Inspecting the Trent Route.

The Peterborough Examiner of the 22nd inst. says:—

"Messrs. J. H. Balderson, B. A., secretary of the Department of Railways and Canals, Ottawa, Dr. Preston, M. P., Carleton Place, R. B. Rogers, superintending engineer of the T. V. C., Commodore Calcutt and others boarded the steamer Daisy, yesterday, and made an inspection of the Trent Valley Canal, taking in the waters of the Otonabee and Trent rivers. The route was pretty thoroughly inspected, and the party returned in the evening. Mr. J. H. Balderson inspected the route from Healy's Falls to Balsam Lake, and was much surprised at the facilities the chain of waters afforded for navigation. It is stated that in a very short time tenders will be called for, for the construction of the nine-mile section between Lakefield and Peterborough, and the six mile section between Balsam lake and Lake Simcoe. Hydraulic lift locks will be placed on this section, and six locks will be placed on the nine-mile section, as against thirteen ordinary locks."

The Cost of Elections.

A prominent American passed through Toronto on Saturday on his way to Chicago. In the course of conversation he said: "I was in Massachusetts the other day when a Republican candidate was nominated for one of the Congressional districts. To secure the nomination cost \$20,000, and the election, that will take place later on, will necessitate the expenditure of \$80,000 more.

There is a total of \$100,000 for a seat held only two years. And yet we expect honest government from men elected in such a way. Why, that man will have to draw on the treasury of the Sugar Trust before he even sees Washington."

Things are not yet so bad with us, but we are steadily following the evil example of our neighbors. The cost of politics is ever growing greater in Canada as well as in the United States. The expense of looking after the voters' list alone may run with us anywhere from \$500 to \$4,000 for each side during a Parliamentary term. The other expenses also foot up to a very large sum, and all this cost falls mainly on the candidates. This is all wrong. Pure government is impossible under such a system. The first step towards improved conditions must be in the direction of a reduction of the cost of elections and the distribution of this cost over the rank and file of the party instead of forcing it all upon one man.—Toronto News.

Jack-the-Ripper in the Austrian Tyrol.

VIENNA, Sept. 23.—A terrible double tragedy of the "Jack-the-Ripper" class is reported from Amras, not far from Innsprucek, capital of the Austrian Tyrol. On Friday last a young and pretty waitress of Amras went away from her employer's residence to witness a religious procession near that place. On her return home the girl was murdered, and the only clue found up to the present of her assassin is a razor-edged knife, which was picked up near her body. The murder caused a great sensation in the neighborhood. Close to the spot where the waitress was killed the body of another woman, naked, and slashed with a knife in the regular "Jack-the-Ripper" fashion, was found to-day. In addition, another woman belonging to the same neighborhood is missing. The whole of the Amras district is in a state of the greatest excitement. A strong detachment of gendarmes and two companies of imperial riflemen are scouring the country around Amras, but so far all efforts to arrest the murderer have proved unsuccessful.

Ten-dollar Bank of Montreal bills raised to fifties are floating about Montreal.

Louis Bradshaw, a young man, and Josephine Beauchamp, a little school-girl, were seriously, if not fatally, hurt at Port Hope on Monday by a G. T. R. train crashing into a rig they were driving on a level crossing.

An Ottawa market gardener has succeeded in selling a shipment of his tomatoes in Liverpool at a shilling per pound. If a steady market can be obtained at even half that figure, farmers in Ontario ought to make more out of growing tomatoes for England than they do even out of the cheese sent to that country.
