On his return to Toronto, the reporter called at the store of Messrs. Hugh Miller & Co., 167 King street east, to hear what that veteran druggist had to say about Dr. Williams' Pink Pills. He remembered Mr. O'Neil getting the Pink Pills, and on a second visit Mr. O'Neil had told him that Pink Pills had cured his son. Mr. Miller, in answer to a question as to how this preparation sold, said that of all the remedies known as proprietary medicines Pink Pills was the most popular. He said he sold more of these than he did of any other remedy he ever handled. This is valuable testimony, coming from a man like Hugh Miller, who is probably the oldest and most widely known druggist in Toronto. The Dr. Williams' Medicine Co. are to be congratulated on having produced a remedy which will give such results, and which can be vouched for by the best dealers in the province.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after affects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions and are a specific for the troubles peculiar to the female system, and in all cases arising from mental worry, overwork, or excesses of any nature.

Bear in mind Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or one time knew no one more popular than hundred, and any dealer who offers sub- "Jemmy" Miles. FRIED ICE-CREAM.

Good.

A Philadelphia firm makes a specialty of fried ice-cream, which is pronounced delicious by all who taste it. A small, solid cake of the cream is enveloped in a thin sheet of pie crust, and then dipped in boiling lard or butter long enough to cook the outside to a crisp. Served immediately, the ice cream is found to be as solidly frozen as when it was first prepared. The process of frying is so quickly accomplished and the pastry is so good a protector that the heat has no chance to reach the frozen

Baked ice cream which has a meringue top is another caprice of cooks that is toothsome, though this tampering with a delicacy that is perfection when it is in its perfected, normal condition seems unnecessary. Good ice cream is as good as can be.

Speaking of the dish, a woman recalled the other day the fact that it was first introduced at the national capital by Mrs. Alexander Hamilton. She used to tell with amusement of the delight with which President Jackson first tasted it, and how he promptly decided to have ices at the Executive Mansion. Accordingly, guests at the next reception were treated to the frozen mystery, and afforded considerable fun to the initiated by the reluctance with which they tasted it. Those from the rural districts, especially, first eyed it suspiciously, then melted each spoonful with the breath before consuming it. Their distrust was soon removed, however, and plates were emptied with great rapidity.

Consumption—Low Condition

Wonderful Results From Taking Hood's Sarsaparilla.

Miss Hannah Wyatt

Toronto, Ont.

"Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, in a very low condition with consumption of the lungs and bowels, and weak action of the heart. The trip across the water to this country seemed to make her feel better for a while. Then she began to get worse, and for 14 weeks she was unable to get off the bed. She grew worse for five months and lost the use of her limbs and lower part of body, and if she sat up in bed had to be propped up with pillows. Physicians

Said She Was Past All Help and wanted me to send her to the 'Home for Incurables.' But I said as long as I could hold

my hand up she should not go. We then began

to give her Hood's Sarsaparilla. She is getting strong, walks around, is out doors every day; has no trouble with her throat and no cough, and her heart seems to be all right again. She has a first class appetite. We regard her cure as nothing short of a miracle." W. WYATT, 89 Marion Street, Parkdale, Toronto, Ontario.
