

Blown to Eternity.

TWENTY MEN ANNIHILATED BY A DYNAMITE EXPLOSION.

WHITE PIGEON, Mich., Sept. 5.—The dynamite factory of F. A. Reynolds & Co., near this place, exploded yesterday. It is estimated that there were about 20 tons of dynamite in the building, which was a three story brick. Scarcely a vestige of it remains. Sixteen workmen, mostly Swedes and Norwegians, were completely annihilated. Not an atom of them is to be found, and it is impossible to learn their names, as the company's books, pay rolls, etc., are lost. As it was early none of the proprietors were in the building at the time of the explosion. The loss is estimated at \$35,000. The concussion in White Pigeon was awful and citizens were badly frightened. Goods in the stores were thrown from the shelves, and houses rocked to and fro. The spire of the German Lutheran church fell with a loud crash, and the walls of several buildings are cracked and damaged.

Train Robbers Shot.

BLOODY BATTLE BETWEEN OFFICERS AND BANDITS.

TEVALDE, Texas, Sept. 5.—The train robbers who were thought to have escaped across the Rio Grande River with a sum, said to \$20,000, which they secured from the express car on the Southern Pacific railroad, were met yesterday by a body of rangers who had been in pursuit and a battle took place. From reports received thirteen of the robbers and two rangers were killed, and several on both sides were wounded. The rangers followed what was thought to be the course pursued by the robbers through the mountain passes, and although they had at several times lost the trail they pulled up on the robbers on Thursday. They discovered that the men were but a few miles ahead of them and were headed toward Los Vegas. The pursuers pulled upon the bandits strongly and made better time, for after pushing on a portion of the night they were rewarded yesterday by catching the outlaws. The engagement was short as the bandits were outnumbered. They held the best position, however, and stood their ground until their dead and wounded were so numerous that resistance was impossible, and then the remainder fled. It is said that two men escaped.

The Perils of the Sea.

A MAD SAILOR CARVES THE CAPTAIN AND HIS MATE.

LONDON, Sept. 7.—A startling story is telegraphed from Deal, Kent, a seaside town near Dover. Loud cries for help, mingled with oaths and curses, were heard early this morning some distance seaward and almost directly off the town of Deal. Two local policemen immediately entered a boat and put to sea to inquire into the mysterious cries. The police, however, had been preceded and distanced by two Deal boatmen, who also went to the rescue. The boatmen found a boat of the ship G. L. Waters and witnessed a horrible fight which was going on in the small craft. Crouching in the stern of the boat was her captain, holding a little boy in his left arm, and a young sailor, both desperately defending themselves against the attack of another man. The latter, according to the boatmen, was an athletic seaman, mad drunk, who was attacking the captain and the young sailor with his sheath knife. Upon the approach of the boatmen the drunken seaman threw the oars overboard, attacked them with his knife and refused to allow them to rescue the occupants of the small boat. The mad seaman beat off the boat, and later on also beat off the police who came upon the scene. The result was that the ship's boat was allowed to drift away in the mist and eventually disappear. Later in the day search for the drifting boat and its occupants was renewed, but up to 3 p. m. nothing has been received from Deal on the subject.

The wheat, potato and barley crops in Western Ireland are rotting on account of long continued rain.

Distress among Russian peasants is increasing. Moscow Council will likely compel all employers to supply their men with rye bread at the nominal price.

The steamer Arizona arrived in New York, Monday, with eight members of the ship Sea Gull, which was wrecked on the African coast. They were the only survivors of a crew of 26.

The Maine coast dwellers have peculiar remedies of their own for all sorts of diseases, and among them that prescribed as a sure cure for cancer by an ancient mariner of Hantswell is the queerest. This old salt declares that a poultice made from a piece of the belly of a No. 2 mackerel will draw any cancer out by the roots. A No. 1 mackerel, he says, is too fat, and a No. 3 not fat enough.

THE ROYAL CANADIAN INSURANCE COMPANY,

THE LONDON MUTUAL, FOR FARMERS.

The Royal Canadian offers the following advantages over the London Mutual:

1. If a building worth \$1200 is insured for say \$1000, the Royal Canadian is obliged to pay \$1000, if a loss occurs. In such a case the London Mutual is obliged to pay only two thirds of the cash value, or \$800.

2. If a horse worth \$90 is killed in the fields by lightning, the Royal Canadian is obliged to pay \$90. The London Mutual pays only \$60.

3. For a cow worth \$30 killed by lightning the Royal Canadian pays \$30. The London Mutual pays only \$20. For other animals the Royal Canadian pays the full value. The London Mutual pays not more than \$5, no matter how valuable the animal may be.

4. In the Royal Canadian animals are insured against lightning while at pasture anywhere. In the London Mutual they are insured while pasturing on the premises of the insured only.

5. When articles are insured specifically, such as musical instruments, the Royal Canadian is obliged to pay the full amount insured up to the cash value of the article. The London Mutual pays only two-thirds of the cash value, no matter what the insurance may be.

6. When "ordinary contents" of out buildings are insured by the Royal Canadian all implements are included. In the London Mutual only one reaper and one mower are included, no matter how good others may be.

7. When the outbuildings are not joined to each other the Royal Canadian insures under one sum the "ordinary contents" of all building not cut off by a distance greater than 40 ft., the same as if the contents were all under one roof. The London Mutual requires a separate sum on the contents of each building, if the distance is more than 12 ft. This is a very important difference in many cases.

8. In the Royal Canadian it is a part of the contract that standard STEAM THRESHERS may be used without a special permit and without any restriction as to the distance from stacks or buildings, caretakers, piles of water, kind of fuel or direction of the wind. Many of the policy holders in the London Mutual were obliged to run their own risk while threshing last season, because it was found to be impossible to comply with the conditions of their permit. When a farmer pays for insurance he should secure a policy which will hold him safe when it is most required.

9. The Royal Canadian is obliged to pay its losses within sixty days and usually takes much less. The London Mutual need not pay for ninety days, and since it has become so hard up as to be obliged to borrow money largely, it usually takes about the full time allowed.

10. The Royal Canadian policy is subject to the statutory conditions only. It has none of the numerous variations against the policy-holder printed in red ink on the back of the London Mutual policy.

11. As to security, the inspector of insurance reports that the Royal Canadian has \$202,758, the amount he estimates to be necessary to enable the company to carry out all its engagements with its policy holders. Besides this he reports that it has to the good the \$400,000 capital paid in cash by the shareholders, and a net surplus of \$117,697 making in all a total cash surplus of \$517,697 to protect its policy-holders against unexpected contingencies. In addition to these cash items it has a subscribed capital of \$100,000 not called up. Regarding the security of the London Mutual the inspector reports that the amount of unearned premium it should have on hand is \$290,399. To make up this amount in cash a second call would have to be made on the premium notes for a large amount, leaving a surplus of only \$74,218, even if there were no bad debts, and this surplus is made up wholly of the unpaid balance of premium notes already heavily assessed. The company reports the losses adjusted but unpaid at the close of the year at \$6,387, but the Inspector of Insurance finds that the liability for unpaid losses at the end of the year was \$20,286. The cash on hand to pay these losses only amounted to \$13,911.

In view of the foregoing facts farmers will have no difficulty in deciding as to the company in which they should be insured.
