

Carpets and Oil-Cloths, No. 9 Keenan's Block, Kent Street, Lindsay.

SHALL WE GIVE THANKS.—A clergyman's little boy who was asked, during his father's absence, to say grace at dinner, said: "No: I don't like the look of them 'taters.'" We are asked to keep November 12th as a thanksgiving day, but feel inclined to say: "No: we don't like the look of that subscription list." Will thirty or forty delinquents walk in between then and now and give us more cause for thankfulness?

ACCIDENTS.—Last Saturday a wagon with a horse-power on it went—at least, one wheel of it did—diagonally across Mr. George Goodhand's right foot, which was badly crushed and bruised, but luckily no bone was broken. On Monday Mr. John Brandon's little son George, about 9 years old, and Frank Rutherford, aged about 15, were splitting wood together. A stick that Frank was about to strike commenced to fall, and George, in attempting to catch it, had the end of the next finger to the little one on his left hand split open by the descending axe. On Tuesday news came that Mr. George Whistle, one of the hunters who left here on the 19th, had been rather badly hurt by falling between two rocks. The letter gave no particulars; but, as the party will be home this evening, we shall soon have them. Everybody is hoping that nothing serious has happened to the general George.

Samol has beaten Maud S.'s record. The Socialist Congress at Erfurt, Germany, developed into a very lively row. A serious outbreak of pleuro-pneumonia is reported from London, England. Under the eaves of one barn in Skowegan, Maine, are 13 nests of swallows. A terrific cyclone swept over northern Ohio on Monday night, doing great damage.

A flaw has been discovered in another of the new guns on board a British man-of-war. Fires in the Wisconsin river bottoms have destroyed thousands of tons of hay and other property.

It was currently reported in Ottawa on Tuesday night that Mr. Chapleau had resigned from the Government.

An electric drill in an Idaho mine recently performed the feat of boring a two-inch hole through twenty-feet of solid granite in four hours.

A new car of the Michigan Central railroad does the work of 300 men in scraping the dirt dumped on the sides of the track to the edges of the fill.

The band saw is fast superseding the circular saw for all kinds of work. The latest application is made by the tailors, who are using it with great success for cutting cloth.

Generosity is a national trait of the Chilians, and the American tramps who drift into Santiago are reputed to make from \$10 to \$20 a day by begging at the doors of the wealthy.

\$1. BEAUTIFUL GOLD WATCH. \$1.

Dean Bros., of Montreal, are now offering a beautiful engraved or plain, ladies' or gents' size, filed case Gold Watch for only \$1 00, to be paid after you have received it and have given it 30 days trial and found it just what they represent. It is a stem wind, stem set, fine movement, and warranted for over 10 years by the makers, and cannot be bought for less than \$30 00 in any retail store. Dean Bros. do this to advertise their New Blood, Liver and Stomach Pills, and consider that \$20,000 a year spent in this way will do more to advertise their business than any other method. Send them your address on a post-card, addressed DEAN BROS., Montreal, Que.—5.
