

Carpets and Oil-Cloths, No. 9 Keenan's Block, Kent Street, Lindsay.

This would be a Sweeping Reform.

When the late Chief Justice Harrison was at the head of the bar in Ontario his highest earnings were, it is said, \$7,000 per annum. Two or three years ago the leading commercial lawyer of Toronto was credited with an annual income of \$15,000, while two or three eminent jury lawyers were in receipt of as much as \$25,000 apiece.

This is one phase of the law question. Another is found in the fact that it is no unusual thing, in a suit involving \$400, for the costs to reach \$700. And who gets the big pull at these costs? It is not the hard-working solicitor who spends perhaps six months over one side of the case. He will get possibly \$150, out of which \$60 will represent disbursements, while the eminent counsel, who appears in court for a day and a half, will walk off with the other hundred and fifty.

But the evil is working its own cure. Costs have reached such outrageous figures that men of business are seeking some means of escape. This is the principal reason why arbitration is coming so much into favor. "In fact," said the barrister from whom the foregoing facts were obtained, "do not be surprised if a demand soon arises for the abolition of both juries and lawyers in all civil actions and the substitution of a tribunal consisting of three judges, one of whom shall present the case for the plaintiff and another the case for the defendant, the last of the three being left to weigh the evidence on both sides and give his decision accordingly."—Toronto News.

In New Haven, Conn., there are 42 cases of typhoid fever. Many of the people who are ill attended a society dinner at which raw oysters were served, and it is believed the unusually large number of cases are traceable to these oysters, which are thought to have been fattened in water through which sewage flows.

THE CANADIAN DRY GOODS SYNDICATE.

Buying Power Over \$2,000,000 Per Year.

Few of our customers are aware of the existence of what is known as the "Canadian Dry Goods Syndicate," composed of eighteen of the leading retail firms between Montreal and Windsor, an organization of which our firm is one. Jointly we have a purchasing power of over two million dollars per year, a buying capacity larger than any wholesale dry goods house in the Dominion. Having such enormous purchasing power, we are enabled to go into the markets of Great Britain, Germany, France, Switzerland, and wherever goods are manufactured for the needs of our trade, and with our united force buy direct from the makers. The benefits and advantages of this great buying force we now offer to the people, and it must be apparent to every intelligent person that, buying our goods under such favorable circumstances, and by sending a buyer over the Atlantic twice a year to make our purchases, as a place to trade in ours is unequalled, and for the newest and cheapest goods ours is headquarters. For nearly 35 years we have been before the Lindsay public, and while we have served them well during this time, we have never been in the unrivaled position to serve them as well as now. Our departments are: Clothing, ready-made and to order, Millinery and Mantles, Carpets and House Furnishings, Dress Goods and Furs and General Dry Goods.
