GAS.—(VITALIZED AIR.)

Go to J. NEELANDS, Dentist, Lindsay, if
you want teeth extracted positively with-
out pain. Gas has been given by him with
great success for over 21 years. He studied
with Dr. Colton, of New York, the inven-
tor of gas for extracting teeth. Numbers
of persons are wearing artificial teeth made
by Mr. Neelands 20 years ago, and never
required any repairs. Gold crowns, porce-
lain crowns and bridgework done. Visits
Fenelon Falls, McArthur House, on the
third Tuesday of every month. Call early
in the day. 40-t.f.

Cobocook,
Purchaser for H. D. McCaffrey,
Oswego, N. Y.

INSURANCE.

THE ROYAL CANADIAN INSURANCE
Co. issues by far the best Farm policy
in Canada.

JOHN AUSTIN,
Agent.

Fenelon Falls, June 12th, 1890. 17.

—THE—

**ROYAL CANADIAN
INSURANCE COMPANY,**

vs.

**THE LONDON MUTUAL,
FOR FARMERS.**

The Royal Canadian offers the following
advantages over the London Mutual:

1. If a building worth \$1200 is insured
for say \$1000, the Royal Canadian is obli-
ged to pay \$1000, if a loss occurs. In such
a case the London Mutual is obliged to pay
only two thirds of the cash value, or \$800.
2. If a horse worth \$90 is killed in the
fields by lightning, the Royal Canadian is
obliged to pay \$90. The London Mutual
pays only \$60.
3. For a cow worth \$30 killed by light-
ning the Royal Canadian pays \$30. The
London Mutual pays only \$20. For other
animals the Royal Canadian pays the full
value. The London Mutual pays not more
than \$5, no matter how valuable the animal
may be.

4. In the Royal Canadian animals are
insured against lightning while at pasture
anywhere. In the London Mutual they are
insured while pasturing on the premises of
the insured only.

5. When articles are insured specifically,
such as musical instruments, the Royal
Canadian is obliged to pay the full amount
insured up to the cash value of the article.
The London Mutual pays only two-thirds
of the cash value, no matter what the in-
surance may be.

6. When "ordinary contents" of out-
buildings are insured by the Royal Canadian
ALL implements are included. In the Lon-
don Mutual only one reaper and one mower
are included, no matter how good others
may be.

7. When the outbuildings are not joined
to each other the Royal Canadian insures
under one sum the "ordinary contents" of
all building not cut off by a distance greater
than 40 ft., the same as if the contents
were all under one roof. The London Mut-
ual requires a separate sum on the con-
tents of each building, if the distance is
more than 12 ft. This is a very important
difference in many cases.

8. In the Royal Canadian it is a part of
the contract that standard STEAM THRESHERS
may be used without a special permit and
without any restriction as to the distance
from stacks or buildings, caretakers, rails
of water, kind of fuel or direction of the
wind. Many of the policy holders in the
London Mutual were obliged to run their
own risk while threshing last season, be-
cause it was found to be impossible to com-
ply with the conditions of their permit.
When a farmer pays for insurance he should
secure a policy which will hold him safe
when it is most required.

9. The Royal Canadian is obliged to pay
its losses within sixty days and usually
takes much less. The London Mutual need
not pay for ninety days, and since it has
become so hard up as to be obliged to bor-
row money largely, it usually takes about
the full time allowed.

10. The Royal Canadian policy is subject
to the statutory conditions only. It has
none of the numerous variations against
the policy-holder printed in red ink on the
back of the London Mutual policy.

11. As to security, the inspector of in-
surance reports that the Royal Canadian has
\$202,758, the amount he estimates to be
necessary to enable the company to carry
out all its engagements with its policy
holders. Besides this he reports that it has
to the good the \$100,000 capital paid in
cash by the shareholders, and a net surplus
\$117,607 making in all a total cash surplus
of \$517,607 to protect its policy-holders
against unexpected contingencies. In ad-
dition to these cash items it has a subscrib-
ed capital of \$100,000 not called up. Re-
garding the security of the London Mutual
the inspector reports that the amount of
unearned premium it should have on hand
is \$290,309. To make up this amount in
cash a second call would have to be made
on the premium notes for a large amount,
leaving a surplus of only \$74,218, even if
there were no bad debts, and this surplus
is made up wholly of the unpaid balance
of premium notes already heavily assessed.
The company reports the losses adjusted
but unpaid at the close of the year at \$6-
387, but the Inspector of Insurance finds
that the liability for unpaid losses at the
end of the year was \$20,286. The cash on
hand to pay these losses only amounted to
\$13,911.

In view of the foregoing facts farmers
will have no difficulty in deciding as to the
company in which they should be insured.
For insurance apply to
S. CORNELL,
Agent, Lindsay.

17-3m.

**Dominion Messenger Pigeon Asso-
ciation.**

An association under the above title
is now in process of organization, having
for its object the encouragement and
development of a messenger pigeon ser-
vice throughout the Dominion. The
necessity for an efficient messenger
pigeon service as an auxiliary in naval
and military defence is beyond question.
The importance of such a service is so
well recognized that the governments of
all the leading countries on the conti-
nent of Europe have within the last
few years established extensive pigeon
systems, and make full annual appro-
priations for their efficient maintenance.
The United States are now introducing
the system. From the interest already
taken in the breeding and training of
messenger pigeons in Canada, evinced
by the large number of existing isolated
lofts, both civil and military, it is con-
fidently expected that the formation of
the association will give an impetus
and useful direction to the work now
being carried on. By combining inter-
ests the association will enable its mem-
bers to obtain birds of undoubtedly good
strain at moderate cost, to partici-
pate in Dominion and provincial
matches, and in many other ways to
obtain the advantages that a union of
large numbers possesses over individ-
uals or small clubs. Much encourage-
ment has already been received in the
different provinces, both from the mili-
tary and civil elements, from the mem-
bers of the Dominion and Provincial
Governments, and many other promi-
nent persons.—*Empire.*

A Sweeping Reform.

The Farmers' Alliance promises to
overturn some of the customs of legis-
lators in States where it has gained
control, and to give the people an old-
fashioned plantation style of procedure.
An alliance man presents this pleasing
picture of the designs of the organiza-
tion on the Government of Georgia:
"We'll show them politicians how to run
a Legislature when our boys get there.
The boys'll eat breakfast at sun-up,
just like they do at home, and in an
hour more you'll hear a horn blow at
the Capitol, and they'll all be there and
go to work, and there won't be any
fooling around, and no excuses nor
absentees, nor going down town to get
a drink, nor running off on excursions.
The clerk shan't have fourteen assist-
ants to help him, but shall do the clerking
himself. The last session cost \$150-
000,000, but the next won't cost \$50-
000. We are going to rent out about
half the State House. Every one of
them stall-fed fellows has got a front
room and a back room, a sanctum and
a sanatorium, and a \$50 sofa to sleep on
in the cool of the afternoon, and they
have their business hours just like the
banks, and you can't see 'em only when
you don't want to see 'em, and they
haven't got to go to mill either, or take
up the fodder, dog-gone 'em. Oh, we'll
straighten out their trace-chains when
we get the boys there. We are going
to run the machine in a common sense
farmer way, without any red tape or
salmagundi, and if the State's judges
and solicitors don't do better than
they've been doing we'll turn 'em out,
and put in some old-fashioned farmers
who don't know much law but do a
power of gospel and high natural
justice."

Floods have caused considerable dam-
age at Juarez, Mexico.

The panel of jurors, 72 in number,
for the Burchell trial has been selected.

Dr. Richard Wheatley writes to the
Pittsburg Christian Advocate that in a
single New York Synagogue "there
are 40 men who know the whole Hebrew
Bible by heart."

One of the habits of Prince Bismarck
at Kissingen is to get weighed every
day. His weight is now 205 pounds.
In 1879 he reached his highest point,
247 pounds, but of late years he has
been losing flesh, slowly but surely.

On and after the 1st of October Kaiser
Wilhelm will publish a newspaper,
to be inspired directly by himself, and
to be the official exponent of his views
on all subjects, military, civil and poli-
tical. The staff has already been ap-
pointed.

The Prince of Monaco has ordered a
yacht of 500 tons burden, to be fitted
with an aquarium and a laboratory for
the storing of all kinds of fishes and
marine flowers which his Serene High-
ness may obtain during his extended
ocean voyages and dredging.
