russian throne, he accompanied the said: "What do you do when you have souris District," the Garden of Sourie in Maritoba," of which there has been broken and back et this season, stables, who frequented a certain public about four, wrapped in her long gray hinges from above, so as to swing over linvoked panegyric to aid in expressing the Rudslin about four, wrapped in her long gray hinges from above, so as to swing over admiration of this "cup which cheers but admiration of the complex to the comp meeting with the sovereigns of Germany aside, don't you?" "Oh, no!" replied and Austria. "The first erep build more than pay the price the little one, "we let out the tucks!" for land. Terms literal, Address Box 163, L ndon Ont. The doctor confessed she had the advantage of him there.

A Sure Remedy for Neuralgia... Neuralgia is one of the most common and distressing complaints incidental to this climate. It is not confined to any particular season, for whilst most general in the winter seasons, yet many suffer, its excruciating ageny in the heat of summer. In late years this form of disease has become better known, and consequently the means of relief have become greatly increased in numbers, as well as in efficiev. Among the mest; owerful and penetrating combinations, preced within the reach of the public for the relief-of neuralgia, we can mention to remedy equal to or more certain than Polson's NERVILINE - Its power over ; ain is something wonderful, and we advise a trial for neuralgia, or any other painful complaints. Nerviline is sold by all druggists at 25 cents a bottle, also trial bottles at 10 cents.

A boy can imagine almost anything the cabbages yellow in their youth, and he can ing an old shotgun about all day much given to share in the exciting busi- under the impression that he's having a ness of their 'lords' and 'masters.
