

**A Hundred Years Hence.**

The bicycle of 1993 will be built on much the same lines as the safety of 1893—i. e., with two small wheels very nearly the same size. This was the plan of the first machine built in 1817, and now, after a lapse of 76 years, we have come back to the original design. A machine on this plan can be built stronger and lighter than on any other model. With the weight between the two wheels there is less vibration than when it is over any one of them, as in passing over an obstacle the weight is lifted only half the distance in the former case that it is in the latter.

Then by the use of some alloy of greater tensile strength, weight for weight, than steel, and by filling the tires and the tubes in the framing with hydrogen instead of air, the weight of a road machine will be reduced to ten pounds or less, while racing machines will not weigh half that much. The machine will also be made so that it can be folded up and carried about or stowed away in some corner. By improvements in the construction of the bearings of moving parts, friction will be almost wholly eliminated, and the method of applying power will be so perfected that there will be absolutely no such thing as lost power.

The roads will be prepared especially for bicycles, the grades being very slight, and, in fact, only sufficient to provide proper drainage. The surface will be hard and smooth, the outside of all curves being raised as on a race track. The roads will be kept clean, as by that time horses will be found only in the zoological gardens. The improvement in the rider will be equally marked. From the continued and increasing use of the wheel, a race of people will be evolved that will take to cycling as readily as a foreign immigrant does to politics. Taking all these things into consideration, we may expect an average speed of 30 miles an hour on the road and 60 miles on the track. The use of the machine will be universal.

Children will be taught to ride as they are now taught to walk. The suburbs of our great cities will extend from 60 to 100 miles in every direction. All patents will have expired, and such large numbers of bicycles will be manufactured that the cost will be nominal and within the reach of all. There will be no more crowded tenement houses. The artisan, who will work only four hours a day, will live with his family in a cosy little home in the suburbs, where he can see the sunshine and breathe the fresh air. The use of the wheel will have so improved the stamina and physique of the race that the only cause of death will be old age and accidents.

Railroads will be used for the transportation of freight only. Every individual will own a bicycle. Those intended for long distance travel will be run by small but powerful storage batteries, which may be charged at automatic electric stations by connecting the battery to a dynamo and dropping a coin of small value in a slot. With machines of this character it will be possible to attain a speed of 150 miles an hour, and to overcome the wind pressure they will be fitted with wedge-shaped wind shields made of some tough yet transparent substance. The bicycle will not be used in war for the simple reason that, as dyspepsia will be unknown, everybody will feel so well and be so good-humored and disinclined to quarrel that there will be no one to go to war.—*Scranton Truth.*

**An Estimate on Pill-taking.**

The *Chemist and Druggist* recently asked its subscribers throughout the United Kingdom to supply it with estimates of the number of pills consumed in the kingdom daily. The estimates were based upon the actual daily sales, by the correspondents, of ordinary pills, prescription pills, and pills which are patent medicines. The average of these estimates, which were received from all parts of the kingdom, shows that the extraordinary number of 5,643,961 pills is computed to be the daily consumption. This would give one pill per week to every man, woman and child in the kingdom; and a little calculation shows that, taking the average pill to weigh three grains, a year's supply for the United Kingdom would weigh not less than 178 tons, or sufficient to fill 36 ordinary railway-waggons, thus making a train-load requiring two powerful engines to pull it.—*Tit-Bits.*

G. P. Mills rode on a tricycle from Land-End to John O'Groats' house, about 700 miles, in three days and 16 hours.

Foxes are so plentiful between East Bucksport, Me., and Bangor that the stage horses are frightened by their barking.

Scotland has enjoyed an unusually favorable season, and the crop prospects at present are of the brightest, more especially the oat crop.

Many well-to-do Germans living in Melitopol and Simferopol, Russia, desiring religious liberty, are about to start for Canada and the United States.

**THE GREAT SOUTH AMERICAN NERVINE TONIC**

**AND Stomach and Liver Cure**

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this Great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

**IT IS A GREAT REMEDY FOR THE CURE OF**

- Nervousness,
- Nervous Prostration,
- Nervous Headache,
- Sick Headache,
- Female Weakness,

- Bronchitis and Chronic Cough,
- Liver Complaint,
- Chronic Diarrhoea,
- Delicate and Scrofulous Children,
- Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

**NERVOUS DISEASES.**

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., AUG. 20, '92.  
To the Great South American Medicine Co.:  
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.  
J. A. HARDEE, Ex-Treas. Montgomery Co.

REBECCA WILKINSON, of Brownsvalley, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia, and Indigestion, until my health was gone. I had been doctoring constantly, with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy, a few bottles of it has cured me completely. I consider it the grandest medicine in the world."

**INDIGESTION AND DYSPEPSIA.**

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynetown, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

Mrs. ELLA A. BRATTON, of New Ross, Indiana, says: "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon, if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
