

to Mr. R. Cooper, a former faithful Steward now a resident of Lindsay. Joseph M. Farland was elected to represent the Circuit interests at the District Meeting and Conference. Ex-Serjeant Major School's address in the Methodist church on Sabbath evening, 20th inst., will attract a large gathering. Look for further announcements.

A FLEET OF STEAMERS.—Fenelon Falls can boast of the possession of a fleet of no fewer than seven steamboats, though, to be sure, neither of them is quite big enough to venture upon a voyage across the ocean. They are: The *Dawn*, owned by Mr. John A. Ellis; the *Nouna Roy* and the *Kawartha*, owned by Mr. William Burgoyne; the *Damless*, owned by Mr. Thomas Robson; the *Scotch Lassie*, owned by Mr. William Davey; the *Nobby* and *Lulu*, owned by Messrs. Jones & McCallum. The *Damless* and *Kawartha* are new boats, built by Mr. Peter Grant of Bobcaygeon, and are now being fitted up for their trial trips.

ACCIDENT.—On the afternoon of Thursday, the 3rd inst., Mr. Arthur Jewell, an employe in Mr. Sandford's factory, met with an accident while working at a small circular saw, with which the front of the fingers of his left hand by some means came into contact. The tip of the first finger, including part of the nail, was taken off, and all the rest were more or less lacerated, the third, or "ring," finger being so badly injured that, Dr. Graham found it necessary to amputate it between the first and second joints, after which the various hurts were dressed and bandaged, and the mangled hand was made as comfortable as possible.

THE CROP OUTLOOK.—This year the farmers—of this section, at least—have had as fine a seeding season as they could desire, and the heavy rain that fell early on Tuesday morning came just when it was beginning to be needed. On Sunday night there was a somewhat sharp frost, but it was not severe enough, as far as we have heard, to do any injury worth speaking of to the clover or fall wheat, both of which up to that time were in tip-top condition. The crop outlook at the present moment is very good, and, with a fair amount of rain during the next three months, the harvest of 1900 (the last year of the nineteenth century) ought to be one of the best on record.

A Sunderland lady writes Dr. Neelands that he had made her a successful fit after having eight sets of teeth made in Toronto and elsewhere.—431f

GONE TO GRASS.—In last Friday's *Gazette* we noted that Grand Island had been rented by Messrs. McDougall, Brandon & Austin, and that they had sent a drove of cattle to Rosedale, to be transferred to the island as soon as possible. Owing to unfavorable weather, they had to remain at Rosedale until last Monday night, when 52 of them were taken across the channel in batches of from ten to fourteen, according to size, on a big scow towed by the steamer *Nobby*. Mr. John Brandon, who tramped all over the island on Monday—walking, he thinks, fully twenty-five miles—says that the grass on it is splendid, affording as good pasturage as he ever saw, and that his firm will turn about 200 head of cattle loose upon the island.

THE KILN.—A contract to take down the big iron kila south of the river has been let by the Lindsay Syndicate to Mr. Felix Northey, who has already built a scaffold inside the structure, which is 102 feet high, 30 feet in diameter at the bottom and 12 feet in diameter at the top. It is built of boiler plates three-eighths of an inch thick, firmly riveted together, and there are thirty seven rows of plates, each of which is three feet wide and ten feet long. The kiln is of the same diameter for about forty feet of its height, then it tapers for the next forty feet to a diameter of twelve feet, and then is straight for the remaining twenty-two feet to the top. It has a lining, about eighteen inches thick, of fire brick from the foundation to a height of thirty feet. The contract will keep Mr. Northey and his assistants busy for a considerable length of time.

BIRTHS.

HILLER.—In the township of Somerville, on Thursday, May 3rd, 1900, the wife of Mr. J. Hillier of a daughter.
