The Ice Harvest.

During the past week the work of cutting and shipping or storing the Cameron Lake ice has been going on with not only unabated but increased energy, more men having been added until now nearly one hundred are employed; and it is said that some of the Americans who are here grumbled because they could not work on Sunday. Although operations were commenced a good deal later than they might have been, a very large quantity of ice has been taken out and the greater part of it stored for want of cars to forward it. The American Co.'s storehouse, was nearly full three or four days ago, and its capacity was then nearly doubled by adding several feet to the height of the walls. Mr. John A. Ellis's and Messrs. McDougall and Brandon's storehouses are also rapidly filling, and, if there be another "cold snap," they, too, will probably have to increase their accommodation. Of course speculation is rife as to whether those who have engaged in the enterprise of harvesting the ice crop will make much money out of it, and whether, should next winter prove an "old fashioned" one, Cameron Lake ice will be in demand. We don't pretend to give an opinion of much value upon these points; but as ice is very scarce, and consequently dear, this season, and as the facilities here enable it to be put upon the cars at a very small expense, it is only reasonable to infer that the undertaking ought to be at least fairly profitable. If it will pay in ordinary winters to ship ice from the Falls, no doubt others will be anxious to have "a finger in the pie," and this addition to our local industries will prove a boon to working men, to whom it will give a few week's employment at a season when many of them can find little or nothing to do.

Farmers' Institute Meeting.

The meetings of the members of the East Victoria Farmers' Institute were held as advertised on the afternoon and evening of the 6th inst. in Dickson's hall, and there was a fair attendance, considering that no agricultural celebrity from a distance was expected. Mr. John D. Naylor, vice-president, occupied the chair and gave an address on the "Position of the Farmers" and matters relating thereto.

Mr. W. H. Cullis read a paper on the "Weed Pests of Ontario," which was discussed by all present.

Mr. Henry Daniel propounded the query, "Is lime beneficial to land?" and the majority expressed the opinion that it is a good thing to apply on land sown with wheat.

Mr. J. P. Palmer's subject was "How to restore worn-out lands," a thing much more easily talked about than done—though it can be done if the proper means be used.

The secretary read his report of the proceedings at the Central Farmers' Institute at Toronto, which was discussed clause by clause and adopted.

Mr. John Campbell, of Woodville, was introduced, and delivered an address on "How to make our winter work more profitable," which occupied the remainder of the afternoon.

In the evening, after a brief discussion of Mr. Campbell's address, that gentleman spoke of the benefit he had received from a visit to the Model Farm at Guelph, and it was finally decided that arrangements should be made for an excursion to that institution next summer.

Mr. S. Cornil, of Lindsay, then delivered a most interesting and instructive address on the Bee Industry; after which Dr. & Mrs. A. Wilson favoured the audience (in which there were several ladies) with some excellent vocal and instrumental music, and a few general remarks from Mr. Campbell terminated the proceedings.

Mr. Joseph Heard got home on Saturday from Bowmanville, where he had been on a visit to his relatives. The complaint by which he was laid up while away from home was inflammatory rheumatism (instead of sciatica, as stated in last week's *Gazette*) and he has not yet entirely recovered from its effects.

Powles's Corners.

Correspondence of the *Gazette*.

Mr. Wm. Marshall, who has been living about one mile and a half from Lindsay, has leased his house and lot there, and will take up his abode in this locality, having rented a vacant house of Mr. E. Wagar. We welcome Mr. Marshall back again.

Mr. John Willock has done a few jobs of sawing for some of his neighbors, with a sawing machine which he built himself, expressly for cutting small timber. It is a 20-inch circular, run by horse-power.

There is trouble at Cameron between the Mormons and the post-master, Mr. Bryson. They are beginning to think that he knows as much about Salt Lake City as they do themselves.

We are glad to learn that Mr. Scott Willock is steadily improving, and we hope to see him around again soon.

Mr. Wm. Powles, who had the misfortune to break his wrist, is getting along nicely, but it will be some time yet before he will be around again as in days of yore.

Miss Maggie A. Gillis has returned from visiting friends near Dunsford.

THE S. A.—Lieut. LeBarr, of the Salvation Army, "farewelled" last Sunday and his next station is to be at Stouffville. Cadet Junkin, of Bobcaygeon, is to come to the Falls to assist Capt. Gerow, successor to Capt. Hague.

BAND CONCERT.—The members of the Fenelon Falls brass band gave their concert—or more properly entertainment—last Friday evening in Ingram's hall, which was so well filled that, although the prices of admission were only 15 and 10 cents, the sum of nearly \$20 over all expenses was realized. The drama "That Rascal Pat" was very well performed. Mr. E. Chambers making a capital Irishman, and the drama and farce caused no end of laughter. Lovers of music were delighted by Prof. Sylvester's coronet Solo, to which Mrs. F. McDougall played a soft accompaniment on the organ. The selections by the band were choice and well rendered, and the entertainment was as good as could be expected, as the "boys" had no help except in the single instance above mentioned.

Arthur Orton, alias Tichbourne, was nominated as a candidate for Stoke-on-Trent, but failed to put in the necessary deposit.

The latest attraction of the London Zoo is a collection of monitor lizards, the largest animals of their class. They are so large and strong that it is said in India burglars sometimes make use of them, seizing hold of the lizard's tail and being drawn by it to the upper windows of a house.

A new illustration of an old proverb was afforded by a Augusta, Ga., man the other day. He was at work on the ice and proudly remarked:—"I've worked twenty-two years on the ice, and have never been in the drink yet." As he said this he straightened himself up a little more, threw his head back, his feet flew out from under him, and over he went into the canal.

At Mumbles Head, Wales, a crowd awaited at the church the arrival of a bridal party. After a long delay the bridegroom's friends went to the house of the bride to see why she did not come. They were warned off, and found that the bride's parents, being opposed to the match, had after she was dressed for the ceremony locked her in her room, while one of the family mounted guard at the door and threatened to shoot any one who approached. The wedding was postponed.
