

evening with his arm in a sling, and appears to be one of the kind of men it is difficult to hurt or discourage, remarked quite cheerfully, that he could get along pretty well at his work in the mill with one hand, and he thought his his finger would be all right in three or four days.

On Monday last Mr. Wm. Mann, who was helping to thresh at Mr. James Shankland's, had the first and second fingers of his right hand badly torn and the bone of the first broken between the concave and the cylinder of the machine. Dr. Graham dressed the fingers, which are healing rapidly.

Going for Deer.

The season for deer shooting opened yesterday, the 15th; but, if what we hear be true, dogs and guns were heard in the woods earlier in the week; but perhaps the owners hadn't got almanacs and so made a trifling mistake as to the date. As a rule a large party of the most ardent and enthusiastic of our village sportsmen leave here two or three days before the open season commences, so as to be on the ground ready for action by the morning of the 15th, but this year, the only two who (as far as we know) have yet gone are J. A. Ellis and Jas. Bray, who joined a party that passed through the Falls from Port Hope on Monday last. But others are preparing to follow, and next Monday morning Messrs. George Whistle, E. R. Edwards, John Jones, Jas. Arnold and Edward Avery will leave in canoes for Moose Lake, about 60 miles north of Minden, and expect to reach their destination by Wednesday of next week. We have an interest in wishing our local Nimrods good luck, as if they follow a time-honored precedent—a good-sized chunk of venison will be sent to the Gazette office a day or two after the hunters return.

THANKSGIVING DAY.—Thursday, November 12th, has been fixed upon as Thanksgiving Day, and a proclamation enjoining its general observance has been issued.

I have been requested by the Twine manufacturers to collect all outstanding accounts for same. Will those indebted to me let Twine kindly settle right away, as it passes out of my hands on the 1st of November.—JOSEPH HEARD.

THE SAW MILL.—The Napanee Paper Company's new saw mill on the shore of Cameron Lake commenced operations this week and has already cut a considerable quantity of shingles.

DENTAL.—Don't fail to call on J. Neelands, dentist, at the McArthur House on Tuesday, Oct. 26th. Mr. Neelands will have a complete gas apparatus for extracting teeth. Call early.

CORRECTIONS.—In noticing Mr. Sandford's mill, last week, we said that when the rolls were in it would turn out 25 barrels of flour per day, instead of which it ought to have been 40 barrels, which is a big difference. We thought our information was correct, but the party from whom we got it was mistaken.

SHEEP THAT ARE SHEEP.—Nine Southdown sheep owned by J. D. Naylor & Son, of Fenelon, took nine prizes at the Peterborough central exhibition about a month ago, and a week later they took all the prizes they competed for at the Lindsay central. It is vain to talk about beating this; but whose sheep can equal it?

BIG POTATOES.—On Tuesday last Mr. John McLeod, who lives near the south ward school house, brought us five potatoes, of the Beauty of Hebron variety, which weighed eight pounds. They were grown in about seven inches of soil, below which is almost solid rock. Mr. McLeod has more potatoes than he needs for his own use, and will sell a few bushels for seed to persons who would like to get some.

TEACHERS' CONVENTION.—The 28th semi-annual meeting of the West Victoria Teachers' Association, held in the Public School building, Oakwood, on the 8th and 9th inst. was well attended. Interesting and instructive papers were read on several subjects; each paper being fully and ably discussed. The programme was enlivened by readings, recitations and musical selections. On Thursday evening Mr. Reazin entertained a large audience with a description of his trip to the North-West. This was followed by a lecture from Rev. Mr. Young of Millbrook, the subject of which was "Education."

Smallpox is spreading in the Province of Quebec. Several inches of snow fell in the State of Vermont on Sunday.

ARE YOU DEAF, Or do you suffer from noises in the head? Then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure which cost comparatively nothing. A splendid work on deafness and the ear. Address **PROF. G. CHASE,** Montreal.
