

**FISHING.**—Bass and 'lunge fishing will commence on Thursday next, the 15th inst., when a member of the *Gazette* staff will test the merits of the lately patented Yankee trolling device, consisting of a perforated glass tube containing a live minnow and surrounded by a captivating display of shining steel hooks. If the device is half as successful in our Canadian lakes and rivers as it is said to have proved in American waters, it will be mighty cheap at a dollar, the price at which it is sold.

**Turnip Seed!** Turnip Seed!!! Turnip Seed!!! A complete stock, several varieties, at W. T. Junkin's.

**GOING UP.**—The new white brick block owned by Mr. Northey and Mr. Nevison is progressing rapidly, and the carpenters commenced work on it a few days ago, the walls being up to the height of the first story. The block will contain three stories about 20 x 62 feet, with dwellings above, and it is hoped that it will be finished by the 1st of September. Mr. Wm. Jeffrey has the contract for the masonry, brickwork and plastering, and the woodwork is being done by Mr. Geo. Littleton.

W. T. Junkin has a fresh stock of Hellebore, Paris Green, Insect Powder and Fly Paper just received. Give him a call.

**GOOD PROSPECTS.**—Our farming friends are rejoicing over the present good prospects of an abundant harvest, for crops of all kinds are looking about as well as it is possible for them to look at this time of year, and it is almost certain that there will be a very heavy yield of hay—heavier, some say, than that of last year. Of course there is plenty of time for all sorts of things to happen to grain, roots, fruit and vegetables; but let us look ahead with cheerful spirits, for 'tis better to have hoped and been disappointed than never to have hoped at all.

**Lovely and Cheap.**  
We have the best, nicest and cheapest *Summer Shoes* in Lindsay. We keep away ahead in styles, variety and prices lower than ever. You will be sorry if you don't come to head-quarters.

JOHNSTON & SIFSON,  
The *Monster Shoe Store*.

**IN A FIX.**—On Thursday of last week a little boy about two years old, son of Mr. Thomas Isaac of Fenelon, was playing with the band off the end of the hub of a very large waggon wheel, and at last put it on his head, when it slipped down onto his neck and defied all the efforts of his parents to get it up again. The iron necklace, though inconvenient to the baby, did not hurt him, but of course it had to be got off somehow, so he was brought to the office of Dr. Graham, who put him under the influence of chloroform, and, by a little gentle violence, managed to relieve him of his burden. As the band was about five inches wide and nearly half an inch thick, it would have been exceedingly difficult to cut or file it without more or less injury to the child.

**COW KILLED.**—Yesterday morning early a valuable young milk cow owned by Mr. Thomas Austin got on the railway track near the pulp mill and was struck by the engine of a special train, which knocked her down, cut off one hind foot and smashed the other. Dr. Mason, who went to look at her, saw at a glance that, even if cured, she would always be a helpless cripple, and soon afterwards she was put out of her misery. There were three cows on the track at the time. One of them, a black one, jumped off as the train approached; but the third, which belongs to Mr. Thomas Cook, "legged" it north to the crossing at the foundry, where she stepped aside, having won a race of fully a hundred yards, though the train was running at a speed of about twenty miles an hour and her tail was on the cowcatcher all the time. Mr. Austin and others are of the opinion that he can make the railway company pay for his cow, as the train was running far faster than allowed by law.

The Duke of Edinburgh has been promoted to the rank of admiral of the fleet.

Minnesota pine to the value of more than \$5,000,000 is said to have been stolen from the state.

Large quantities of nursery stock have been seized on the Niagara frontier for alleged non-payment of duty.

In consequence of official admission that cholera exists in Hamburg, the Berlin authorities are adopting rigid measures to prevent the spread of the disease.

C. B. Jewell, the Rock Island rain-maker, began operations at Meado Centre, Kansas, at 1 o'clock on Friday afternoon. He claims to have discovered the secret of Melbourne's plan for rainmaking and to have added various important improvements to it. His apparatus sent gases into a cloudless sky for six hours, when clouds began to appear, which at 10.30 last night had collected together and begun to discharge rain. The rain continued falling until daylight this morning.

The long-anticipated Borden murder trial is now going on at New Bedford, Mass.

The manufacture of salt was commenced at Mooretown, Ont., on Monday. The works have a capacity of 200 barrels a day.

A serious fire broke out in the Fuente coal mines, in Mexico, four miles from Eagle Pass, Tex., on Saturday night. Twenty-six of the miners were entombed, and it is almost certain that all have perished.

Charles Richmond, an aeronaut, 35 years old, belonging to Springfield, Ill., made a 3,000-foot ascension at Trenton, N. J., on Monday, and lost his life. His parachute failed to work properly. Four thousand people saw the man dashed to death.

Reports from several cities of Asiatic Turkey say that cholera has appeared in many districts and is spreading rapidly. Along the lower Tigris and the Shat-el-Arab river people are dying by thousands. Whole villages have been deserted by those fleeing from the pest. The panic has become so great that few families wait to bury their dead or even to nurse their sick, but flee to the next town to escape infection. The fugitives from stricken towns are spreading the epidemic with appalling rapidity. Letters from Bassora City say 70,000 persons fled from Bassora province alone.

In the violent storm on the 23rd of May, Wm. J. Guthrie, of Tay, and his family, received a rapid education on the delivry of lightning. A bolt struck his house, demolished the brick chimney, crumpled the stovepipes, smashed the stove, tore a big hole in the floor, broke a barrel of soft soap in the cellar to pieces, crashed through a door leading upstairs and killed a dog. Two children were on the stairway, playing with the dog, and had the animal between them when the lightning struck it. The children were able to run out of the house with their parents. Harry Hill was not far from Mr. Guthrie's house. He was stalling a span of horses at James Elliott's barn. A bolt struck the pig pen close by and Hill was stunned.

**DIED.**  
WALKER.—At Bury's Green, in the township of Somerville, on Wednesday, May 31st, Margaret Hume, relict of the late James Walker, aged 82 years.  
JOHNSTON.—In the township of Fenelon on Friday, June 2nd, Mr. Thomas Johnston, aged 84 years.
