**CAMERON LAKE FOUNDRY.**  
**The Excelsior Fanning Mill.**  
In introducing this mill to farmers I have the pleasure of offering to them a mill that has never been beat for clean- ing and separating mixed grain.

**FARMERS**  
And others in want of a good light HORSE-POWER for sawing wood, running grain crusher or straw cutter, should call and see them. For strength and durability they have no equal.

**POWER AND HAND STRAW CUTTERS.**  
This straw cutter is particularly suited to those having a small farm, or for stable use. No one should be without one.  
Look out for Robson's 2-gang Plough, the strongest and best in the market.

**THOMAS ROBSON.**  
**The Fenelon Falls Gazette**  
Saturday, February 6th, 1886.  
**Coroner's Inquest.**

Mr. John Perryman lives about two miles from this village on the Verulam side of the boundary between that township and Fenelon, and nearly opposite his farm is one owned by the late Joseph Udy, who died on the 26th of No- vember last, soon after which his widow and children moved to Fenelon Falls, and the house on the farm has since been unoccupied. Several weeks ago Mr. Perryman lost some of his hens, which he believed had been stolen; and when about 10 o'clock on the morning of Friday last week, he saw Mrs. Udy and some other woman or girl pass his gate on their way to the Falls, he thought of his hens, and decided to go up the road a short distance and see whether there was any connection be- tween the disappearance of the poultry and the appearance of the women. He could not follow the latter's footsteps, as Mr. Thomas Roberts just then drove past and obliterated them; but after walking about a quarter of a mile he saw the tracks of two persons leading from the road to a piece of bush on the Udy farm and then back to the road again. He went to the bush and found—not his fowls, but—a small rough box, partly covered with stones and snow. The lid of the box was formed of two pieces of slab nailed down, and when he raised it was disclosed the body of a new-born female child, with a piece of dirty cotton cloth wrapped round it. He called to Mr. Edward Chambers, who was passing, and showed him what he had found, and then came to the Falls and reported the circumstances to Constable Nevison, who went out and took possession of the body and box, together with a piece of paper felt that had been laid over the latter. On Saturday an inquest was opened in Jordan's hall by Coroner Naylor and a jury of fourteen, who elected Mr. J. J. Power as foreman, and the only witnesses examined were the constable and Mr. Perryman, who deposed as above stated. An adjourn- ment then took place to allow a *post mortem* examination to be held by Dr. Graham; who, upon the inquest being resumed in the hall at 10 o'clock on Monday, stated that he had opened the body (which bore no marks of violence) and examined the vital organs; that they were all in a normal condition; that the child had breathed and his impression was that it had been born alive; and that he did not know what had caused its death. The hall was then cleared, and the jury, after a short consultation, brought in a verdict to the effect that the child had been born alive, and that it had come to its death through culpable neglect on the part of some persons unknown.

As the result of the inquest failed to satisfy the general public, and there was a strong suspicion as to who was the mother of the child, and who placed the body where it was found, the cor-oner and constable both went to Lind-ay on Tuesday and interviewed the county attorney, and by his advice the inquest was reopened on Wednesday, and Mrs. Udy and her daughters Mary, Annie, Sophia and Lucy were all summoned, and—with the exception of the last-named, who was not called upon—swore positively that they knew nothing of the child alive or dead, and could give no evidence touching the matter in question. Mrs. Udy and her eldest daughter told the same straight story, viz., that they went out to their old home on Friday morning to get a suit of clothes that Mr. Udy had on when he died, but found the snow along the farm fence so deep that they did not attempt to force their way through it; that they went and returned along the boundary; that they had nothing with them but a basket in which to carry the clothes; and that they saw no one either going or coming except Mr. Per-ryman and Mr. Roberts. Their ac- counts as to where they went and what they did after they got home varied a good deal, but not as to the journey and its object. There are all sorts of rumours as to evidence that can be got to prove that they did not tell the truth; but until it is produced in court the *Gazette* declines to notice it. One of the daughters, Sophia, who is said to be suffering from a disease of the lungs, presented so delicate an appearance that the coroner thought fit to order her to be examined by Dr. Graham; but when the doctor visited her on Thursday morning for the purpose of carrying out his instructions, she indignantly refused to submit; and in her present state might result from any at-tempt at compulsion, supposing it to be allowable, which they very much doubt. The inquest therefore stands adjourned sine die, and the county attorney has been written to for further instructions, until the arrival of which nothing can apparently be done.

**School Board.**  
Fenelon Falls, Feb. 3rd, 1886.  
School Board met. Members all present, and the chairman in the chair.  
Moved by Mr. Ellis, seconded by Dr. Wilson, That J. Cuccannon's tender for 45 cords of two foot wood be accepted.—Carried.

Moved by Dr. Wilson, seconded by Mr. Ellis, That the following accounts be paid and the chairman give his orders for the same:—E. D. Hand, print- ing ballots and tenders for wood, \$4; Mr. Wilson, one month's salary, \$45.50; Barron & Smith, drawing agreement between Lakin and schoolboard, \$5.—Carried.

Moved by Mr. Ellis, seconded by Mr. Martin, That Mr. Moffat get six chairs for the school house south of the river.—Carried.  
Moved by Mr. Martin seconded by Mr. Moffat, That Wm. McKendry be paid \$4 for keeping on fire in new school house in November last, and for cleaning the same.—Carried.  
Moved by Dr. Wilson, seconded by Mr. M. D. That Mr. Brokenshire be instructed by the secretary to take up the pumps belonging to the public schools and put them into proper working order.—Carried.  
Moved by Mr. Ellis, seconded by Mr. Moffat, That the secretary be in-structured to write to the school in-pector and request him to come out and pay a visit to our schools as soon as possible with a view to re-organizing the same.—Carried.  
Moved by Mr. Ellis, seconded by Mr. Moffat, That the mover employ some person to make the necessary im-provements on the water closets at each school house.—Carried.  
The following is Mr. Wilson's report of attendance for the month of January: 4th Division, Mr. Wilson's, Number on register 60. Average 47.  
3rd Division, Miss Newton's, Num- ber on roll 48. Average 49.  
2nd Division, Miss McNeill's, Num- ber on roll 47. Average 36.  
1st Division, Miss McDiarmid's, No. on roll, Average 53.

**Mechanics' Institute.**  
Fenelon Falls, Feb. 2nd, 1886.  
Regular meeting of directors held. Present, the president, secretary, and

**Not Buried Alive.**  
The directions sometimes left in a will that, after the testator's supposed death, his heart shall be pierced or something else done to make sure that life is extinct before his body is com- mitted to the grave, show that such per- sons believed that cases of premature interment occasionally occur; and all who hold that belief must have had it strengthened by a horrifying paragraph (if they saw it) that appeared in the *Globe* of the 18th ult., and they will consequently be greatly relieved by the following flat contradiction, which was published a few days later:  
To the Editor of the *Globe*:  
Sir,—In the *Globe* of the 18th inst. an item of news is mentioned to the effect that recent discovery had revealed that a little girl named Collings, who died here last summer, had been buried alive. I officiated at her funeral, and her parents are members of Knox Church. The whole story is a piece of the most heartless fabrication, without even a shadow of ground to rest on. No removal of the body to another burying ground, nor opening of the grave nor examination of any kind has ever taken place. The sensation circulated to the intense pain of the family, is without a pretext of excuse. Letters of enquiry from the States and Canada have come to Woodstock, some to myself and about fifty to the Postmaster, asking for the real facts. Can nothing be done to ferret out and punish the originators of such horrifying sensations? In a letter which I have received from the editor of the *New York Observer*, it is stated that for years that journal has made careful investigation and found in every instance such reports false. It is but fair to add that before the item ap- peared in the *Globe* the rumour had been circulating in town, but how it originated is a mystery.  
W. T. McMULLEN,  
Minister of Knox Church,  
Woodstock, Jan. 27th.

**Village Council.**  
Fenelon Falls, Feb. 1st, 1886.  
The council met pursuant to adjourn- ment. Members present, Messrs. Wil- son, Sandford and Austin, and the reeve in the chair. Minutes of last meeting read and approved. The com- mittee appointed to report on the en- gagement of a hall for village purposes, reported that Mr. Jordan agrees to rent his hall for \$50 per annum. A com- mittee was read from the secretary of the advancement of the T. V. C. Moved by Dr. Wilson, seconded by Mr. Sandford, That Rev. Mr. Logan and the reeve be a deputation to attend the mass meeting in Peterborough on the 10th inst. re T. V. C.—Carried.  
Moved by Dr. Wilson, seconded by Mr. Austin, That the reeve write the Attorney-General, submitting the claims of this village to his consideration re- chancellor's decision in the matter of streets.—Carried.  
Moved by Mr. Sandford, seconded by Dr. Wilson, That By-law No. —, entitled a by-law appointing an assessor, be now introduced and read a first time.—Carried.  
By-law read a second and third time and passed.  
Moved by Mr. Austin, seconded by Mr. Sandford, That the following ac- counts be paid: W. Jordan, attending school arbitration, \$2; S. Nevison, two months' salary as sanitary inspector, \$26.—Carried.  
Dr. Wilson gives notice that he will now introduce a by-law to appoint a solicitor. By-law introduced, read three times and passed. The council then adjourned, to meet at the call of the reeve.

**Over-Coats from \$4 50 up at Fair weather's Cheap Store.**  
**METHODIST MISSIONARY MEETING.**  
—The annual services in connection with this society were held in the Meth- odist church in this village on Sabbath and Wednesday last. Sermons were preached on Sabbath by Rev. J. E. Mears of Lindsay and Rev. W. F. Ber- den of Beverton. An interesting and instructive lecture was delivered on Wednesday evening by the Rev. A. E. Green, missionary to the Indians on the Nas River, British Columbia. Mr. Green has been very successful in his work among the tribes on the Pacific coast for the past thirteen years. He had with him numerous curious relics, which attracted much attention. Mr. James Dickson was the chairman of the meeting. The collections for mis- sions in the village church on Sabbath and Wednesday amounted to \$37.  
**Ladies' Mantles, Coats and Dol- mans for half price at Fairweather's Cheap Store.**

**THE SCOTT ACT IN PETERBOROUGH.**  
—When the Scott Act was carried in this county, its opponents said it would certainly be defeated in Peterborough, because it was a great deal less popular there than in Victoria. The result showed that they were mistaken, and Peterborough not only carried the act, but appears determined that it shall not become a dead letter; for at the late meeting of the county council Mr. Geo. Cochran, of Lykfield, was appointed for the east riding, and Mr. Jas. Humphries, of Asphedol, for the west riding, at a salary of \$200 each, as inspectors for the enforcement of the Scott Act, and the Police Magistrate was also ap- pointed at a salary of \$200 to try the county cases. It is much to be regretted that it did not occur to the Victoria county council to make similar appoint- ments.

**A Fall Line of New Readers and all kinds of School Supplies now in stock at the Drug Store.**  
**PERSONAL.**—Mr. Samuel Wright, for some considerable time station master here, has been removed to Stirling, and Mr. Sutherland has come from Stirling to the Falls, and is likely to prove a popular official. The *Stirling News- paper* says:—Mr. Alex. Sutherland, for a long time station agent at this place, left on Wednesday morning last for Fenelon Falls, to take charge of the station there. Mr. Sutherland was very popular here, and his departure is regretted by all. He cannot fail to make many friends in his new home, and his friends here wish him every success. The *Peterborough Review* quotes the paragraph and adds: "Mr. Sutherland was for some years an employe in the Great North-Western Telegraph Com- pany's office here, and while here was popular in both business and social circles."

**Don't forget!** If you need a new School Book, or any other thing for school, you can get it at the Drug Store.  
**A Failure of Justice.**  
A special interest attaches to the case of George Tait, the Brampton tailor who was charged at the assizes with en- ticing a girl to a house of ill-repute, as being the first trial under the Charlton act for the protection of female virtue. The result illustrates the complete in- adequacy of the measure, owing to the manner in which it was mutilated by Sir John Macdonald and the senate. There was no doubt as to the facts. The prisoner was admittedly the tra- yeur of the girl, the defence set up being that, although he persuaded her to take refuge in a disreputable resort, her ruin had not been accomplished there. Upon this technicality a villain, who would have been rightly served had an indignant community hanged him to the first lamp post, escapes pun- ishment. Mr. Charlton's measure in its original form would undoubtedly have covered the case. But its pro- vision were so weakened, first by the action of the government, and afterwards by the senate, that this miscreant is enabled to go out of court a free man, and make a boast or a jest of his vil- lainy.  
For this failure of justice Sir John Macdonald and that very large section of the representatives at Ottawa who have an instinctive sympathy with lib- ertinism are directly responsible. They have session after session been appeal- ing to allow the passage of stringent and effective legislation to punish the se- ducer, and so far the only result has been the mutilated Charlton act, in which liability for even the heinous of- fence of consigning young girls to a life of shame is so hedged about with limitations that it is impossible to obtain a conviction. Political corruption is bad enough, but that our government should encourage licentiousness by refusing to punish villainous social offences such as that of which this man Tait was guilty is infinitely worse.—*Toronto News.*

**The Chinese Question.**  
**A PETITION TO PROHIBIT EMIGRATION FOREVER.**  
SAN FRANCISCO, February 1.—The Knights of Labour are circulating a pe- tition addressed to the senate and house of representatives which, in behalf of the State of California, requests con- gress, either by legislation or change in the present treaty with China, to for- bid the further immigration ever prohibited to the United States. The petition has been signed by Governor Stoneman, the ex-governor of the state and other state officers, the chief justice of the supreme court, the superior judges, and by municipal and federal officers generally. The Knights of Labour ex- pect to obtain a quarter of a million signatures on the Pacific coast.

**Central America.**  
**DIABOLICAL PLOT DISCOVERED—VOL- CANIC DISTURBANCES & DESTRUCTION.**  
PANAMA, Feb. 1.—One of the most diabolical plots ever planned to over- throw a government has just been dis- covered in Guatemala. It was a scheme to set fire to the Grand hotel and theatre at a time when both were filled with people. In the panic that would have ensued the conspirators intended to take possession of the barracks. Pres- ident Barrillas and his family were to be murdered, all foreigners were to be attacked, and the city was to be sacked. The plans of the conspirators were re- vealed in time to prevent what would have been a terrible calamity. Fifty persons, including some colonels in the army, were arrested, and they are now undergoing trial.  
A commission which was recently sent from Guatemala to report on the probability of an outbreak of the Paca- ya, reports the total destruction of the village of San Vicente, Pacaya. Forty- four tiled-roof houses completely col- lapsed, making such a cloud of dust as to create the belief that a new crater had opened. The hot springs surround- ing Lake Amatlan emit a larger vol- ume of water at a higher temperature than usual. The crater of Pacaya re- mains unchanged, while that at Fuego has been very lively.

**Mutiny on a Training Ship.**  
**A FIGHT ON THE REFORMATORY SHIP AT LIVERPOOL.**  
**LIVERPOOL, Feb. 1.**—A mutiny oc- curred to-day among the lads on the reformatory ship Clarence, which is lying in the Mersey. At a preconcerted signal the lads in a body attacked the officers with bludgeing pins, firearms and other weapons. The officers drew their revolvers and fired into the muti- nous crowd and tried in vain to force them to lay down their weapons and return to their places. The boys contin- ued their assault and at last compelled the officers to seek the shelter of the cabins. The lads then lowered the boats, into which they crowded, and drifted down the stream with the tide. The Clarence's officers, after the depart- ure of the boys, made signals to the authorities ashore, and soon several boats filled with police put out from shore and called upon the boys to sur- render. The youngsters, deeming that resistance would be useless, gave up and were taken back to the ship. The ring leaders were placed in irons. Eighteen lads and two officers received wound- in the fight on board. Two years ago the lads confined on the Clarence set fire to the ship. Investigation shows that the mutiny arose out of a religious dispute over certain rules of the ship, as all the mutineers were Catholics. The outbreak had been planned for several days. The wounded have all had to be removed to the hospital. Thirteen of the lads who led the mutiny have been placed under arrest.

**A Miraculous Escape.**  
**FOUR FRENCH-CANADIANS AFOAT FOR- TY HOURS IN A WINTER STORM.**  
**QUEBEC, Jan. 30th.**—Napoleon Con- ceau, telegraph operator at Goshout River on the north shore of the Gulf of St. Lawrence, his brother, and two of his brothers-in-law named Labrie, all experienced a miraculous escape from death during the terrible storm of ten or twelve days ago. They had gone out hunting seals and ducks upon the ice, when a seal, which the Labrie brothers were trying to kill, ferociously attacked them. All were upon a floating field of ice, which was gradually drifting farther out from the shore, and they soon found that they were unable to return. To add to their difficulty they had continually to take to their canoe, as the ice broke beneath them. The storm which raged around them soon prevented them from seeing the shore, and they were slowly carried out toward the opposite coast. In this po- sition they existed for forty hours, with no other food than two frozen ducks. Two of their number were so badly fro- zen that they would probably have per- ished but for Napoleon Conceau. They were finally enabled to land on the south shore near Anne Des Mondes, whence they were driven to Metis, a distance of 26 miles, and thence by I. C. R. to this city. During the time they were on the ice the party drifted nearly ninety miles, and their escape was nothing short of miraculous. They will return home by the north shore, at a distance of about 240 miles, driving to Sault-Au-Cochon and walking the re- maining 80 miles on snowshoes.  
On Friday last a robin was seen about seven miles from Peterborough. Six houses collapsed in London, Eng., on Saturday, instantly killing five pas- sengers.  
It is stated that 800 gallons of whisky were consumed in Butte, M. T., on New Year's day.  
A Chicago church set an example of plain speaking when it recently cen- sured one of its members for "general cantankerousness."

**Surprising Surgical Operation.**  
New York Feb. 1.—John James, a colored man, 57 years of age, went to his home on the night of December 20 and found a stalwart negro named Thomas in conversation with his wife. He called upon Thomas for an expla- nation of his presence, and the answer he received was a powerful blow on the head. The two men grappled. Thomas got James underneath, seized a shoe- maker's knife and sunk it to the hilt in his abdomen, and then slashed down- wards. James stopped struggling, and Thomas, thinking he had killed him, fled. James was removed to St. Vin- cent's hospital. An examination showed that James had been disembowelled, and that there were two cuts in the testicles. The doctors decided on the dangerous operation of resection. A piece of intestine five inches long was accordingly cut out. The intestines were wound, and a large quantity of blood taken out of the body. James has entirely recovered. This is the first case of the kind on record where the patient's life has been saved.  
A family of negroes in Texas have been poisoned by eating the flesh of a stolen hog that had been dosed with strychnine.  
The single town of Bascom, in Switzerland, employs over 15,000 persons in watchmaking, and the annual product approaches 600,000 watches. A Government horological school is maintained there.  
The smallest firearm in the world is a gold watch-chain in the form of a re- volver about an inch long. Cartridges are made for it, and it is claimed that it could do serious damage at short range.  
A Berlin inventor has got up a musical sewing machine, which turns out tunes as fast as work. This is a combi- nation as novel as it is agreeable, and it suggests endless cases where the din of machinery may thus be made pleasant.  
A milkman slipped and fell in New London, Conn., the other day, in such a way that he went head foremost into a can from which he had removed the cover, and, as it was a tight fit, a tin- smith's services were required to extri- cate him.  
At the noon-day prayer meeting in the old church in John-street, New York, one day last week, the engine of the Long Branch Railroad was so- tatified that it was God who told him what to do, the doing of which pre- vented an appalling accident on the bridge at Matawan recently.  
A man living in Los Angeles County, who was bothered by tramps, decided to have the beggars dig a cellar for him, and accordingly to every applicant for vegetables he proposed to charge an hour's work for a square meal. At the end of a week he found that he had had 97 applicants, and had secured three hours' work.  
It took 2,700 men to post up the electoral placards on the dead walls of Paris previous to the recent election, and it cost the Government \$5,000 to wash off the walls after the election. The old Bourbon point to this fact as an argument against a Republican form of government. Under a king or an emperor all this would have been un- necessary.

**BAUGOR, Me.** has just shipped 980 skunk skins to Boston.  
**Bears** are unusually numerous in the Rocky mountains this winter.  
Alaska is said to have in its forests, at the lowest estimate, 5,000,000,000 feet of lumber.  
Mr. Gladstone has formed a new Cab- inet, which the English papers pro- nounce a very strong one.  
The German Minister of War has ordered the training of a number of dogs to be used as night sentinels.  
For a distance of sixty-five miles above and below St. Louis the Missis- sippi is blocked by a solid mass of ice.  
An Australian workman, says *Sala*, earns eight shillings in a day of eight hours, eats meat three times a day, and has no State church to sup- port nor State taxes to feel.  
An old-waken bucket hanging over a well in Kookin, Iowa, dropped on the head of a starkey forty feet below, and was dashed to pieces. The starkey came up with the rim on his arm.  
A long father was greatly surprised the other day to find that his daughter, who had been attending the public schools of Louisville for a number of years, had never heard of Gen. Robert E. Lee.

**DIED.**  
Jones.—In the township of Fenelon, on Friday, Jan'y 25th, Mr. Thomas Jones, aged 71 years.

**DISSOLUTION OF PARTNERSHIP.**  
The partnership heretofore exist- ing between David Gow Smith and John Fell, under the name, style and firm of Smith and Fell, as shingle manufacturers at the vil- lage of Fenelon Falls, has been dissolved by mutual consent. All debts due by the late firm will be paid by John Fell, to whom all the outstanding claims due the late firm will be paid.  
Dated January 27th, 1886.  
JOHN FELL, JR., Witness.  
JOHN FELL, SR. 60-3.

**Notice of Dissolution.**  
Notice is hereby given that the part- nership heretofore existing between the undersigned as lumber manufacturers, in the village of Fenelon Falls, has been this day dissolved by mutual consent. All debts owing to the said partnership are to be paid to Alexander McArthur or John Thomson at the village of Fenelon Falls, and all claims against the said partnership are to be presented to the said Alexander McArthur or John Thomson, by whom the same will be paid, and by whom the business will be continued.  
Dated at Fenelon Falls this first day of January, 1886.  
A. McARTHUR,  
JOHN THOMSON,  
JOHN MARTIN, 50-3.  
G. A. JORDAN, Witness.

**NOTICE.**  
Having disposed of all his lumber, the undersigned hereby thanks his customers for past favours, and to notify those in- debted to him by note or book account that, unless their indebtedness is settled forthwith, further delay, their accounts will be placed in court for collection.  
R. C. SMITH.  
Fenelon Falls, Jan'y 14th, 1886. 48-3.

**J. NEELANDS,**  
DENTIST, LINDSAY.  
visits Fenelon Falls, (McArthur House) on the third Monday and Tuesday of each month. Mr. Neelands has had special apparatus in the use of gas (nitrous oxide) in this part of Canada, having administered it continu- ously for about 19 years. He made a study of it under Dr. Colton, of New York, who has given it for extracting teeth to 14,000 persons without an accident. Brought into a cold at low prices. Electric light used for a rack.

**LUMBER.**  
Lumber, Timber and Bill Staff,  
Wholesale and Retail.  
Having purchased a large stock of Dry Lumber from Mr. R. C. Smith, I am deter- mined to sell in any quantity, large or small, to suit buyers, and  
**AT LOWER PRICES**  
than Lumber was ever before offered for at Fenelon Falls. I have all kinds of  
**Dressed and Matched Lumber,**  
Door Casings, Base-Bands and Mouldings, together with my large and well assorted stock, in Lindsay, of Rough and Dressed Lumber and Bill Staff of all kinds, and  
**Laths & Shingles**  
of all grades.  
Call at the yard at Fenelon Falls or at my office at Lindsay, and get prices before purchasing elsewhere. It will be to your advantage to do so.  
R. BRYANS.  
Lindsay, January 8th, 1886. 47-1f.

**CRUELY MURDERED.**  
In the Province of Ontario, every year, thousands are being cruelly murdered by taking unwholesome, untried nostrums for such complaints as Coughs, Bronchitis, Liver Complaint, Kidney Troubles, etc., who might easily gain lost strength, and energy by using McArthur's Speedy Cure. To convince them that such is the Cure, we will give them a free trial bottle call at Wm. E. Ellis's Drug Store, Fenelon Falls, Price 5c and \$1 per bottle. See testimo- nials from persons in your own town.  
**MERIT PROVEN.**  
Doubt upon dollars is frequently spent on the faith of recommenda-tions for articles entirely worthless. Not so with McArthur's Speedy Cure. You are not asked to purchase until its merits are proven. Call at Wm. E. Ellis's Drug Store, Fenelon Falls, and get a free trial bottle, and if you are cured that it will cure you of the worst form of Dyspepsia, Liver Complaint, etc., no matter of how long standing, it costs you nothing. Sold in 5c. and \$1 bottles. See testimo- nials from persons in your own town.

**BAUGOR, Me.** has just shipped 980 skunk skins to Boston.  
**Bears** are unusually numerous in the Rocky mountains this winter.  
Alaska is said to have in its forests, at the lowest estimate, 5,000,000,000 feet of lumber.  
Mr. Gladstone has formed a new Cab- inet, which the English papers pro- nounce a very strong one.  
The German Minister of War has ordered the training of a number of dogs to be used as night sentinels.  
For a distance of sixty-five miles above and below St. Louis the Missis- sippi is blocked by a solid mass of ice.  
An Australian workman, says *Sala*, earns eight shillings in a day of eight hours, eats meat three times a day, and has no State church to sup- port nor State taxes to feel.  
An old-waken bucket hanging over a well in Kookin, Iowa, dropped on the head of a starkey forty feet below, and was dashed to pieces. The starkey came up with the rim on his arm.  
A long father was greatly surprised the other day to find that his daughter, who had been attending the public schools of Louisville for a number of years, had never heard of Gen. Robert E. Lee.

**DIED.**  
Jones.—In the township of Fenelon, on Friday, Jan'y 25th, Mr. Thomas Jones, aged 71 years.

**DISSOLUTION OF PARTNERSHIP.**  
The partnership heretofore exist- ing between David Gow Smith and John Fell, under the name, style and firm of Smith and Fell, as shingle manufacturers at the vil- lage of Fenelon Falls, has been dissolved by mutual consent. All debts due by the late firm will be paid by John Fell, to whom all the outstanding claims due the late firm will be paid.  
Dated January 27th, 1886.  
JOHN FELL, JR., Witness.  
JOHN FELL, SR. 60-3.

**Notice of Dissolution.**  
Notice is hereby given that the part- nership heretofore existing between the undersigned as lumber manufacturers, in the village of Fenelon Falls, has been this day dissolved by mutual consent. All debts owing to the said partnership are to be paid to Alexander McArthur or John Thomson at the village of Fenelon Falls, and all claims against the said partnership are to be presented to the said Alexander McArthur or John Thomson, by whom the same will be paid, and by whom the business will be continued.  
Dated at Fenelon Falls this first day of January, 1886.  
A. McARTHUR,  
JOHN THOMSON,  
JOHN MARTIN, 50-3.  
G. A. JORDAN, Witness.

**NOTICE.**  
Having disposed of all his lumber, the undersigned hereby thanks his customers for past favours, and to notify those in- debted to him by note or book account that, unless their indebtedness is settled forthwith, further delay, their accounts will be placed in court for collection.
