

Enormous Enterprises.

The advancing years seem to produce an increase rather than a diminution in the number of gigantic schemes. We have all heard of the scheme for expending \$40,000,000 in the construction of a monster dam in the vicinity of Newfoundland that would turn the Gulf Stream back on itself and give New England a tropical climate, so that the Granite State boys could climb palm trees to shake off the succulent coconut on their own bleak hillsides, while the Rhode Islanders would offer scant encouragement to the peripetetic Italian banana vender, as each and all of them would have a banana tree in close proximity to his own back porch.

A more recent scheme is the bridging of the English Channel between Dover and Calais. It is said that this scheme has gone so far that a company has been formed to secure the necessary concessions from the British and French governments. The cost of this bridge is something like \$240,000,000.

The latest scheme is one for roofing London and other large cities, and thus doing away with the umbrella trust. The projector has not yet considered any such vulgar and insignificant detail as the matter of cost, and hence has not enlightened the public on this point.

Such schemes are, adds the *American Artisan*, of course, largely visionary; but they indicate a tendency to grapple with the most stupendous undertakings that is in a manner characteristic of the nervous and progressive age in which we live.

Curiosities at the World's Fair.

Among the many articles of rare and curious make is a very delicate handkerchief among Queen Margherita's laces. It is valued at \$30,000. Three different artists have wrought upon it during a period of not less than twenty years. It is so light that one is not conscious of it touching the hand if the eyes be shut, and it can be easily folded into a gold casket not larger than a Boston bean.

It is said that a Scotsman who employs 4,000 French women near Paris making lace, has sent a pair of curtains for a bay window. In the six months required for the making of these curtains two thousand different women worked on them. They are only three yards long; but the cost was \$6,000. This Scotsman has a \$50,000 exhibit of laces, and he came himself to superintend their effective hanging.

Among the mineral curiosities there is a twelve ton lump of cannel coal sent from Lancashire, England by the Wigan Junction Colliery. Pennsylvania has put up a pyramid of anthracite, ten feet square at the base and fifty-two feet high. It contains just one hundred tons. From George's Creek, Allegheny County, Md., comes a lump of cannel coal 15 feet long, 4 feet wide, and 3 feet thick. The Roslyn lump from the State of Washington is the largest ever mined. It is 5 feet thick, 36 feet long, and weighs more than 50,000 pounds.

Mr. Gladstone has sent one of his axes for exhibition in the Forestry building. It is of fine steel and is very sharp and heavy. It is very evident, from the worn condition of the ash handle, the tool has done considerable service. So far as is known, this is the only instance of an axe having been permitted to pass out of the possession of the veteran British premier, and the principal members of the timber trade of the country appreciate highly the exceptional honor thus displayed to them and their craft.

Testing Milk.

The department of agriculture has just issued a bulletin giving instructions as to the method of determining the commercial value of milk by the Babcock test. This test is for the estimation of the fat present in the milk, and as the quantity of fat varies in different cows, and sometimes with the same cow, there is no doubt that all factories should adopt the test. The principle of analyzing milk offered at factories for the purpose of determining its value, is one which is rapidly gaining ground. It insures justice to every customer, who receives precisely the remuneration to which he is entitled, and while it necessitates some extra labor, the results are more satisfactory to all, and the labor is very small. Those who have not already familiarized themselves with the Babcock test should write for the bulletin, which has been prepared by Mr. Frank T. Shutt, Chief Chemist of the Experimental Farms.—*Montreal Star*.

A tramp who had been put off a train at Duex Rivieres, near Brookville, on Friday, placed his neck across the track before an incoming train and was decapitated.

A heavy electric storm visited Middleborough, Ky., Saturday night, in which a shower of fish, of the sun perch species, was precipitated on the town. They ranged in length from 1 1/2 to 3 inches.

THE GREAT SOUTH AMERICAN NERVINE TONIC

AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

- Nervousness,
- Nervous Prostration,
- Nervous Headache,
- Sick Headache,

- Bronchitis and Chronic Cough,
- Liver Complaint,
- Chronic Diarrhea,
- Delicate and Scrofulous Children,
- Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., Aug. 20, '86.
To the Great South American Medicine Co.:
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.
J. A. HARDEE, Ex-Treas. Montgomery Co.

REBECCA WILKINSON, of Brownsvalley, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia, and Indigestion, until my health was gone. I had been doctoring constantly, with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy, a few bottles of it has cured me completely. I consider it the grandest medicine in the world."

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynetown, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

Mrs. ELLA A. BRATTON, of New Ross, Indiana, says: "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Cholera or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
