

SARATOGA CO. MIRACLE.

Helpless for Years and Excluded From Hospitals as Incurable.

The Remarkable Experience of Chas. Quant as Investigated by an Albany (N. Y.) Journal Reporter—A Story of Surpassing Interest.

Albany, N. Y. Journal, March 4th.

SARATOGA, March 4th.—For some time past there have been reports here and elsewhere in Saratoga county of a most remarkable—indeed, so remarkable as to be miraculous—cure of a most severe case of locomotor ataxia, or creeping paralysis, simply by the use of a popular remedy known as "Pink Pills for Pale People," prepared and put up by the Dr. Williams' Medicine Company, Morristown N. Y. and Brockville, Ont.

The story was to the effect that Mr. Chas. A. Quant, of Galway, who for the last six or eight years has been a great sufferer from creeping paralysis and its attendant ills, and who had become utterly powerless of all self-help, had, by the use of a few boxes of the Pink Pills for Pale People, been so fully restored to health as to be able to walk about the street without the aid of crutches.

The fame of this wonderful, miraculous cure was so great that the Evening Journal reporter thought it worth his while to go to Galway to call on Mr. Quant, to learn from his lips, and from the observation and testimony of his neighbors, if his alleged cure was a fact or only an unfounded rumor. And so, he drove to Galway and spent a day and a night there in visiting Mr. Quant, getting his story and interviewing his neighbors and fellow townsmen.

It may be proper to say that Galway is a pretty little village of about 400 people, delightfully located near the centre of the town Galway, in Saratoga county, and about 17 miles from Saratoga Springs. Upon inquiry, the residence of Mr. Charles A. Quant was easily found, for everybody seemed to know him, speak well of him and to be overflowing with surprise and satisfaction at his wonderful cure and restoration to the activities of enterprising citizenship, for Mr. Quant was born in Galway and had spent most of his life there. Mr. Quant was found at his pretty home, on a pleasant street nearly opposite the academy. In response to a knock at the door it was opened by a man who, in reply to an inquiry if Mr. Quant lived there and was at home, said: "I am Mr. Quant. Will you come in?"

brought home, where it was thought that death would soon come to relieve me of my sufferings. Last September, while in this helpless and suffering condition, a friend of mine in Hamilton, Ont., called my attention to the statement of an John Marshall, whose case had been similar to my own, and who had been cured by the use of Dr. Williams' Pink Pills for Pale People.

In this case Mr. Marshall, who is a prominent member of the Royal Templars of Temperance, had after four years of constant treatment by the most eminent Canadian physician been pronounced incurable, and was paid the \$1000 total disability claim allowed by the order in such cases.

Some months after Mr. Marshall began a course of treatment with Dr. Williams' Pink Pills, and after taking some 15 boxes was fully restored to health. I thought I would try them and my wife sent for two boxes of the pills and I took them according to the directions given on the wrapper on each box. For the first few days the cold baths were pretty severe, as I was so very weak, but I continued to follow instructions as to taking the pills and treatment, and even before I had used up the two boxes of pills I began to feel beneficial effects from them.

My pains were not so bad; I felt warmer; my head felt better; my food began to relish and agree with me; I could straighten up; the feeling began to come back into my limbs; I began to be able to get about on crutches; my eye came back again as good as ever, and now, after the use of eight boxes of the pills—at a cost of only \$4.00—see!—I can with the help of a cane only, walk all about the house and yard, can saw wood and on pleasant days I walk down town.

My stomach trouble is gone; I have gained 10 pounds; I feel like a new man, and when the spring opens I expect to be able to renew my org and piano agency. I cannot speak in too high terms of Dr. Williams' Pink Pills for Pale People, as I know they saved my life after all the doctors had given me up as incurable.

Other citizens of Galway, seeing the wonderful cure of Mr. Quant by the Pink Pills for Pale People, are using them. Frederick Sexton, a sufferer from rheumatism, said he was finding great benefit from their use, and Mr. Schultz, who had suffered from chronic dysentery for years, said he had taken two boxes of the pills and was already cured. Mr. Quant had also tried Faith cure, with experts of that treatment in Albany and Greenville, S. C., but with no beneficial results.

A number of the more prominent citizens of Galway, as Rev. C. E. Herbert, of the Presbyterian church; Prof. James E. Kelly, principal of the academy; John P. and Harvey Crouch, and Frank and Edward Willard, merchants, and many others to whom Mr. Quant and his so miraculous cure by the use of Dr. Williams' Pink Pills for Pale People, are well known, were pleased to have the opportunity of bearing testimony to the high character of Mr. Quant, and of verifying the story of his recovery from the terrible affliction from which he had for so long a time been a sufferer.

Truly, the duty of the physician is not to save life, but to heal disease.

The remarkable result from the use of Dr. Williams' Pink Pills in the case of Mr. Quant induced the reporter to make further enquiries concerning them, and he ascertained that they are not a patent medicine in the sense in which that term is generally used, but a highly scientific preparation, the result of years of study and careful experiment. They have no rival as a blood builder and nerve restorer and have met with unparalleled success in the treatment of such diseases as paralysis, rheumatism, sciatica, St. Vitus' dance, palsy of the heart, that tired feeling which affects so many, and all diseases depending upon a watery condition of the blood or shattered nerves.

Dr. Williams' Pink pills are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they affect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature.

On further inquiry the writer found that these pills are manufactured by The Dr. Williams' Medicine Co., Brockville, Ont., and Morristown, N. Y., and are sold in boxes, (never in bulk by the hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail, from Dr. Williams' Medicine Co., from either addresses. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies, or medical treatment.

RO BINSON CRUSOE'S HOME.

How the Isle Juan Fernandez Appears to the Tourist.

The first thing a tourist does, on going ashore on Juan Fernandez, is to start for the famous Lookout, from the top of which, says the historian, poor Crusoe used to watch for a sail, "and yet no sail from day to day." But he is likely to be long on the way, though it is less than a mile from the landing place, because there are several points of interest to be viewed en route, says a writer in the San Francisco Call.

First, there are the people—a hundred hands to be shaken and a thousand eager questions to be answered; for the arrival of a ship is by no means a matter of every day, and when one does appear in the harbor the lonesome islanders, old and young, troop down to meet her. Though voluntary exiles in the beautiful place, where nature has been lavish in supplying everything necessary to sustain life without labor, the colonists pine for news from the distant world, whose echoes come to them like angels' "few and far between."

landing, set in the midst of orchards on the side of a hill sloping down to the sea, and the oppressive silence of Selkirk's time has given place to the bleating and lowing of flocks and herds, the merry shouts of children and sounds of human activity. The houses are extremely picturesque, and made of the bright yellow straw of wild oats, woven in and out through bamboo wattles and thatched with the same. Their high, peaked roofs project all around far beyond the walls, and the doorways are shaded by straw thatched porches, reminding one of French Canadian cottages or chalets in the valley of the Seine. Each little home is inclosed within a wall of stones and brushwood, its rustic gateway overrun with luxuriant vines, and within the inclosure are granaries, storehouses and other outbuildings, all set up on poles to keep them out of the water during the heavy rains of June, July and August.

Whoever goes to Juan Fernandez finds himself enthusiastically welcomed by every soul on the island, and receives just as many pressing invitations to lunch, to dine and to stop over until some other boat comes along, as there are homes on the island; and if he has been so thoughtful as to bring along a few old books or newspapers he has earned the lasting gratitude of the people. Beside caring for their flocks, the settlers raise fruits and vegetables to sell to passing vessels. The soil is wonderfully productive especially in the northern valleys where decade vegetable matter and rich deposits of burned earth have washed down from the mountain. Grass and oats spring up spontaneously in the open space, and vegetables of all kinds grow abundantly wherever the seeds are scattered. Wild grape vines and fig trees, bearing excellent fruit, flourish on the slopes, and there are many natural orchards grown from seeds planted a century ago by Selkirk and other mariners.

300,000 GERMANS COMING TO AMERICA.

They Will Leave the Volga Provinces of Russia for the United States.

ST. PETERSBURG, Mch. 10.—The 300,000 Germans who are preparing to leave the Volga provinces for the United States, are very different from the natives of Germany. They are nineteenth century Rip Van Winkles, gaunt in form, wearing garments of the style of a hundred years ago, and having the furniture yet that their ancestors brought from Germany to Russia. They are excellent people, industrious in their ways and honest in everything, but entirely ignorant of the world as it really is. The Russians look upon them as foreigners, and are apparently willing to let them go.

At Saratof the Russian Government feeds the Russians, while it allows the Germans in equally necessitous circumstances to starve. The salaries of the German clergy and schoolmasters, who are sober and faithful and in these respects in marked contrast to the Russians, have gone unpaid for years. The people have been reduced to the necessity of using manure for fuel, and this makes the atmosphere of the village at times intolerable.

A Question.

How can we raise more corn to the acher? Why, of course by using Putnam's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is sure, safe and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against those dangerous substitutes offered for the genuine Putnam's Extractor. N. C. Elsewhere in this issue we publish the particulars of a remarkable cure that fairly outrivals the celebrated case of John Marshall, of Hamilton, which created such a sensation throughout the country. The particulars of this case are vouched for by the Albany Evening Journal, recognized as the leading newspaper at the New York State capital, and one of the leading papers of the United States. There is, therefore, no room to doubt that the particulars of the case are accurately and carefully set forth, in every respect true, and must therefore prove of the deepest interest to our readers, we therefore commend the article to their careful perusal.

This is a meaningless sentence, but it contains all the letters of our alphabet. Five of these letters spell "woman," and large numbers of women believe in the virtues of Dr. Pierce's Favorite Prescription—a strictly vegetable compound, for her use only, and an untailing cure for the many ills that beset her. It recuperates wasted strength, restores the functions to a normal condition, and fits her to bear and rear healthy offspring; promotes digestion, purifies the blood, and gives activity to the bowels and kidneys. In a word, it is woman's cure and safeguard. Guaranteed to give satisfaction, or its price (\$1.00) refunded.

Blood Will Tell.

Of course it will—that is if it is good healthy blood. It will glow in the cheek, and tell the story of perfect physical health. If it does not, if the complexion is devoid of color, the muscles weak and flaccid, something ought to be done about it at once, for in such cases delays are dangerous. For torpid liver, "biliousness," and the thousand and one ills to which these conditions of the system lead, there is no remedy in the world equal to Dr. Pierce's Golden Medical Discovery. Boils, pimples, eruptions, scrofulous sores, salt-rheum, and all kindred diseases are cured by it.

When honesty is a man's policy it loses its virtue.

Behind the Scenes.

On the stage the tinsel, the glitter, the powder and the paint, show forth the most, but step behind the scenes, and you will behold the truth. The chorus girls are not all "fancy paints them," but rather what they paint themselves; just so with many of the flaming advertisements of so-called "catarrh cures." Get back of the scenes, and they are not cures. The real one, and the only remedy that is a cure, is Dr. Sage's Catarrh Remedy. Lift the curtain, and you will find the naked truth to be, that this Remedy is the one that cures the worst cases of Catarrh in the Head, and no mistake. It is also a remedy in all catarrhal conditions, such as Catarrhal Headache, Catarrh of the Throat, etc.

Out of weeks of preparation there bloom the fashions and fancies for spring wear all in grand array. The store is a sight, that's true. It has worked itself up to its full capacity, and tried to discount, over and again, it's own past. You're welcome to see and pass judgment.

You buy dry-goods, house-furnishings and what not, all the time. You either buy of us or you don't. The "don't's" are the ones we're after. Every store, we're willing to believe, strives to be fair and prompt, else they'd lose your confidence and custom; so you see we aren't a bit more particular than other folks—other stores. Very often, though, one store possesses much greater facilities than another; infinitely greater assortments; lower prices, because less grasping for greedy profits, quick in filling orders and delivering goods; careful about having nothing sent out that isn't fresh, new, stylish, trustworthy.

We think we are that one store. And more than that. In merchandise, in bigness, in opportunities, this store wins. It stands on record as the largest, most modern and complete dry goods house in Canada. For convenience, utility and adaptiveness it isn't surpassed by any in the Dominion.
