

The Mouth of the Snail.

"It is a fortunate thing for man and the rest of the animal kingdom," said the naturalist, "that no large wild animal has a mouth constructed with the devouring apparatus built on the plan of the insignificant looking snail's mouth, for that animal could out-devour anything that lives. The snail itself is such an entirely unpleasant, not to say loathsome, creature to handle that few amateur naturalists care to bother with it, but by neglecting the snail they miss studying one of the most interesting objects that come under their observation."

"Anyone who has noticed a snail feeding on a leaf must have wondered how such a soft, flabby, slimy animal can make such a sharp and clean cut incision in the leaf, leaving an edge as smooth and straight as if it had been cut with a knife. That is due to the peculiar and formidable mouth he has. The snail eats with his tongue and the roof of his mouth. The tongue is a ribbon, which the snail keeps coiled in his mouth. This tongue is in reality a band saw with the teeth on the surface instead of on the edge."

"The teeth are so small that as many as 30,000 of them have been found on one snail's tongue. They are exceedingly sharp, and only a few of them are used at a time. Not exactly only a few of them, but a few of them comparatively, for the snail will probably have 4,000 or 5,000 of them in use at once. He does this by means of his coiled tongue. He can uncoil as much of this as he chooses, and the uncoiled part he brings into service. The roof of his mouth is as hard as a bone. He grasps the leaf between his tongue and that hard substance, and rasping away with his tongue saws through the toughest leaf with ease, always leaving the edge smooth and straight."—*Exchange.*

The Sais of Cairo.

The sais is a runner who keeps in front of a carriage and warns common people out of the way, and who beats them with a stick if they do not hurry up about it. He is a relic of the days when the traffic in all of the streets was so congested that he was an absolute necessity; now he makes it possible for a carriage to move forward at a trot, which without his aid it could not do. It is obvious that to do this he must run swiftly.

Most men when they run bend their bodies forward and keep their mouths closed to save their wind. The sais runs with his shoulders thrown back and trumpeting like an enraged elephant. He holds his long wand at his side like a musket and not trailing at his side like a walking stick, and he wears a soft shirt of white stuff and a sleeveless coat buried in gold lace. His breeches are white and as voluminous as a woman's skirts. They fall to a few inches above his knee. The rest of his brown leg is bare and rigid with muscle. On his head he has a fez with a long black tassel, and a magnificent silk scarf of many colors is bound tightly around his waist.

He is a perfect ideal of color and movement, and as he runs he bellows like a bull or roars as you have heard a lion roar at feeding time in a menagerie. It is not a human cry at all, and you never hear it, even to the last day of your stay in Cairo, without a start, as though it were a cry of "help" at night or the quick clanging bell of a fire engine. There is nothing else in Cairo which is so satisfying.—*Harper's Weekly.*

Difference in the Size of Flies.

To convince householders that the small flies on their windowpanes never grow to be large ones—in fact, never grow at all—is a task of no little difficulty sometimes. The difference of size in flies is always the distinction of sexes or species, but never of age. With the exception of the gradual unfolding of its crumpled wings no change comes over the aspect of a fly from the moment of its birth from the chrysalis to that of its death. A big fly is no more a little fly grown up than a horse is an old pony, or a goose a fully developed duck. All the growth of a fly is accomplished in the maggot state, then a short period of somnolence as a smooth brown chrysalis intervenes, from which finally the young fly springs, like Minerva from the head of Jove, full sized as well as full armed.

A lone highwayman, operating in a country road in Kansas, has held up and robbed several persons.

A few days ago Patrick Tovey, Bathurst, shot a hen hawk while it was lying in wait on the roof of his barn, preparing to make a swoop down among the hens. The bird was one of the largest ever killed around there, being four feet from point to point of the wing, two feet from the bill to the tip of the tail and weighing seven pounds. Mr. Tovey lost eight or ten hens by it before his gun put a stop to the destruction. Its feet and claws were as large as a man's cut-p-head hands.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

- Nervousness,
- Nervous Prostration,
- Nervous Headache,
- Sick Headache,
- Female Weakness,
- Nervous Chills,

- Catarrh of the Lungs,
- Bronchitis and Chronic Cough,
- Liver Complaint,
- Chronic Diarrhoea,
- Delicate and Scrofulous Children,
- Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., Aug. 20, '86.
To the Great South American Medicine Co.,
 Dear Gents:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.
J. A. HARDEE, Ex-Treas. Montgomery Co.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic
 Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARMET E. HALL, of Waynetown, Ind., says:
 "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

Mrs. ELLA A. BRATTON, of New Ross, Indiana, says:
 "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

No remedy compares with **SOUTH AMERICAN NERVINE** as a cure for the Nerves. No remedy compares with **SOUTH AMERICAN NERVINE** as a curative for the Stomach. No remedy will at all compare with **SOUTH AMERICAN NERVINE** as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Cholera or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. **SOUTH AMERICAN NERVINE** is perfectly safe and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
