THANKS.

After a successful year's business, we thank our many customers and friends for their liberal patronage. We look back upon the expired year and its business with pleasure. Your favors have been many, and your kind words have done us good. We have seldom heard a complaint, and you have generously over-looked our faults. We commence the new year with the determination to retain our reputation for keeping the best lines of Groceries that can be procured. We have purchased largely in Teas, and can give you extra value.

We have an enormous stock of Boots and Shoes ordered for Spring and Summer trade. Among the nu-merous samples to choose from we have selected stylish lines of good quality, and by paying spot cash we get them at a low figure; so bargains for the buyers will be the result. To cash buyers we offer more in-ducements. We want to encourage you in helping us to do a cash trade, which you will find a benefit to yourselves as well as to us.

H. AUSTIN'S OLD STAND.

Arnold & Graham,

Fenelon Falls, January, 1893.

The Zante Earthquakes.

THE RECENT DISTURBANCES MORE SE-
RIOUS THAN ANY IN MODERN TIMES
—PEOPLE PANIC STRICKEN.

ATHENS, Feb. 3.—The earthquakes that have occurred during the past two or three days at Zante have been the worst that have done damage on that island in modern times, and no one can now tell when the disturbances will cease. The shock experienced last night did enormous damage, in fact the whole island was devastated. To add to the terror of the inhabitants a most terrific thunderstorm prevailed. The rain fell in torrents, and was accompanied by large hailstones. The blinding flashes of lightning, the roaring thunder and the rumbling beneath the surface of the swaying earth caused many people to believe that the end of all things had come. The people were panic-stricken, and so great was the fear inspired that many persons lost their senses and are now hopelessly crazy. Last night's shocks destroyed the bread ovens in the city of Zante, rendering it impossible for the greater portion of the inhabitants to procure that most necessary article of food. The minister of the interior has arrived at Zante, and King George will start for there on Sunday. A British war ship and three vessels belonging to the Greek navy arrived at the island to-day with supplies of tents and medicines. Athens, Feb. 8.—The island of Zante is shaken several times daily by earth-
quakes. The king will remain there some time to superintend the building of huts for the homeless, and to assist the relief committee in Zante city. The queen is still travelling from village to village giving generously to the im-poverished and trying to encourage the panic-stricken. The roads over which she travels are crowded with frightened women and children. Two Italian men-of-war have taken supplies to Zante

After Canada.

MR. CUMMINGS INTRODUCES A BILL TO
ADMIT HER TO THE UNION.

WASHINGTON, Feb. 4.—Mr. Cum-mings of New York introduced in the House on Friday a bill providing for admission into the Union of all states formed in the Dominion of Canada, and for their representation in Congress in accordance with their population, upon their own application and with the consent of Great Britain. An ap-propriation of \$250,000 is authorized to defray the expenses of mission and negotiation to fix and agree upon the terms of admission.

The last section of the bill provides that there shall be commercial union between the two countries until the Dominion is admitted, that import duties or other taxes shall not be levied by this country on Canadian products, pro-vided the Dominion of Canada admits free of duty the products of this country. The bill was referred to the Committee on Foreign Affairs.

Ontario's Good Friend.

Under the above heading the Toronto Telegram says:—"Injustice such as that which inspired the jeers of the president of the Young Conservatives at Collingwood neither helps Meredith nor harms Mowat. It was scarcely fair in Mr. Armstrong to say that Oliver Mowat had been liberal only in pro-viding himself and his friends with fat offices. The fat office which Oliver Mowat has occupied has been financially no gold mine to him. The greatest of all Canada's constitutional lawyers has given this province, for five thousand dollars per annum, attainments that would easily have yielded him, in private practice, a yearly income of four or five times that amount. Had Oliver Mowat sold at their market value the abilities which he has for years rented to this province for a song, he could have laid up a fortune that would have placed all his children beyond the need of a public salary. The idea is absurd that either Oliver Mowat or his sons are getting a fatter living than they would have got if the head of the family had never entered politics. Fair play demands the admission that the little premier and all his children are poorer in dollars than they would have been if Oliver Mowat had sought wealth as diligently as he has tried to serve Ontario."

Canadian Order of Foresters.

The Canadian Order of Foresters is a fraternal benevolent society, incor-porated in 1879, and registered under the insurance corporation act, 1892, of Ontario. The objects of the society are to furnish its members with sick and funeral benefits and an insurance of one or two thousand dollars. The payment of these benefits range from about one dollar to one dollar and fifty cents per month, according to the age of the member, and the amount of insurance carried. The membership is composed of men only, and when admitted they must be between the ages of eighteen and forty-five. The present number of members is over 16,000, and the society has a cash surplus on hand for the payment of the insurance of over \$215,000, \$50,000 of which is in Dominion of Canada bonds, and the balance is invested in the best monetary institutions of the Province. In addition to this, courts have about half a million of dollars in their treasuries for the pay-ment of the sick and funeral benefits. The high secretary of the Order is Mr. Thomas White of Brantford, and it is expected that a court of this popular and purely Canadian society will shortly be organized here.—49-3a.

James Mitchell, his wife and child were frozen to death in a frame house, seven miles north of Topeka, Kansas, on Thursday of last week.

The date for the bye-election for the vacancy in the legislature caused by the death of the late N. G. Bigelow has been fixed. Nominations will be made on Tuesday, Feb. 21, and polling will take place on Tuesday, Feb. 28.

Dogs are slaughtered for culinary purposes in considerable numbers at Munich. The friend of man comes to the table not only disguised as sau-sages, but dressed in various forms, and with divers sauces, without any attempt to resort to innocuities. This departure in gastronomy is said to have been introduced by Italian laborers who have settled in the Bavarian capital.

The Macdonald Bust in St. Paul's Cellar.

Mr. J. Castell Hopkins has trans-mitted to the Spectator a letter from "a friend in England," contradicting what he calls "the absurdly ignorant article of the Hamilton Times," with regard to the location of the bust of Sir John Macdonald in the cellar of St. Paul's Cathedral, next to the monument of a London stationer, whose only title to fame was that he married somebody's daughter. Mr. Hopkins's correspondent says "the crypt of St. Paul's is the Metropolitan Valhalla, as is the floor of Westminster Abbey," and he adds that "there is no charge for seeing the crypt." We beg to assure the Spectator, Mr. J. Castell Hopkins and the "friend in England" of the Canadian apostle of Imperial Federation that we are not worrying about the aforesaid bust. We simply stated the facts as they appeared to two Hamilton gentlemen, Mr. George E. Tuckett and Mr. John Billings, one a Conservative and the other a Liberal, who together explored the cellar and gazed upon the bust and its surround-ings, after paying a sixpenny fee for the privilege. Both these gentlemen have traveled extensively on the Euro-pean continent, and are competent to form a fair idea of the fitness of things. They know a cellar when they see it. Mr. Hopkins's "friend" may call it a Valhalla or a Kalamazoo, but the change of name does not alter the fact. The cellar's a cellar for a' that.—Hamilton Times.

An M. D. Struck off the Rolls.

TORONTO, Feb. 7.—Yesterday at Os-goode Hall, judgment was given in the trouble between the College of Physicians and Surgeons and Dr. Nelson Wash-ington, of this city. The college author-ities last summer struck the doctor's name off the college register, claiming that he had improperly advertised him-self in Ottawa, Kingston and other cities, and for publishing in the papers certificates of those he had cured. They also charged him with having led igno-rant people to believe they had catarrh by publishing symptoms of the disease. The judgment as delivered yesterday sustains the action of the college author-ities, and Dr. Washington's name is therefore struck off the list as a practising physician of Ontario.

Estimates of the leading Montana cattlemen are that at least 25 per cent. of the cattle on the ranches have been lost in the storms and terrible cold weather of the past two weeks.
