INSURANCE.
THE ROYAL CANADIAN INSURANCE
Co. issues by far the best Farm policy
in Canada.
JOHN AUSTIN,
Agent.
Fenelon Falls, June 12th, 1890. 17.

—THE—
ROYAL CANADIAN
INSURANCE COMPANY,
vs.
THE LONDON MUTUAL,
FOR FARMERS.

The Royal Canadian offers the following
advantages over the London Mutual:
1. If a building worth \$1200 is insured
for say \$1000, the Royal Canadian is obli-
gated to pay \$1000, if a loss occurs. In such
a case the London Mutual is obliged to pay
only two thirds of the cash value, or \$800.
2. If a horse worth \$90 is killed in the
fields by lightning, the Royal Canadian is
obliged to pay \$90. The London Mutual
pays only \$60.
3. For a cow worth \$30 killed by light-
ning the Royal Canadian pays \$30. The
London Mutual pays only \$20. For other
animals the Royal Canadian pays the full
value. The London Mutual pays not more
than \$5, no matter how valuable the animal
may be.
4. In the Royal Canadian animals are
insured against lightning while at pasture
anywhere. In the London Mutual they are
insured while pasturing on the premises of
the insured only.
5. When articles are insured specifically,
such as musical instruments, the Royal
Canadian is obliged to pay the full amount
insured up to the cash value of the article.
The London Mutual pays only two-third
of the cash value, no matter what the in-
surance may be.
6. When "ordinary contents" of out
buildings are insured by the Royal Canadian
all implements are included. In the Lon-
don Mutual only one reaper and one mower
are included, no matter how good others
may be.
7. When the outbuildings are not joined
to each other the Royal Canadian insures
under one sum the "ordinary contents" of
all buildings not cut off by a distance greater
than 40 ft., the same as if the contents
were all under one roof. The London Mutu-
al requires a separate sum on the con-
tents of each building, if the distance is
more than 12 ft. This is a very important
difference in many cases.
8. In the Royal Canadian it is a part of
the contract that standard STEAM THRESHERS
may be used without a special permit and
without any restriction as to the distance
from stacks or buildings, caretakers, piles
of water, kind of fuel or direction of the
wind. Many of the policy holders in the
London Mutual were obliged to run their
own risk while threshing last season, be-
cause it was found to be impossible to com-
ply with the conditions of their permit.
When a farmer pays for insurance he should
secure a policy which will hold him safe
when it is most required.
9. The Royal Canadian is obliged to pay
its losses within sixty days and usually
takes much less. The London Mutual need
not pay for ninety days, and since it has
become so hard up as to be obliged to bor-
row money largely, it usually takes about
the full time allowed.
10. The Royal Canadian policy is subject to
the statutory conditions only. It has
none of the numerous variations against
the policy-holder printed in red ink on the
back of the London Mutual policy.
11. As to security, the inspector of in-
surance reports that the Royal Canadian has
\$202,758, the amount he estimates to be
necessary to enable the company to carry
out all its engagements with its policy
holders. Besides this he reports that it has
to the good the \$400,000 capital paid in
cash by the shareholders, and a net surplus
\$117,607 making in all a total cash surplus
of \$517,607 to protect its policy-holders
against unexpected contingencies. In ad-
dition to these cash items it has a subscri-
bed capital of \$100,000 not called up. Re-
garding the security of the London Mutual
the inspector reports that the amount of
unclear premium it should have on hand is
\$290,309. To make up this amount in
cash a second call would have to be made
on the premium notes for a large amount,
leaving a surplus of only \$74,218, even if
there were no bad debts, and this surplus
is made up wholly of the unpaid balance
of premium notes already heavily assessed.
The company reports the losses adjusted
but unpaid at the close of the year at \$6-
387, but the Inspector of Insurance finds
that the liability for unpaid losses at the
end of the year was \$20,286. The cash on
hand to pay these losses only amounted to
\$13,911.
In view of the foregoing facts farmers
will have no difficulty in deciding as to the
company in which they should be insured.

CORRESPONDENCE.
THE PULP MILL.

To the Editor of the Fenelon Falls Gazette.
Sir,—
Having been in some measure instru-
mental in getting the Pulp-Mill located
here, I have been, to a certain extent, held
responsible for its good behaviour. With
regard to its "ill savour" with which we
have been troubled for the last few months,
I am authorized to make the following ex-
planation. The Company were induced to
sign the agreement with the gentlemen
possessing the patent for the new process
of making liquor for the manufacture of
pulp. When they signed the agreement
they were not aware that its smell was so
offensive. The agreement was for three
months. Before the time was up the Com-
pany gave the gentlemen notice that they
were to discontinue the new process, as it
did not realize expectations. It was then
represented to the Company that the pro-
cess had not been rightly introduced, and
they begged for a further term, which was
granted. It has, under the different man-
agement, been found to be all that was
claimed for it, and the Company have de-
cided to continue it. In the meantime it
will be discontinued until a condenser is
constructed, which will render it harmless
and inoffensive.
It was want of railway facilities that in-
duced the Company to remove their mill
from Diseronto. Since the building of the
Napane, Tamworth & Quebec Railway that
want has been fully supplied, and the
Company would now rather have their mill
back in its old place than here. It will pay
us to bear a little rather than lose the dis-
tribution of between \$30,000 and \$40,000 in
this neighborhood. It would not be all
loss, indeed, for we could have the mill for
a skating rink.
Yours,
Wm. LOGAN.

Snow to the depth of twelve inches
has fallen in the Eugadine valley in
Switzerland, and the temperature is two
degrees below freezing.

Storms and floods have destroyed
the crops at Gastin and Leinz Austria.
The country from Spital, in Carinthia,
to Oberdrauberg is submerged. Great
damage has been done to railways and
bridges.

C. Pinckle was arrested at Little
Rock, Arkansas, on July 12th, on the
charge of passing counterfeit money.
Pinckle lost a leg in the war as alleged.
Examination of his wooden leg discov-
ered the fact that he had arranged the inside
of it as a receptacle for the "queer."
It was stuffed with bills, some of which
were genuine. There were a number
of bills on the Bank of Prince Edward
Island at Charlottetown, of the denomi-
nation of \$10 and \$20, which passed
readily through the city banks. Pinckle
was gaoled.
