erman, lately caught two that turned the scale at 6 pounds each. On Wednesday forenoon Mr. Geo. Mitchell and Mr. Geo. Whissile went up to Rosedale locks for a few hours' still-fishing, and returned in the evening with twenty-four bass, the biggest of which weighed four pounds.

The total value of the wedding presents to the Princess Louise of Wales is £150,000.

Georgia has the largest watermelon patch in the world. It is owned by a company, and contains 800 acres. The company will ship about 400 cars, at a profit, it is claimed, of \$150 a car.

Mr. Luke Crawford, of Thomaston, Ga., may well claim the belt as the champion horse trader. He had one day three horses, all together not worth \$200, and during the day traded fifty-five times and quit with one horse, it being one of the same he started with. He also had as a result of the day's work \$350 in money, a bull and a buggy.

Brooklyn is suffering from a caterpillar plague. The Eagle says:—"The trees on our more beautiful streets and avenues are infested with the lepidopterous pests, and pedestrians have the extreme pleasure of suddenly discovering that their anatomy has been invaded by them." The insects are silkworms, and the suggestion is made that the unemployed should grow them as a means of livelihood.

Red rain fell recently in the Province of Lublin, Russian Poland. The shower lasted for about ten minutes. The peasants, who mistook the red liquid for blood, became panic-stricken and crowded the churches, where they were quieted by the priest. Several bottles of the red rain were sent to chemists and microscopists in Warsaw for examination. For several days after the shower all the surface water in Lublin was of a dark pink color.

Large forest fires are raging on the Humboldt road, eighteen miles from Chico, Cal. The fire has burnt over a district four miles long and is sweeping everything before it. Much valuable timber has been destroyed. The inhabitants are fighting the flames with great energy. A Santa Barbara despatch says fires have been burning in the foothills back of Santa Barbara. Twelve dwellings, a number of barns and a large quantity of hay have been destroyed, and a number of horses and cattle perished.

The latest story of Kansas productiveness comes from Ford County, where a Mr. Sternberg planted twenty acres to melons and sold the seeds to an eastern seed house for \$400. From the melons he manufactured 1,000 barrels of vinegar, which he values at \$10 per barrel. This melon vinegar he claims to be fully equal to, if not better than, the cider vinegar. If this story is true the State will be principally devoted to the production of watermelons in a short space of time. Just think of it!—\$10,400 for the product of 20 acres of land.

A poor child, the son of a farm-laborer, has just died of hydrophobia. The boy was at Nolton on April 5, when he was bitten by a black cur sheep dog, and although subsequently attended by a medical man, the fatal symptoms developed themselves last Tuesday, and the child died. The curious fact, however, connected with this painful incident is that the dog, which belongs to a Nolton farmer, has, as yet, shown no signs of madness. It is hoped that the animal will not be killed, since if, after careful investigation by skilled authorities, it can be indubitably proved that it does not suffer from rabies, most important results in connection with this frightful disease may be discovered.
