(Correspondence of the Gazette.)

The school entertainment which took place here last Friday evening was the best ever given here; the proceeds, which were in aid of the school library, amounting to \$15.

The stallion "Morocco," owned by Messrs. John and W. A. Gillis, is coming through the winter in fine condition, and will be handled by Mr. Geo. Lake, of Cobocook, during the coming season.

Mr. John Cullis is still lingering, and feels much better some days than others, but is still confined to his bed.

Mr. Joseph Cooper is not improving much in health. His many friends are becoming anxious to see a change.

Mr. and Mrs. Wesley Mark have gone to the North-West. They intend to make it their home if they like the country.

**COLD YET.**—The old saying that "if Mare! comes in like a lion it will go out like a lamb" has not, so far, been verified; for the month entered with a roar, and now, though very near its end, it is anything but lamb-like, but there is no telling how high the temperature may rise before April Fool Day—Sunday next. The nights are still cold and the sleighing is fairly good in the country, but two robins were seen in the village on Monday, and we have heard of others, and they seldom come until spring, if not here, is just around the corner.

Millinery opening commences April 4th and following days at Mrs. MacDougall's. Everybody welcome.

**ACCIDENT.**—Wednesday forenoon of last week Mr. John Palmer of Fenelon went to a farm not far from his own for a load of hay, and on his way home it upset. While in the act of stepping from the low side of the load to the high he tripped on the hay and fell to the ground, breaking the larger of the

two bones of his right fore-arm a couple of inches above the wrist. He drove as soon as possible to the Falls, where Dr. Wilson set the fracture, and Mr. Palmer has been to the village two or three times since the accident, which will keep him from work for some weeks or months, but is not likely to have any serious result.

**WANTED.**—At once, two experienced girls to do house work. Apply to J. A. MacDougall.

**ACCIDENT.**—On Friday last Mr. Edward Carpenter, an employee of Mr. Sandford's, met with a rather serious accident while working in the planing mill, in which there is a small circular saw used to take the edges off the lumber. A strip of hardwood about twelve feet long and three-quarters of an inch square flew from the saw, and the end of it struck him on the right side, breaking two of his ribs, though, when his clothing was removed, a red mark, not larger than a dime, upon his skin was only external result of the blow. He was put in a sleigh and taken to his home across the western boundary of the village and Dr. Graham was sent for to attend to him. On Tuesday he was well enough to walk as far as Mr. Sandford's factory; but some little time will of course elapse before he will be well enough to go to work again.
