

SEE YOUR CATARACT.

How the Obstruction to the Sight Grows and May be Watched

Cataract is said to be due to the gradual disposition of oxalate of lime in the substance of the crystalline lens, at first in small spots or streaks, sometimes in one part and sometimes in another. The deposit gradually increases until it penetrates the whole of the lens, causing blindness. The remedy, then, is to remove the lens, and after its removal the patient needs a substitute in the form of highly magnifying spectacles.

All that is necessary to enable a patient to see his own cataract for himself is a piece of card and a needle—a visiting card will do very well. Pierce a clean round hole near the middle of the card and hold the card up to the light close to the eye, looking preferably in the direction of a piece of blue sky. With the card near to the eye the patient will not see the small hole pierced by the needle, but he will see a comparatively large faintly-illuminated field with his cataract projected upon it. He is, in fact, observing the shadow cast by his cataract on the retina at the back of his eye. With a small puncture in the card the shadow so thrown is comparatively sharp. But with a normal eye an evenly illuminated field or clean disc will be seen. The patient may thus map down his own cataract, and settle for himself whether it is extending and whether he will have an operation or not.

AN AWFUL END.

A Spanish Bull Fighter's Terrible Fate—Gored to Death by a Mad Bull

A terrible affair at Madrid on Saturday is described by the Standard's correspondent. The bull-ring performances were in full swing; one bull killed four horses, and showed much fierceness when the banderilleros fixed their darts on his neck. Sixteen thousand spectators anxiously watched the celebrated matador, Manuel Gracia Espartero, a fine handsome man of 23 years, as he approached the bull with his usual daring, and was knocked down. Recovering his feet, he attacked the bull again close to a dead horse, which prevented Espartero from taking proper precautions as he plunged his Toledo blade up to the hilt in the shoulder of the animal, which, though dying, caught, tossed, and gored the bull-fighter. The unfortunate Espartero was carefully raised, bleeding profusely from a ghastly wound in the stomach. His hands were clenched, his features rigid, and his groans were dreadful. On arriving at the infirmary attached to the bull-ring Espartero was speechless, and the doctor pronounced his wound mortal. Priests promptly administered extreme unction in the presence of many gorgeously attired bull fighters, all kneeling bareheaded and deeply moved. Before he expired Espartero murmured the name of his sweetheart, whom he was to have married shortly, and who lives in Seville with the aged mother of the deceased bull-fighter. He and the bull died at the same instant. After the death of Espartero, notwithstanding the intense excitement among the public, the corrida was continued. The bulls showed much fight, killed 15 horses, and knocked down and severely bruised two other bull-fighters. The incident has occasioned little less excitement than the death of a Cabinet Minister, for Espartero was well-known throughout the whole of Spain as a torador. Espartero was only 14 when he showed a decided vocation for the calling, in which he became a banderillero at 17, and a matador at 20, he had made a large fortune, and contemplated retiring next year.

\$75,000.

Five Lucky Hobokenites.

There is not a happier quintet in the prosperous city of Hoboken, it is safe to say, than the five lucky men upon whom the fickle goddess bestowed the first prize of \$75,000 in the April drawing of the Honduras National Lottery Co. (Louisiana State Lottery Co.), now at Puerto Cortez, Honduras, C. A.

It was last fall when Mr. Oscar Hanger, a newsdealer, who resides at No. 704 Garden street, Hoboken, induced four friends to join him in purchasing a lottery ticket. Each of the men paid one dollar, and as the drawing took place monthly, the men continued purchasing a \$5 ticket, until in the April drawing the lucky number 72,121, won the \$75,000 prize, the number held by the lucky Hobokenites.

The news of the happy occurrence spread rapidly, and shortly after our reporter visited the lucky winners, who are mostly Germans, to get an interview in respect to their plans.

Oscar Hanger was first seen. He lives in a modest little house, No. 704 Garden street, Hoboken.

"Well," Mr. Hanger said, who is a man of about forty-eight years of age, "I guess I can make good use of the money. I have made a good living as newsdealer for the last twenty-five years and I do not intend to give up my business altogether. The money I shall invest in real estate. I think it safest nowadays."

John R. Henchy, the second participant in the \$75,000 prize, is one of the proprietors of the Hoboken Evening News, a very active and prosperous newspaper.

The reporter found him in his cosy little residence, No. 1007 Bloomfield street. "I am quite a young man yet," said Mr. Henchy, who is about thirty-five years of age, "and I think this is a chance to be used to the best advantage. The Lottery Company paid the money promptly and without making any deductions. In fact, I have not come to any conclusions yet how to invest the money. I will certainly work along for the News as if I had never played."

The other parties interested are Albert Kieselbach, a barber, residing at No. 501 Washington street; Harry Matthews, a compositor on the Evening News, and Mr. Louis Piser, of 21 Willow avenue.

The money has been divided, each of the parties receiving \$15,000 as his share. They are all industrious, sober men, and no doubt the possession of so large an amount of money will not be of any danger to them. (New York Dispatch.)

FROM SUFFERING TO HEALTH.

The Experience of a Well-Known Bruce Country Farmer.

He Tells the Story of the Disease That Afflicted Him, the Sufferings He Endured and how he Found Release—Other Sufferers May Take Hope From His Release.

From The Teeswater News

Of all the ills that flesh is heir to perhaps none causes the sufferer keener anguish, and few are more persistent and more difficult to eradicate from the system than that nervous disease known as sciatica. The victim of an aggravated form of this malady suffers beyond the power of words to express and it is with the utmost reluctance that the disorder yields to any course of treatment intended for its cure. Hearing that a rather remarkable cure had been effected in the case of Mr. William Baptist, a respected resident of the township of Culroas, a News reporter called upon that gentleman to ascertain facts. Mr. Baptist is an intelligent and well-to-do farmer. He is well known in the section in which he resides and is looked upon as a man of unimpeachable integrity. He is in the prime of life, and his present appearance does not indicate that he had at one time been a great sufferer. He received the News representative with the utmost cordiality, and cheerfully told the story of his restoration to health, remarking that he felt it a duty to do so in order that others afflicted as he had been might find relief.

Up to the fall of 1892 he had been a healthy man, but at that time while harvesting the turnip crop during a spell of wet, cold and disagreeable weather, he was attacked by sciatica. Only those who have passed through a similar experience can tell what he suffered. He says it was something terrible. The pain was almost unendurable and would at times cause the perspiration to ooze from every pore. Sleep forsook his eyelids. His days were days of anguish and night brought no relief. Reputable physicians were consulted without any appreciable benefit. Remedies of various kinds were resorted to and his condition was worse than before. The limb affected began to decrease in size, the flesh appeared to be parting from the bone, and the leg assumed a withered aspect. Its power of sensation grew less and less. It appeared as a dead thing and as it grew more and more helpless it is little wonder that the hope of recovery began to fade away. All through the long winter he continued to suffer, and towards spring was prevailed upon to try Dr. Williams' Pink Pills. He commenced using them and soon felt that they were doing him good and hope began to revive. By the time he had taken three boxes the pain was eased and the diseased limb began to assume a natural condition. He continued the use of the remedy until he had taken twelve boxes. In course of time he was able to resume work and to-day feels that he is completely cured. He has since recommended Dr. Williams' Pink Pills to others with good results.

An analysis shows that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life to the blood and restore shattered nerves. They are an unfailing specific for all diseases arising from an impoverished condition of the blood, or from an impairment of the nervous system, such as loss of appetite, depression of spirits, anemia, chlorosis or green sickness, general muscular weakness, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after effects of la grippe, and all diseases depending upon a vitiated condition of the blood, such as scrofula, chronic erysipelas, &c. They are also a specific for the troubles peculiar to the female system, building anew the blood and restoring the glow of health to pale and fallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses.

Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Company, Brockville Ont., and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box or six boxes for \$2.50, and may be had of all dealers or direct by mail from the Dr. Williams' Medicine Company at either address. Beware of imitations and substitutes.

Edison is now at work on a plan to grease the sides of ships, so that they will slip through the water more readily. He says the friction of salt water and its constituents are much more than is generally believed, and if he can only do what he is trying to do the Campania can make the voyage between New York and Liverpool in four days.

"I Have Had Rheumatism for years, and Nerviline is the only remedy that has done me any good." So writes Thomas McGlashan, North Pelham, July 21, 1893, and his testimony is supported by thousands of others who have experienced the wonderfully penetrating and pain subduing power of Nerviline—the great nerve pain cure. Nerviline is just as good to take as to rub on, and is the best family remedy in the world. Nerviline is sold by dealers everywhere.

If young men must sow wild oats, why not young women? Ah, boys, it's a poor rule that won't work both ways.

RECIPE.

For Making Root Beer
During the summer months a more delicious drink than Root Beer could not be desired. For the benefit of our readers we give this recipe. Take

Snider's Root Beer Extract . . . one bottle
Yeast . . . half a cake
Sugar . . . 4 lbs.
Lukewarm Water . . . 6 gallons

Dissolve the sugar and yeast in the water, add the extract, and bottle, place in a warm place for twenty-four hours until it ferments, then place on ice, when it will open sparkling and delicious.

The Root Beer Extract can be obtained at all Grocers' and Drug Stores, at 25c. per bottle. Snider Mfg Co., Toronto.

Some idea of the number of New York men who get their clothes in London may be gathered from the fact that recently there were 23 agents for English tailoring houses in that town. Most of the goods are brought into the country free of duty and cost the wearers little less than the same clothes made here. All the big London houses have places in New York City where alterations are made free of charge.

A Novel Banking Institution.

A novelty in banks and banking is the W. C. Lindsey & Sons Banking Company of St. Louis, with a capital stock of \$100, at \$1 a share. The officers at present are: Mr. W. C. Lindsey, Sr., President; Mr. Louis H. Lindsey, Vice-President, aged 64 years; Mr. Robert T. Lindsey, cashier aged 5 years; Richard W. Lindsey, aged 5 years; Everett L. Ames, aged 4 years, and W. C. Lindsey, Jr., aged 1 year. It was decided to capitalize the bank at \$100 and issue 100 shares at \$1 each, and to pay something each week on the shares, any amount from 1 cent up being received and the proper credit given. As fast as these shares are paid up certificates are issued, signed by the President and cashier.

The bank was originated to induce the children to save money, and has become so popular that after fifty-one shares were reserved for the family and forty-nine disposed of, there were calls for forty more shares. At the next meeting the Board will consider the advisability of increasing the capital stock to \$500, when they will probably invest in real estate. At present the bank is making loans in small amounts at the rate of 5 per cent. a month, and now holds \$47 of paper at the above rate. They have set their mark at \$100 per share, and confidently expect to make each share worth that amount by the time the cashier attains his majority. Among the stockholders are residents of Oklahoma, Kansas, Arkansas, Tennessee, and Mississippi. The bank paper is out in good style, and there is a bank safe.

Nothing Stands as High,

as a remedy for every womanly ailment, as Dr. Pierce's Favorite Prescription. Here is the proof. It's the only medicine for women so certain in its effects that it can be guaranteed. In every case if it doesn't cure, your money is returned. Can anything else, though it may be better for a tricky dealer to sell, be "just as good" for you to buy?

"Favorite Prescription" is an invigorating, restorative tonic; a soothing and strengthening nerve, and a complete cure for all the fundamental derangements, painful disorders and chronic weaknesses peculiar to the sex.

For young girls entering womanhood; for women at the critical "change of life"; for women approaching confinement; nursing mothers; and every woman who is "rundown," tired, or overworked—it is a special, safe, and certain help.

Dr. Pierce's Pellets cure constipation, piles, biliousness, indigestion, or dyspepsia, and headaches.

An honest dollar is one that is honestly earned, be it gold, silver or paper.

Very Hard Indeed.

There are so many things that appear unnecessary, and which for the life of us we can see neither purpose nor end. It may be corns are just one of those thorns in the flesh the why and the wherefore of which we cannot see. Nevertheless they are of the kind that are easily removed. Putnam's Painless Corn Extract makes short work of them. Try it and see how nicely it coaxes them out. Use none other than Putnam's Corn Extract. Sold by druggists.

What does a woman sometimes give a way without losing any of it? A piece of her mind.

An attractive and useful hedge is formed from the Honey Locust. It is very hardy and beautiful and can be pruned with impunity. It is most valuable for a farm hedge as it is impenetrable. Brown Bros. Co., Toronto, Ont., offer it very cheap this year. Some good man should write them for their agency.

That Tired Feeling

The marked benefit which people overcome by That Tired Feeling derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." J. B. Emerton, a well known merchant of Auburn, Maine, says:

Mr. J. B. Emerton.

"About five years ago I began to suffer with very severe pain in my stomach, gradually growing worse. I took Hood's Sarsaparilla, being convinced that I was troubled with Dyspepsia complicated with Liver and Kidney troubles. I improved at once and am certainly very much better and feel more like working."

Hood's Sarsaparilla

always gives me relief and great comfort. It is a God-send to any one suffering as I did."

HOOD'S PILLS cure Habitual Constipation by restoring normal action of the alimentary canal.

MANHOOD Wrecked and Rescued. By W. J. HUNTER, Ph.D., D.D. A series of chapters to men on social purity and right living. It is written in plain language that all may understand. Live Agents wanted. Circulars containing terms sent on application. William Briggs, Publisher, Toronto, Ont.

A Printer's Error..

Sometimes it is a very expensive thing for the printer, but more often for the advertiser. We recently advertised our well known, and people say, deservedly popular "LADIES' JOURNAL," and the printer made us say that the subscription price was Fifty Cents a year, when everyone knows the regular rate is One Dollar per year, and is one of the cheapest and best ladies' papers on the Continent at that figure.

Now, the queer part of the whole business comes in. We had such a rush of subscriptions at the fifty cent rate that we have decided to let the JOURNAL go at fifty cents during the usually dull summer months, so as to keep

Our Eight Fast Steam Presses
On the run all through the long, heated term, that most every publisher in the land calls "the dull, dull, dog days."

Ladies . . .
Now send on your half-dollar (by money order, through the Express or Post office; or postage stamps, if these are unattainable,) and get the JOURNAL for a year for just half-price. Take advantage of the low offer while it is going, for, unless we have an enormous list at this price, we will not be able to continue it. We will send the JOURNAL, post-paid, to any address in Canada or the United States at this half rate, but accept it now.

Two for One, and a Present
Better still. Get a friend to join you and send one dollar, and we will mail the JOURNAL to each of you for a year, and in addition, make you each a present of a Sterling Silver-Plated Souvenir (Toronto) Coffee Spoon, with gold-plated bowl. We have seen spoons not so good as this retailed at one dollar. No premium is given with a single subscription.

Boys and Girls . . .
There are lots of beautiful things in the JOURNAL of interest to you; it is not only for your big sisters and mother. There are prizes offered every month for the best compositions, poems, stories, etc. Get father to subscribe for it for you.

No Agents . . .
We employ no agents, so do not wait for one to call on you. We could not afford any commission at this cut price. Remit direct to THE WILSON PUBLISHING CO., Limited. 73 to 81 Adelaide Street West, Toronto, Canada.
