PUBLIC NOTICE.

Owing to hard times, small profits, and
slow returns, I am obliged to retire from
the wagon, so I beg to call the attention
of my numerous customers to the fact that,
on and after the first of September I will
stop delivering bread; but you will at all
times find a good fresh loaf at my shop.
For the convenience of my customers south
of the river, Mr. S. Maybee will keep my
bread for sale as usual. Thanking you all
for the past, I hope to be favoured with
your continued patronage, which will have
my careful attention. I shall always keep
on hand a good assortment of all kinds of
Cakes and Pastry, at a moderate price.
Eighteen tickets for one dollar, if paid in
advance.

Yours Respectfully,

Wm. McWATERS.

Life-Saving Appliances Wanted.

More than once—indeed, we may say
several times—while a crowd was gather-
ed around the scene of the late drown-
ing accident, somewhat severe comments
were made upon the absence of appli-
ances for saving the lives of persons
who may fall into the river, the locks
or the canal, in all of which the water
is deep, and from neither of which any
one but a good swimmer would be at
all likely to escape without assistance.

The locks, which cross the main street,
are particularly dangerous, as the water,
even when at its highest, is several feet
below the top of the walls, and there is
no possibility of getting out of them
except by climbing hand over hand up
one of the small rods that open the
wickets in the gates. When the gates
were put in, it was suggested that each
pair should be furnished with an iron
ladder on the upper side; but the con-
tractor would not act on the suggestion,
possibly because they were not included
in the specification. They should be
put up at once, as they would not cost
more than \$25, and might not only be
the means of saving lives, but would be
a great convenience to the workmen
who sometimes have occasion to go
down into the locks. A few life pres-
ervers should also be procured and
kept close at hand; and, to make the
protection from drowning as perfect as
possible, light chains should be stretched
at high water mark along the face of
the wharf and the walls of the locks,
and fastened at intervals of a few feet
with strong staples. In the old country,
where there is an ever-increasing surplus
population, human life is guarded with
the utmost care; but in this Canada of
ours, where there is room for many
millions more, (provided they are of
the right kind,) danger and dollars are
weighed against each other, and the
latter generally brings down the scale.
The cost of all the appliances we have
mentioned would be but a mere trifle;
and it will be a disgrace to the Public
Works Department, as well as a flagrant
violation of the eternal fitness of things,
if they are not at once provided.

The Shallows.

Yesterday afternoon Mr. R. B. Rog-
ers, of Peterborough, Superintendent
Engineer of the Trent Valley Works,
and Mr. Wm. Kennedy, of Bobcaygeon,
arrived at Fenelon Falls in the Govern-
ment steamer *Empire*, and immediately
proceeded to take soundings of the
shallows above the railway bridge. As
nearly as could be judged from the
imperfect measurements, the channel
will have to be deepened for a distance
of at least 200 feet by about 60 feet
in width opposite the long span of the
bridge, as that is where the desired
end can be attained at the least expen-
diture of labour. The gentlemen men-
tioned left in the evening; but we un-
derstand that the work will be com-
menced in a few days, and it is estima-
ted that it will be finished in about a
month; after which the Grand Trunk
Railway Co. will be under the necessity
of at once taking steps to put a swing
in the existing bridge or to remove it
altogether and build a new one else-

where. The work of deepening the
channel will without doubt be done un-
der the superintendence of Mr. Kenne-
dy, who has been in the employ of the
Dominion Government for about a quar-
ter of a century, and who will be "the
right man in the right place."

Fenelon Council.

Rosedale, Aug. 30th, 1889.

The council met pursuant to adjourn-
ment. Present, Messrs. Daniel, Cham-
bers, Brown and Graham. Minutes of
last meeting read and approved.

Communications from Thos. Murray,
M. Turner, James Dickson, John Ken-
nedy and Bowman Bros. were read.

Moved by Mr. Chambers, seconded
by Mr. Graham, That the reeve is
hereby authorized to procure legal ad-
vice regarding the removal of gravel
from the lake shore adjoining the trav-
elled road at lot 11 in the 9th conces-
sion.—Carried.

Moved by Mr. Graham, seconded by
Mr. Brown, That a by-law to provide
for the construction of a bridge over
Brown's creek on the 8th concession at
lot 21 be received and read a first time.
—Carried.

By-law received, read and passed in
the usual manner, Mr. Brown in the
chair.

Moved by Mr. Graham, seconded by
Mr. Brown, That \$10 be granted on
Coldstream street, Rosedale.—Carried.

Moved by Mr. Chambers, seconded
by Mr. Brown, That Mrs. McNeil be
refunded \$3.35, being taxes paid by her
in 1888.—Carried.

Moved by Mr. Brown, seconded by
Mr. Graham, That Mr. Dickson's re-
quest to have a fine paid by him to the
treasurer of this municipality be re-
ferred to the reeve for consultation with
Mr. Dickson in regard to the same.—
Carried.

Moved by Mr. Chambers, seconded
by Mr. Brown, That a by-law to pro-
vide for the levying of the annual rates
and the appointment of a collector be
received and read a first time.—Car'd.

By-law received, read and passed in
the usual manner, Mr. Graham in the
chair.

Moved by Mr. Graham, seconded by
Mr. Brown, That the following persons
receive assistance out of the poor rate:
Mrs. McDonald \$10; W. Hutchison
and wife, \$7; Mrs. McFarquhar, Mrs.
West, Mary McFayden, Mrs. McInnis,
Mrs. Jones, E. Fieldhouse, \$5 each.—
Carried.

Moved by Mr. Chambers, seconded
by Mr. Brown, That the following bills
be paid: N. Sinclair, cedar for repair-
ing bridge on 3rd con. at lot 24, \$1.20;
A. Jamieson, cedar for culvert on 3rd
con. at lot 22, \$1; W. Heasman, stump-
ing on 6th con. at lots 19 and 20, \$10;
Joseph Cooper, printing account, \$9.50;
C. D. Barr, printing, \$17; J. Kennedy,
work on Ops boundary, \$8, and that
the clerk is hereby instructed to request
payment of one-half of the said amount
from municipality of Ops; W. Downer,
equalizing valuation of three union
school sections, \$8; James Jackson,
work on 10th con. at school house, \$5;

HARD AT IT.—Crandell & Ellis's
steamers and scows are kept hard at
work hauling basswood and other soft
wood, about 1,200 cords of which the
firm sold to the Pulp Mill Co. at this
village. Barely half of it has yet been
delivered, and no time can be lost, as
there is no knowing how soon the water
will be lowered in order to blast out the
ledge of rock beyond the railway bridge.

North-west Wheat Yield.

THE ESTIMATES OF A MONTH AGO LIKE-
LY TO BE FULLY REALIZED.

WINNIPEG, Aug. 29.—The following
crop bulletin was issued to-day: The
weather to-day and during the past two
weeks has been most favourable for
harvesting, and in consequence nearly
all the grain has been cut and over one-
half stacked. In most districts thresh-
ing has commenced. New wheat has
been marketed at several points, and is
a splendid sample. In Morden district,
where the crop suffered most for want
of rain in June, it is now estimated
that the yield will be 25 bushels per
acre. At Portage la Prairie 28 bushels
per acre is a careful estimate. One
farmer at the latter place, from 11
bushels of wheat sown, threshed 235
bushels, and many fields will yield from
40 to 50 bushels per acre. Samples
show that this season's grain is by far
the best ever grown in Manitoba, the
berry being very plump and the colour
bright. Farmers and grain merchants
throughout the Province are well satis-
fied with the season's crop, both as
regards yield and sample, and it is now
thought that the total crop will exceed
early estimates by one or two million
bushels.

Pleuro-Pneumonia.

OTTAWA, Aug. 26th.—Advices have
been received from the High Commis-
sioner's Office to the effect that the
steamer Maryland, from Baltimore,
landed on the 10th inst. at Deptford
wharf, London, 226 head of cattle.
Among them was found a bull afflicted
with pleuro-pneumonia. The cattle
were immediately slaughtered. The
fact that an animal was found suffering
from this dread disease proves that the
efforts which have been put forth by
the United States Government to extir-
pate pleuro-pneumonia among cattle
have not yet been successful. The vig-
orous measures taken by the Canadian
quarantine department to prevent the
entry of the virus into Canada have
had the result of giving us perfect
immunity from the disease, and of al-
lowing Canadian live stock to be taken
to any part of Great Britain. Repre-
sentations, however, continually reach
the Department to allow live stock from
the States into Canada; and were
this done simply to please a few inter-
ested individuals, a great blow would
have been struck at the Canadian live
stock industry.

Another Wales Girl Going.

Labouchere says: I announced sev-
eral months ago that a marriage would
probably take place between Princess
Victoria of Wales and the hereditary
Prince of Hohenlohe-Langenburg, and
I now hear that their marriage is prac-
tically settled. Prince Ernest, who was
born in September, 1863, is a lieutenant
of dragoons in the Prussian Army. He
is the only son of the Prince of Hohen-
lohe-Langenburg, and his mother is a
daughter of the late Prince Leiningen,
so he is nearly related on both sides to
our royal family, through the Duchess
of Kent, and he is a first cousin of the
German Empress. The Hohenlohe-
Langenburg family are not very wealthy,
but the Prince possesses large
estates in Wurtemberg and Saxe-Cob-
urg-Gotha, and his principal residence
is the Schloss of Langenburg in Wurt-
emburg.

The Barley Crop.

It is generally conceded that the
barley crop of Ontario is a heavy one
and of fair quality. High prices do
not appear to be expected, and some
dealers are reported to have offered
large quantities to brewers at rather
low quotations. We have not learned
if any such offers have been accepted,
but brewers undoubtedly expect to
make contracts at very low prices. A
good deal of the crop was discoloured,
but a considerable portion will be
bright. A lot of new Morrisburg bar-
ley was offered in Montreal at 55c., but
not sold. A fine sample was also offered
there, weighing 52 lbs., which could be
bought at 55c. Samples have been sub-
mitted to Albany and New York deal-
ers, but the prices they offer are very
disappointing.

The hop harvest in New York State
has commenced. The crop will be
lighter than was expected.
