

Not Our Way.

(From The Arizona Kicker.)

We notice that an Ohio editor has declined the nomination of representative to fill a vacancy in the state legislature. Not only that, but he gives it as his opinion that no editor should accept a political office or any sort of favor from a railroad or other corporation. By looking at a map of the United States we perceive that Ohio is bounded on the north by Michigan and Lake Erie, on the east by Pennsylvania, on the south by West Virginia and Kentucky, and on the west by Indiana, but how such an editor as that is bounded we shall not attempt to figure. By working a potato patch on shares during his off days and Sunday, and by making his wife go barefoot through the winter and out her own corns in the summer, he may manage to keep his head above water in Ohio, but he must not let the western fever get hold of him. He couldn't exist for two weeks out here, even when roots are in season and at their cheapest. Years ago, when our eyebrows were silken and our feet tender, we had a half formed idea that it was the duty of an editor to boost everybody else into public view and remain in the background himself. We even decided that a railroad pass, good from San Francisco to New York, might bias his opinion of road-beds, locomotives and sidetracks. We even began our editorial career by refusing to pay a probate judge a bribe of \$50 to get \$600 worth of fat advertising. It is needless to remark that we no longer resemble the jack rabbit in appearance, nor do we do business on the Ohio principle. We take everything in the shape of a pass offered us. We miss no occasion to make a public speech. We ache for office and get it—three or four of them. If there is any head to the table at a banquet we are there. We boost ourself first and the public afterwards. If we were offered the place of minister to England to-morrow, we'd take it quicker'n seat. In our opinion there's nothing too good for an editor, and we frankly admit that when we hear of a case like that in Ohio we feel like writing to the ornery galoot and asking him what excuse he has for being outside of an idiot asylum.

A Versatile German Barber.

The following prospectus of a gifted barber of Nuremberg, who flourished in the year 1640, is published by a German newspaper:

"Isaac Makerel, barber, maker of perriages, surgeon, dyer, schoolmaster, blacksmith and accoucheur, shaves for a ruzetzer, cuts hair for two krutzers, including pomade for pretty girls, cleans stoves, instructs noble young persons, without difficulty, in the principles of grammar and teaches them fine manners as well as the alphabet. He puts on heels in a masterly fashion, repairs boots and shoes, teaches the hautboy and the flute, lets blood, lends on wages, gives lessons in the cotillion and other dances, sells cosmetics of all kinds, paper, wax, salt herrings, brushes, mousetraps, various preserves, strengthening herbs, potatoes, sausages and vegetables.

"N. B.—Teaches also chography (?) and foreign products every Wednesday, and Saturday."

Weighing a Pencil Mark.

Scales are now made of such nice adjustment that they will weigh anything to the smallest hair plucked from the eyebrow. They are triumphs of mechanism and are inclosed in glass cases, as the slightest breath of air would impair their records. The glass cases have a sliding door, and as soon as the weight is placed on the balances the door slides down. The balances are cleared again and made ready for use by the pressing of a button, which slightly raises the beams. Two pieces of paper of equal weight can be placed in the scales, and an autograph written in pencil on either side will cause the other side to ascend, and the needle which indicates the divisions of weight, even to the ten-millionth part of a pound and less, will move from its perpendicular. A signature containing nine letters has been weighed and proved to be exactly two milligrams, or the fifteen thousand five hundredth part of an ounce tray.

What Whalebone Is.

Most persons probably suppose that whalebone may be procured from any common whale, but this is not so. The Baleen whale is the producer of what is known as whalebone, and it isn't regular bone at all. This variety of whale has a broad plate running along the sides of the mouth, which is given to them in place of teeth, and from this whalebone is procured. The length varies from one foot to twelve feet, the latter being found only in the largest whales. Just imagine the size of the meal that could be eaten by a whale with a twelve-foot mouth!

Severe floods are again reported in Queensland.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach & Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

- Nervousness, Nervous Prostration, Nervous Headache, Sick Headache, Female Weakness, Nervous Chills, Paralysis, Nervous Paroxysms and Nervous Choking, Hot Flashes, Palpitation of the Heart, Mental Despondency, Sleeplessness, St. Vitus' Dance, Nervousness of Females, Nervousness of Old Age, Neuralgia, Pains in the Heart, Pains in the Back, Failing Health, Broken Constitution, Debility of Old Age, Indigestion and Dyspepsia, Heartburn and Sour Stomach, Weight and Tenderness in Stomach, Loss of Appetite, Frightful Dreams, Dizziness and Ringing in the Ears, Weakness of Extremities and Fainting, Impure and Impoverished Blood, Boils and Carbuncles, Scrofula, Scrofulous Swellings and Ulcers, Consumption of the Lungs, Catarrh of the Lungs, Bronchitis and Chronic Cough, Liver Complaint, Chronic Diarrhoea, Delicate and Scrofulous Children, Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., Aug. 20, '86. To the Great South American Medicine Co.: DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand. J. A. HARDEE, Ex-Treas. Montgomery Co.

REBECCA WILKINSON, of Brownsvalley, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia, and indigestion, until my health was gone. I had been doctoring constantly, with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy, a few bottles of it has cured me completely. I consider it the grandest medicine in the world."

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and only one great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynesville, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Cholera or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the mid-dle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
