THEY NEEDED THE LIGHT.

In a certain town there is a fire brigade composed wholly of volunteers. Not long ago a fire broke out in the town at midnight, and the volunteer firemen were quickly on the spot. The smoke was rising in heavy clouds out of the building, but no flame appeared, and the night was very dark. Presently a tongue of flame shot out of one corner of the building, and the crowd cheered as the man at the nozzle directed a stream of water towards it. But at this crisis the excited captain interfered. "Be careful what you're doing, man!" he shouted. "Keep the water off that blaze! Don't you see that's the only light we've got to put the fire out by?"

A TORONTO MAN.

THE MR. JARDINE REFERRED TO LIVES IN THE QUEEN CITY.

Well Known Throughout Canada as One of Canada's Commissioners to the Paris Exposition. —His Statement is a Very Valuable One and Has Been Read With Much Interest.

Toronto, March 17.—(Special)—Mr. J. G. Jardine, whose statement as to the wonderful curative and tonic properties of Dodd's Kidney Pills has been published in many of the papers, is a resident of this city. His home is at 305 Crawford street.

Mr. Jardine was chosen as one of the Canadian Commissioners to the Paris Exposition two years ago, and performed the onerous duties of that office with honor to himself and credit to his country.

It is to his experience in the French capital at this time that Mr. Jardine makes particular reference in the published statement in which he says:—

"During my stay in Paris I felt many times quite run down owing to the complete change and to the worries and work of our business there. I suffered not a little with backache, with general feeling of depression and I found Dodd's Kidney Pills invaluable.

"I had learned the value of this medicine before going to Europe as I had it very successfully for backache which I found it relieved almost instantly. So when I went to Paris I was careful to take with me some of this my favorite remedy.

"Every time I was threatened with a return of the trouble I used a few Dodd's Kidney Pills and can say they did not disappoint me. They are the best medicine I know of to tone up the system generally and they do certainly relieve backache instantly.

What Mr. Jardine has said is amply borne out by many others in this city whose experiences have been and are being published from day to day. Dodd's Kidney Pills are certainly without an equal as a medicine for those who are "tired out," "run down" or "used up."

Dodd's Kidney Pills have been endorsed most heartily by all classes.

INFECTION PROTECTION.

The odor from burning leather is considered a protection against infectious disease. During the prevalence of cholera in Vienna, years ago, no shoemaker was attacked. They prevented it by burning scraps of leather in their houses.

ROYAL MUSKOKA HOTEL.

This new modern, up-to-date hotel was opened for the reception of guests in 1901. It is situated in the centre of the finest summer resort region in America, known as the Muskoka Lakes, within easy reach of the principal points in Canada and the United States. The interior of the hotel is planned to the best advantage for comfort and convenience, special attention being given to ventilation and sanitary arrangements. Its spacious suites, with handsome bathtubs attached, are especially adapted to either large or small families. Cuisine and service are the best. Open for guests June 15th. For further particulars, descriptive matter and all information, write M. C. Dickson, District Passenger Agent, Toronto.

MOUNTAIN ACCIDENTS.

During the last ten years 249 accidents occurred in the Swiss mountains, resulting in 313 deaths. Thirty-seven of the victims were guides. It is said that of the whole number 237 deaths could have been prevented by the observation of common precautionary rules.

DID HIS BEST.

A soldier of the Black Watch, while passing a private of the Bushmen regiment, stepped heavily, and perhaps intentionally, upon the foot of the latter. Up sprang the "Bushie." "You stepped on my foot," he hissed menacingly. "Well," said the Highlander apologetically, "I did ma best tae leap over it, but a Hielan' mon is only human. I'm nae a kangaroo." A fierce battle immediately ensued.

A MOVABLE TOWER.

A novel fort has just been completed at San Paolo Island, at the entrance to the military harbor of Taranto, Italy. The fort is a large steel tower, with external armour 5ft. thick. It contains two 12-ton guns. The entire tower can be turned in any direction by hydraulic power. The tower weighs 50,000 tons and cost \$2,400,000.

A POPULAR HEALTH RESORT.

The Grand Trunk Railway System have included in the large list of summer and winter resorts which they are bringing before the public, the Sanitarium at St. Catharines, Ont., a retreat for rest and recuperation. A mineral spring from which the water flows and which is used for bathing and massage purposes at this establishment, was discovered years ago, and has been the means of attracting hundreds of the best class of people from the south to enjoy the benefits derived from bathing in it.

Considerably denser than sea water, the effects are very marked, and when heated and skilfully applied cures rheumatism, gout, scrofula, neuralgia, liver trouble, skin diseases and cases of nervous prostration. Many of the cures are simply wonderful. The waters of this spring are referred to in Encyclopaedia Britannica, Appleton's American Encyclopaedia, Hare's System of Therapeutics, etc.

It is only during the last few years that a commodious Sanitarium has been established at this point, combining rest-cure and family hotel.

Copies of a neat little booklet giving further particulars may be had by applying to M. C. Dickson, District Passenger Agent, Toronto.

The United Kingdom uses 3½ tons of coal a year per head of her population, the United States comes next with 2½ tons. Germany uses a little over 1½ tons per head.

A HANDSOME MENU CARD.

It is a noticeable fact that the dining car department of the Grand Trunk Railway System is second to none on the American Continent, and new improvements and modern innovations are continually being made. The Cafe-Parlor cars which have been running on nearly all of the divisions of this great System are a constant source of praise from the travelling public. The company has recently altered the style of the menu cards used on all of the dining cars and cafe-parlor cars, and have gotten up a very handsome and neat bill of fare that appeals to the artistic sense. The stock used is what is known as Old English Ruskin Bristol of fine texture, and mist grey in color. The Grand Trunk trade mark in black appears at the top left-hand corner surrounded by a neat combination of scroll work of Italian renaissance design, printed in gold and embossed in high relief. The name of the meal is also embossed in high relief, and the tout ensemble is a pleasing and artistic combination. The wine lists have the same design at top, and are printed on the same quality of card, but an olivette color for distinction.

In 15 years there have been 12 gales in May in England. The windiest month is not March, which has had 117 gales in that period, but January, with 171.

WHICH ONE?

President Schwab, of the U.S. Steel Trust, once said that he could not help knowing that he was a great man. The fact was brought home to him in a little town not far from Pittsburg. "I had my colored driver, Bob, sitting beside me," Mr. Schwab said, "and was driving through the town. A woman and a little girl, evidently her daughter, were watching us. That's Mr. Schwab," I could not avoid hearing the mother say, "Which one?" asked the child."

SHE KNEW HER FATHER.

A teacher was trying to convey to a six-year-old pupil some conception of beauty considered in the abstract, and its power to move the human heart, but the little girl was slow to grasp the idea.

"Suppose, Nellie," said the teacher "your mamma should fill a vase with lovely flowers and place them in the center of the dining-table. What would your papa say when he first saw them, on sitting down to eat?"

"He'd say, 'What are those weeds doing here?'" promptly replied Nellie.

Lawyer—"When I was a boy my highest ambition was to be a pirate." Client—"You're in luck. It isn't every man who can realize the dreams of his youth."

Messrs. C. C. Richards & Co.

Gentlemen,—After suffering for seven years with inflammatory rheumatism, so bad that I was eleven months confined to my room, and for two years could not dress myself without help. Your agent gave me a bottle of MINARD'S LINIMENT in May, '97, and asked me to try it, which I did, and was so well pleased with the results I procured more. Five bottles completely cured me and I have had no return of the pain for eighteen months.

The above facts are well-known to everybody in this village and neighborhood.

Yours gratefully, A. DAIRT. St. Timothee, Que., May 16th, 1899.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
