

Wondrous Things, Though Small.

It is not always the things of gigantic proportions that excite the greatest curiosity. Mastodons, elephants, whales and other creatures of monstrous size are and have been wonders indeed; so, too, are the pyramids and great cathedrals, towers and monuments, etc.; the great Corliss engines, the 16-drive wheel locomotive and other triumphs of mechanical skill. But while this is true beyond question, how about the wonders revealed by the microscope and the work of the deft-fingered artist, D. A. Vr. Meer, who painted a landscape on the side of a grain of wheat? By the use of a strong microscope only could the wonders of this minute painting be distinguished. Yet when a good glass was brought to bear upon what appeared to be a spot of variegated paint upon the side of the wheat, grain all was changed into a beautiful landscape—a forest, a mill at the side of a river, a miller climbing an outside stairway with a sack of grain upon his back; a tall cliff at the side of the mill, and a winding road along which some peasants are trying to drive a refractory pig! If the inventor and builder of the great Corliss engine that furnished power to turn all the machinery at the centennial exposition of 1876 deserves great praise, what shall we say for the skillful English watchmaker who exhibits an engine of 122 distinct pieces (not including thirty-three bolts and screws) which could all be hidden in a lady's No. 7 thimble! In the mill of a codfish, or in water in which decaying vegetables have been infused, the microscope discovers animalcules ("little animals") so minute that 10,000 of them would not exceed a single grain of mustard. Yet, strange to say, these infinitesimal creatures are supplied with organs as complete and as complicated as those of the whale, the elephant or the mastodon.—*St. Louis Republic.*

John O'Groat's House.

In the reign of James IV of Scotland John O'Groat and his two brothers—Malcolm and Gavin—arrived at Caithness and bought the lands of Warse and Dugisby, near the beach at the mouth of Peuland Firth, the northeastern extremity of the mainland of Scotland. In time their families increased until there were eight households of the same name. They lived as neighbors in the greatest peace and amity, each year holding a festival in the original house. At one of these annual gatherings the question of precedence arose among the younger members, and they disputed as to whom should sit nearest the "head of the table" or enter the room first. The old grandfather, Johnny O'Groat of history, was made arbitrator. He promised to have all satisfactorily settled by the time of the next annual meeting. Accordingly he built an eight-sided house in which to hold the annual jubilee. This octagonal domicile was fitted with a door and a window on each side and a round table in the centre. This arrangement made it possible for each family of the O'Groats to enter at his own door and to sit at a table which was practically "without a head." This famous house was long a landmark in Britain, and even to this day is one of the Englishmen's starting points of measurement—"Land's End to Johnny O'Groat's" signifying from one end of England to the other.—*Philadelphia Press.*

Camels in Australia.

In Australia the camel is fast taking the place of bullocks for use in the barren interior regions. It is stated that there are already opened up in the regular work in Australia five lines of camel traffic, and that on these lines over 2,000 camels are in daily use. Camels are found to be so useful that the number employed will be increased as rapidly as possible. With bullock teams only about ten miles a day can be made, but it is found that the camel will travel 84 miles in 18 hours, carrying a load of 300 pounds. In the interior of Australia are 1,000,000 square miles of almost unknown desert, and it is on the great inland plains that it is intended to utilize the camel trains, as by their use the various oases of civilization may be more directly connected than by the old bullock routes. On the arid plains and among the mud flats and brackish lakes the camel finds plenty of coarse grass and thorny shrubs on which to subsist. It is claimed that work can be found in Australia for 1,000,000 camels.—*Philadelphia Ledger.*

The room in which Napoleon I. died is now a stable. Nearly 4,000 pieces of mail, it is estimated, were handled every day last year by the New York postoffice. A Kingston hotel keeper complains through the papers that liquor is being openly sold on the military camp ground there. The largest salmon for 1893, which so far has reached London, was sent from the Shannon. When put in the scales it turned the beam at 59 lbs.

THE GREAT SOUTH AMERICAN NERVINE TONIC

AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

| Failing Health, | Delicate and Scrofulous Children, |
| | Summer Complaint of Infants. |

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., AUG. 20, '86.
To the Great South American Medicine Co.:
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.
J. A. HARDEE, Ex-Treas. Montgomery Co.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic
Which we now offer you, is the only absolutely unailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and ONLY ONE great cure in the world for this universal destroyer. There is no case of unalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRET E. HALL, of Waynetown, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
