A Tariff Catechism.

The following short catechism, says the Montreal Herald, was found among the papers of George Otis, a wealthy American recently deceased. It is published here to show what a queer way he had of looking at things. Still, that may have been because the things are so very queer.

Q. What is the meaning of the word "tariff"?

A. It is called so because, hundreds of years ago, sea pirates at Tariffa, Spain, forced every passing vessel to pay for the privilege of going into and from the Mediterranean sea.

Q. What is its meaning now?

A. A certain sum forced from the people by land pirates.

Q. Why do you say taken by force?

A. Because Congress says to the people, "Stand and deliver!"

Q. Stand and deliver to whom?

A. To the manufacturers, etc.

Q. In which part of the constitution does Congress find power to pass a law compelling the poor to support the rich?

A. In no part.

Q. Then where did it find the power?

A. In the Bible.

Q. Give the book, chapter and verse.

A. Matthew, 13th chapter, 12th verse. "For whosoever hath, to him shall be given, and he shall have more abundance; but whosoever hath not, from him shall be taken away even that which he hath!"

Q. Is such a law republican in the sense of being democratic—a Government in which the people rule?

A. No. It is aristocratic.

Q. What do you mean by aristocratic?

A. Government wherein the few rule the many; where the many work to support the privileged few.

Q. Explain how the tariff law establishes an aristocracy in a Democratic Government.

A. Congress says to the poor, Because this or that man is rich and produces iron, or cotton goods, or woollen goods, you shall pay him so much money for so many pounds, or yards, or go naked, and work without tools.

Q. What reason does Congress give for such a tyrannical law?

A. Congress says, the law is a "differentiation of industrial function," which means, that industry is the function of the poor, and the difference goes to the rich.

Q. Is that the only reason congress gives?

A. No. It says the tariff is intended to foster infant industries at home.

Q. Are the iron, cotton and wool industries infants?

A. No. They are a hundred years old.

Q. What date has Congress fixed for those industries to become of age?

A. When Gabriel blows his horn. One Congressman did move to make the time later, but when reminded that asbestos was not protected, he said he would withdraw his motion, "as it would do no good after Gabe blew." He sighed and sat down.

Q. What is the meaning of protective tariff?

A. Protection of the rich from getting poor and the poor from getting rich.

Q. What is the difference between the tenants in Ireland and the farmers of America?

A. None. In both cases the tax-gatherer lives in the east and the Sheriff is after both.

Q. Is there any other similarity in the condition of many of the Irish tenants and American farmers?

A. Yes. The tenants are too poor to stay and the farmers too poor to leave.

Q. Is that the only benefit the protective tariff confers upon the poor?

A. No. It improves their morals; keeps them contented; keeps down useless desires.

Q. How does Protection produce such happy results?

A. The poor have to work so hard to support the rich they have no time for mischief. Having no money to leave home or travel, they see nothing, and their desires are kept dormant. That brings content.

The shortage of coal is getting serious in Buffalo.

There were eight suicides in New York city last week.

The cheapest cigar at Johannesburg, in the Transvaal, costs 1s. 6d.

The postoffice at Sundridge was broken into and burglarized on Sunday night. Only a handful of small change was stolen.
