HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours,

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

East Victoria Nominations.

The nominations of candidates for the honor of representing East Victoria in the Local Legislature were held yesterday afternoon, too late in the week for us to give even a synopsis of the proceedings. The returning officer, Mr. C. E. Young, of Minden, presided, assisted by the election clerk, Mr. Henry Graham, of Kinmount. The nominations were as follows:

Mr. John H. Carnegie, of Bexley, nominated by Mr. John H. Delamere, of Minden, and seconded by Mr. William McArthur, of Fenelon Falls.

Mr. Louis E. Heyd, K. C., of Toronto, nominated by Mr. John T. Robinson, of Bobcaygeon, and seconded by Mr. James Edward Holmes, of Dysart.

The hall was filled to overflowing and there was plenty of speaking, Col. Sam Hughes being one of the orators. Polling will take place on Thursday next, and the Liberals feel sure that their candidate, Mr. Heyd, will be elected.

An Unfortunate Allusion.

Posters announcing meetings in the interest of Mr. Carnegie have been issued, and on them appear these words: "Redeem Ontario from ballot stuffers and ballot burners. Put up our pulpwood limits to auction. Give the people cheap school books and an honest ballot. It is time for a change."

The conditions under which the Clergy syndicate got the pulpwood limits, and the prices charged for school books, are subjects upon which people may differ without charging each other with dishonesty; but all agree upon the turpitude of "corrupt practices at elections," and the allusion to them in the poster mentioned above is an unfortunate one for the Conservatives; because it will remind electors of the fact that, although individual Liberals may have been guilty of corrupt practices, they, as a party, are miles behind their opponents in that respect, as will no doubt be proved at every Liberal meeting held in this constituency between now and election day. Talk about bribery, ballot box stuffing, ballot burning, etc!

If you want instances of them just look over the Tory record in the past, and say whether it is, or is not, a case of "the pot calling the kettle black" when they accuse their opponents of wrongdoing. Violence and intimidation in the days of open voting, and fraud since the introduction of the ballot, have been the means employed in hundreds of cases to secure the return of Tory candidates, and for them to claim to be not only not infinitely worse, but better than the Liberals, is an impudent attempt to impose on the credulity of such of the electors as take but little interest in politics and matters relating thereto. It is a pity that "The history of the Tory party in Canada," lately published, cannot be put into the hands of every man who has a vote. In 1884 they made a daring attempt to buy up a Legislature; in the general elections of 1887 they were guilty of wholesale bribery in Quebec; in the Haldimand election, in 1891, an attempt was made to influence the Indians by distributing among them a circular signed "Queen Victoria," telling them to vote for Dr. Montague, and that if her "great chief," John A., remained in power, he would make them very happy; and at the Muskoka and Parry Sound election of 1891 some of the Liberal scrutineers were not allowed to vote, though the

Conservative scrutineers were. Liberals were left off the voters' lists by wholesale, in some cases whole polling subdivisions being disfranchised, and the contents of two ballot boxes containing Liberal majorities were burned. We do not believe that Mr. Carnegie would, any more than Mr. Heyd, perpetrate, or even countenance, any such rascalities as those we have quoted, the odium of which rests entirely upon the men who were guilty of them, and not upon honest and honorable members of the Conservative party. But what about Mr. Whitney, the leader of the party who "want to get in"—what does he think about convicted bribers? He may not have known (let us hope that he didn't) of the immense expenditure of money by Conservative candidates or their agents in the general elections for the Ontario Legislature held on March 1st, 1898; but it might have been expected that he would—if only for the sake of appearances—discountenance "bribery and corruption" and turn the cold shoulder to every man found guilty of them. But he didn't. On the contrary, one of his chief associates and most intimate friends, William Smith, a Tory ex-M. P., admitted in his evidence at the South Ontario election trial that he himself paid out about \$1,200 to Mr. Calder's agents and that he (Smith) knew that they used the money to buy votes. And this man is the *Fidus Achates* of Mr. Whitney. Do you think it would be right to oust Mr. Ross and put Whitney in his place simply because the latter "wants to get in?" And don't you think the Fenelon Falls Tories who drew up the poster for Mr. Carnegie made a huge mistake in putting into it the boomerang that they did?

(Correspondence of the Gazette)

In the last issue of the Fenelon Falls *Star* we noticed some more nonsense from the *Star's* humble ink slinger. We do not wish to tax your time and patience, Mr. Editor, to answer such false statements. L. B. O. does not seem to have any regard for the truth. He says the parties have done the young people no harm. We say that if the young people of the Epworth League participate in the low dance it will certainly do them harm; they have no business going to such places. It is the greatest piece of mockery that could be imagined. Did L. B. O. ever get a pledge card? If he did he cannot have read it. He seems to be in favor of the liquor traffic and the dance, and he has a sneaking regard for the League, so that he can have a big time playing with the little boys in the back seats. How many dances did he attend last winter during the time the special meetings were going on, taking his sleigh to induce people to go? Shame! "Come now and let us reason together," saith the Lord. Though your sins be as scarlet, they shall be as white as snow; though they be red like crimson, they shall be as wool. Put away the evil of

your doings from before mine eyes; cease to do evil, learn to do well." And here's some more of L. B. O.'s nonsense—he says there is too much religion in some homes. Our opinion is that there is not enough in some. He also says it is not necessary for a Christian to testify in a religious meeting. We wonder if this is the great I am—very heavy exponent of the League. We will not again waste time, paper and ink answering any such stuff, which is so near infidelity. A scoffing infidel of considerable talent once said to a Christian: "I understand that you want to go to heaven when you die. Can you tell me what kind of a place heaven is?" "Yes, sir," replied the child of God. "Heaven is a prepared place for a prepared people, and if you are not prepared you will never enter." As this is my last, I thank you, Mr. Editor, for your valuable time and space.

S. P. S. EXAMS.—In the results of the School of Practical Science examinations, published in Saturday's *World*, we notice that Mr. J. A. DeCew, of Fenelon Falls, took the degree of B. A. Sc., (Bachelor of Applied Sciences) and that Mr. M. B. Bonnell, of Bobcaygeon, was one of the students who passed the first year supplemental examination in Statics and also in Dynamics. We congratulate both young gentlemen on their success.

BIG FIRE IN LINDSAY.—About 2.30 on Wednesday afternoon fire broke out in a stable near Hamilton's blacksmith shop, and before it was got under control destroyed property to the value of \$15,000, the principal buildings burned being Hamilton's lumber sheds and contents, Hamilton's terrace, residence and contents, Connolly's terrace and Pym's barns and contents. The fire was caused by sparks from a fire used for setting tires.

Just ten drops of Nerviline in sweetened water—that's enough, and away goes the dysentery, cured to stay cured. Nerviline also cures Cramps, Colic, Pain in the Stomach and Sick Headache. It has five times the strength and curative properties of ordinary remedies, and should be in every household. Better buy a 25c. bottle and try it. Nerviline is all right. Sold by W. H. Robson.

FAT CATTLE EXHIBIT.—The *Lindsay Evening Post* of Monday last says: "Some of the finest fat cattle brought to Lindsay this spring were on exhibition at the G. T. R. stock yard this morning. They were being shipped by Mr. P. B. McIlharry, local buyer, to Montreal, from which point they will be forwarded to Liverpool. There were about 100 choice animals of Durham and Holstein strain, and the lot filled five cars. The prices paid ranged from \$6. to 6 1/2. per pound."

Stops the Cough and Works Off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25c.

A CONVERT TO REFORM.—In its last issue the *Midland Free Press* announces that it will hereafter give its support to the Liberal party. In the editorial giving the reasons for its change of policy, it says: "We believe the Reform party in both Dominion and Provincial matters is much more capable of successfully guiding the ship of state than is the opposite party, which appears to be lamentably weak in the matter of leadership at the present time."

MONDAY A HOLIDAY.—It has been decreed that the late queen's birthday, the 24th of May—now called "Victoria Day"—is to be kept as a public holiday, and as it falls this year upon Saturday, the busiest day of the week, its observance here in the Falls has been deferred until Monday, the 26th, and our merchants have put up notices announcing that, by mutual consent, their respective stores will be closed on that day. Our readers, particularly those in the country, will do well to make a note of it, and govern themselves accordingly.

The Story of Morning-Tiredness Is told by impure blood, poor digestion, sluggish liver and tired nerves. It is a warning of serious trouble ahead, and should prompt sensible people to take a bracing tonic like Ferrozone, an energetic invigorant and re-builder. ACCIDENT.—On Saturday last Mr. George Gale, of Rosedale, was thrown from a load of lumber while on his way home from Cobocoon, and his head and neck were badly hurt. He was sitting
